

# 8-28-2016 Q & A: DEMONS in the BLOOD

Debbie Asked:

Hi Cherie, I just got done listening to you on your website.....spiritual warfare of your house. I'm wondering if you could tell me more about how evil can transfer to you through blood transfusions. If we need blood transfusions, should we have the blood itself be prayed over before receiving into our bodies? Do you think it's OK to donate blood? I haven't done that yet but I would like to. I enjoyed that sermon, it was very informative. Keep up the good work, I'm learning alot. Thank you. Debbie

Generational curses – the curse is on the bloodline.

**Numbers 14:18** – The LORD is longsuffering, and of great mercy, forgiving iniquity and transgression, and by no means clearing the guilty, visiting the iniquity of the fathers upon the children unto the third and fourth generation.

Disease often is in the blood stream and disease comes from satan.

Anesthesia and medicines and vaccines can have demonic attachments to them. The demons are attached at the manufacturing level.

From a Deliverance Ministry Website:

But ever since I've been doing deliverance ministry and not only seen the commonality of demonically oppressed people, I've also ministered to survivors of Satanic Ritualistic Abuse, former Satanists, and former witches and the descendants thereof and have seen the demonic attachments and more importantly have learned the secret curse casting that is done in very high places such as in pharmaceutical manufacturing. The root word for Pharmacy is Pharmakeia which is defined as "the *use or the administering of drugs, poisoning, sorcery, magical arts, often found in connection with idolatry and*

fostered by it". We have to remember that the Bible says that satan is the god of this world and there are so many faculties that are influenced by satan in this world that we are not even aware of, mostly unless we get involved in hands on experience of the battle between good and evil relating to deliverance. We have structures and organizations all throughout this fallen world that are primarily demonically influenced.

Yes, pray over the blood and break off any satanic attachments or curses. Frank Hammond was in deliverance ministry for quite a number of years and he certainly advised to pray over blood transfusions.

Yes, I think it is ok to donate blood. You give it to sincerely help someone who would truly need it. We cannot worry about if the occult makes a clone, or drinks it or if the fallen angels and nephilim or demons drink it. God knows your heart and why you are giving it.

Blood Transfusions
