

# WEATHER and CHEMICAL WARFARE – Part Fourteen: Nutrition and Tony P.

When I was first diagnosed with rheumatoid arthritis I was trying all sorts of things to get well. The things the dr's were going weren't working for me. I talked to one of my dr's about some natural things and what she thought. She just said point blank I don't know anything about any of that.

Glyphosate is the active ingredient in a number of herbicides, including Monsanto's Roundup. As the most-used herbicide on the planet, it's quite fair to say that glyphosate is awesome at killing weeds. Unfortunately, it's also quite awesome at killing people. According to the World Health Organization,

glyphosate is a probable human carcinogen. It also causes gluten intolerance, antibiotic resistance and hormone disruption.

In case you need more reason to hate glyphosate, it's also a large part of why GMOs have become so popular. Products like Roundup would damage regular crops with ease. Roundup-Ready crops, on the other hand, are genetically modified to withstand harsh chemicals like glyphosate. Monsanto makes an absolute killing selling Roundup-Ready crops which, unlike conventional seeds, are single-use and readily available.

The levels of glyphosate in the U.S. honey tested were staggering. Some of the honey tested had glyphosate levels at 107 parts per billion. That's more than twice the legal limit in the European Union. U.S. law does not set a legal tolerance level for glyphosate in honey.

How widespread was the issue? Well, as part of the document release, the FDA supplied an email shared between FDA staff which reads:

*It is difficult to find blank honey that does not contain residue. I collect about 10 samples of honey in the market and they all contain glyphosate.*

All of this is very unfortunate for independent American beekeepers located near to fields that spray glyphosate-based herbicide.

"I don't understand how I'm supposed to control the level of glyphosate in my honey when I'm not the one using Roundup," said one beekeeper to the Huffington Post. "It's all around me. It's unfair."

Chemicals like glyphosates (roundup) sprayed on crops

The price we'll pay if we don't figure out what's killing the honey bees.

**Ezekiel 20:16** – Yet also I lifted up My hand unto them in the wilderness, that I would not bring them into the land which I had given them, flowing with milk and honey, which is the glory of all lands;

Milk and honey were meant to be blessings from God.

Tony has brought out so many things that have been so adulterated it is a shame to even call it food anymore. Like what they've done to the milk and now even the honey. I wasn't aware to how severe the attack on our food supply has been and is only getting worse. They want to take us out with sickness and disease much less set our systems up for this integration with technology. Silently filling us with nanotech, destroying our dna and rebuilding it to fit into the matrix. Setting us up to integrate with this AI and plug us into the hive mind/cloud network.

Where satan and his elite can know your every thought and give you thoughts. Where you will blindly cooperate and follow the beast and his system like a zombie – zoned out – brain dead – no free will – just doing and thinking what satan wants you to think. Remember they are wiring us with nanobots so that we are like antennas and we receive and transmit. We must fight, God made us to have free will.

Tony shared: If you think after 50 years of dumping chemicals such as glyphosates has not saturated the soil today and since each application takes 7 years to break down, do the math. 350 years and you think you are eating what again? **And by the way, your nutrition is regulated by codex, stating that even in the organics you are only allowed 5% nutritional value, so again tell me how I am wrong again.** Your ideas at best are a fantasy.

Bud, let me give you a heads up, I know this is going to be difficult because you have been so deluded with organics. One, they are spraying glyphosates on everything. Two, Africa uses “organics” and have a high level of parasite contamination due to no spraying. Three, you are getting nanoelements on your crops so there is nothing organic and has not been for at least 25 years in North America. The plants they are planting for crops are only using NPK (nitrogen, phosphorus, potassium fertilizer) and that means that the nutrient levels in the plants are so low they are more susceptible to infestation. So bubba, they have to spray because the plant salvestrol levels and arsenic levels are not adequate enough to stop the super bugs.

Concentrated doses – and the difference between eating it straight and an animal is the animal will filter the bulk of it. That is the difference unless you consume the organ meats, then it's full on.

Remember something, in this industry you have whores, prostitutes and sales people who sometimes work with the intention of straying you from the truth. And will sell you all kinds of bs by using terms as: “natural”, “organic”, “special”, “nanodelivery”and “new and improved” (which means we have taken out what works and put in it some (junk) and made you think it is better).

jklmnug 1 year ago

tony just curios what you think about ascorbic acid mostly being made from gmo corn

Reply •

Tony's Reply: I still utilize it, to date have not seen anything negative buuttt that does not mean anything now. In considering this statement just about everything you are consuming today is GE, GMO or NANO integrated. **Disregard all the organic bs there is so much in those foods that are not labeled for: irradiation, nano mixed, glyphosate sprays, sulphuryl fluoride exposure (from silo storage), that if you knew what is really going on with food safety you would start a revolution.**

porkyV2: i've always doubted that medical restriction regarding salt. we need salt to live. just not a whole bunch of it we cumulatively ingest from fast food and/or snacks on a daily basis. what we need to watch out for are those, otherwise we are good.

Tony's reply: fast foods!!!are depleters of salt and so what ever you think you are getting would be negated what you are getting in abundance is msg ~ glyphosates and nano saturation especially with nano silver and nano silica which are not at all digestible but translocate throughout the body causing tumours and auto immune system failure Tony

We have been told how bad salt is for us and it has gotten such a bad wrap. Tony shares: Salt is one of the best healers we have on the planet. He knows what Jesus said and says it often.

**Mark 9:50** - Salt is good: but if the salt have lost his saltiness, wherewith will ye season it? Have salt in yourselves, and have peace one with another.

**Matt.5:13** - Ye are the salt of the earth: but if the salt have lost his savour, wherewith shall it be salted? it is thenceforth good for nothing, but to be cast out, and to be trodden under foot of men.

Salt helps to flush out the toxins. Once salt loses its potency it is good for nothing. Christians are to be the salt in this world. Salt is healing, it brings flavor, it is a preservative. It can also sting in an open wound but at the same time kills infection or draws out the infection. Telling someone the truth can hurt but in the long run it is the best thing for them. We lose our “saltiness” when we quit confessing Jesus Christ.

\*\*Please play from 6:50 to 7:21 and from 19:14 to 21:36 and from 26:02 to 28:50  
Tony P. invasion of nanotech into our bodies and THE VACCINATIONS HAVE  
ALTERED OUR DNA SEQUENCE SO THAT THE BODY DOES NOT FUNCTION THE  
WAY IT SHOULD BECAUSE THE VACCINES DEACTIVATED OUR GENETIC  
CODE/talking about the nanotechnology and what happens to your dna once it  
enters your body. First is assimilation, nano continues to run its program until  
you are activated or saturated – at either point you will have problems/nano is AI  
and is even in babies now in the womb, this program will not stop and is only  
going to get worse.\*\*(about 3.5 min's)

<http://independz.podomatic.com/> 3-15-2018

**\*\*PLEASE REMOVE CURSE WORD AT 27:50\*\***

To reiterate – you will have a problem with nano. Our dna has been altered. There are those saying the mark of the beast is altered dna. I don't agree, because this is already happening even against our will.

**If you are thinking of having another baby or you are sexually active with your spouse, or you have a young baby please go to Tony's podcast and listen to the podcast date 3/27/2018 He is going to discuss vaccines there.**

If you go to [byebyebluesky.com](http://byebyebluesky.com) – click on the health tab and then click on nano morgellons you will see what is in our food and what is coming out of people.

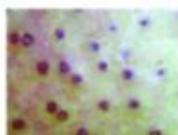

DEALCOHOLIZED WINE FROM GERMANY – Notice the biofilm and nano aggregating on the top of the wine

These images are at 800X and if you look as well at the beverages you can see what the chamber made them release.

## OUR FOOD STUFFS ARE NOW GENETICALLY ENGINEERED

Pictures taken with a 800x microscope.  
Anything less than the size of 50 nanometers will penetrate the surface of the skins of foods.  
This is dangerous, self replicating, self assembling and self healing biology.

PEARS

APPLES

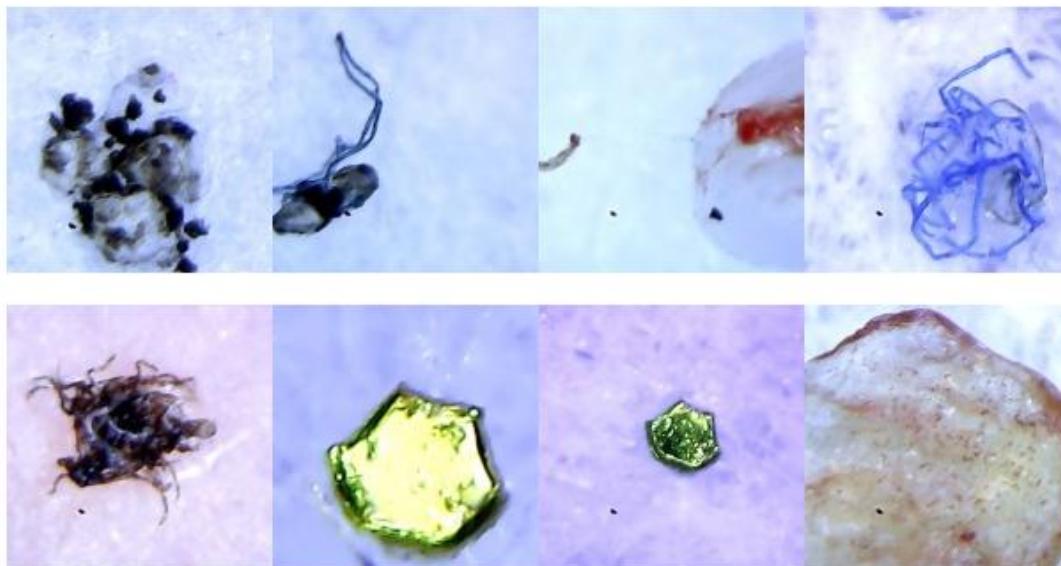

PEACHES

### NANO TECH BIOLOGICALS EXCRETED FROM SKIN

Nano tech biologicals that were excreted from Candy Nelson's skin after a detoxification wrap.

Please see "detox" section for cleansing/detox suggestions and unplug from wireless as much as possible, these parasites thrive in a wireless environment.

So feel free to examine and last go to ANY MARKET organic or other wise and take a 60X lens loop or a 60X-120X mini portable microscope and look at anything and I mean anything you want and then you can tell everyone what YOU see.

Had a fellow in the UK take me up on the offer and went into his garden and he did not use anything (no chemicals) and wrote me back and said his whole garden was a wash. All loaded with metal particulates which he did not spray and there were no other farms nearby as well, so nothing there to cause doubt and what he saw wretched him. He decided to check everything, even in the restaurants and needless to say he was alarmed. On my shows I say as well that we have been in

famine and it is going to get worse. The symptoms are already showing with the distorted bodies due to genetic manipulations and DNA disruptors from the nano integration with the foods and us. Feel free to respond when you see it for yourself. He who has eyes to see let them, go for it. Feel free to go to augmentinforce.com and look at the research on the nano and more is coming on there on nanobiofilm. This is the root of almost everything wrong going on in us.

“They” have been feeding us and the food is nutrient depleted. We are eating and not getting nutrition. Now for those people that thought they would grow their own food they are hitting that with chemtrails. They are not selling you anything healthy, you can be sure of that. If they find out we are on to something healthy or cancer or disease fighting, then they will taint it, make it hard to get, increase the cost, or totally ban it.

## What's in Your Water?

The bottled water industry is making \$22-billion-a-year bottling water from municipal water. Companies are bottling up the same water that comes out of your faucet and [raising the price](#).

There is far less testing completed on bottled water than tap water. Bottled water isn't tested for e. coli, and it can be distributed if it doesn't meet the quality standards of tap water.

Unlike tap water, bottled water isn't required to produce quality reports or provide its source. Some public drinking water systems are not required to test for lead under the Lead and Copper Rule, which is the primary federal standard for monitoring the toxic metal.

According to the story from Goethe University Frankfort, the researchers tested 18 different bottled water products in an effort to look for endocrine disrupting chemicals, or EDCs. They found far more than expected, identifying 24,520 different chemicals in their testing. After isolating the chemicals and determining their impact on the body, the researchers narrowed down those with anti-estrogenic properties to one: DEHF or di(2-ethylhexyl) fumarate. This finding was of major concern.

Out of the 18 different bottled water products, 13 had “significant” anti-estrogenic activity, and 16 out of 18 inhibited the body’s androgen receptors by 90%. In other words, the bottled water was largely wrecking havoc on the human body.

## 6 Texas

Texas has devoted a great deal of attention to this issue and enacted numerous laws regulating the practice of rainwater harvesting. Texas has one of the most comprehensive manuals for rainwater harvesting. The manual is 88-pages long of rules to follow. In general, the state allows the practice for potable purposes.

I don't think I would want to collect rain water now and drink it with all the chemtrails and nanobots in it.

image: (Thinkstock.com/iStock/doraartem)

## 2 Oregon

Oregon is home to the deepest, pure water lakes in the United States, but only roof surfaces may be used for harvesting rainwater. In 2012, Oregon officials arrested a 64-year-old man for collecting rainwater on his private property. There is a 17-page guide to rainwater harvesting in Oregon.

What are they doing by making sure we get little to no nutrition from our food? By dumping fluoride and a host of other chemicals into our water? By spraying the water, air, animals and our food with nanotech?

**Isaiah 32:6-7 –** For the vile person will speak villainy, and his heart will work iniquity, to practice hypocrisy, and to utter error against the LORD, to make empty the soul of the hungry, and he will cause the drink of the thirsty to fail. The instruments also of the churl (greedy one) are evil: he deviseth wicked devices to destroy the poor with lying words, even when the needy speaketh right.

Sounds like our governments.

## WATER

HerbsPlusBeadWorks 1 year ago

distilled is the way to go~ you cannot expect to fix your system and then take in a fluoride and you kill the thyroid  
and depending if you are in the usa most places there sell it for 25-50cents a gallon  
depending where you are

Tony

I have another guy saying the same thing and explaining how it works to help in our detox. When you watch that video disregard his new age talk because of course we don't believe in that.

I thought about Weight Watchers because I have done that a few times. When you do their plan they push you to drink a lot of water to flush everything out. The dieticians and nutritionists used to push 8 glasses of water a day. What were we doing? That's right, drinking in a lot of chemicals and fluoride. Dumbing us down – no telling what our potential could have been!

Remember the triangles are for sun worship/baal worship. The W in Hebrew is a 6 and a W is also composed of two v's and each one of those are 6's. So you have 666 on each row and the way they stacked them make's triangles easier to see. In the creation fest logo on the right, they have stacked M on top of a W and that

just means more 6's because they are both a W if you flip them upside down. They have high illuminati colors in the creation fest logo and the c in the middle according to their occult math it is a 3 and they have a 3 in the middle of the c so that is 33 and we know that is indicating 33<sup>rd</sup> degree masons. WW for weight watchers upside down is MM or master mason. They speak without saying a word with their logos, their colors, symbols, dates etc.

**Lamentations 5:4** – We have drunken our water for money; our wood is sold unto us.

We are paying for our water, most of us are.

God gave water to us freely as part of the goodness of the land. But now satan has captured our water supply and is making us pay for it. Dumping tons of chemicals in it and charging us for it, even bottled water. Here where I am people are not allowed to drink water from their wells but have to buy it from the city. They can only water their yard with water from their wells.

**Jeremiah 23:15** - Therefore thus saith the LORD of hosts concerning the prophets (false); Behold, I will feed them with wormwood, and make them drink the water of gall: for from the prophets of Jerusalem is profaneness gone forth into all the land.

Because this world has rejected God, He has turned us over to our sin. In a since this world is drinking water of gaul.

Water of gall can refer to the bitterness of it, and usually this was a poison.

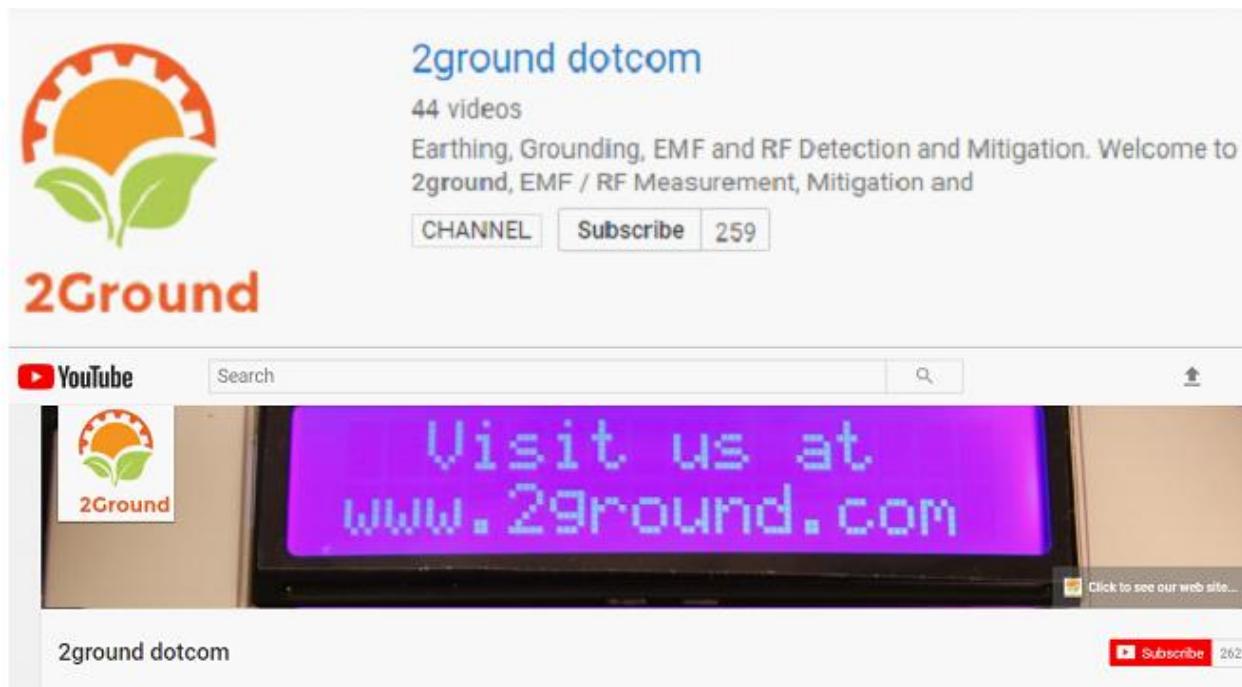

God was pouring this out to them in judgment. Many times when people were crucified they were offered water of gall to drink to help them not feel the pain.

**Matt.27:34** - They gave Him vinegar to drink mingled with gall: and when He had tasted *thereof*, He would not drink.

Jesus could have taken the poison and had the edge taken off of His pain but He did not. He suffered fully and completely for us.

I want to share some information with you guys that you might find helpful in getting grounded from all the frequencies or blocking them:

This is George Christoff's youtube channel.

Hello my name is George and I do a lot of R&D with Tony, who shared this video with me. I just wanted to say thanks for bringing Tony's work to light. I have an online store, as well as local pickup, in Windsor, Ontario, Canada, not far from Tony's store. We make the Nano Detox Systems complete and ready to ship worldwide for anyone interested. <https://2ground.com/collections/anti-nano-complete-systems-1> Use the coupon codes "herbsplus" or "herbsplus1" less the quotation marks to receive 10% off. Also, we would like to share some ebooks for those interested in Earthing (grounding):

<https://2ground.files.wordpress.com/2016/04/earthing-full-book.pdf> Here is another ebook with information on PEMF Therapy, the basis for the Nano Detox Bucket technology: <https://2ground.com/blogs/2ground/pemf-the-5th-element-the-pdf-version-of-the-book> Feel free to contact us for more information: <https://2ground.com/pages/contact-us>

## Description

Earthing, Grounding, EMF and RF Detection and Mitigation.

Welcome to 2ground, EMF / RF Measurement, Mitigation and Grounding Specialists.

We offer parts, products and services 2 ground yourself or 2 ground RF and EMF radiation around you and to locate and eliminate "Electro-Smog".

Please visit our other sites for more information on EMF/RF and Grounding:

[georgechristoff.com](http://georgechristoff.com)

## WELCOME

to George Christoff's home page, a work in progress.

(Click [HERE](#) for the new grounding products!)

[Blog](#)   [Home](#)   [Photography](#)

Feel free to visit:

- my YOUTUBE channel [here](#)
- more pictures and videos [here](#)

Contact me via e-mail: [george.christoff@hotmail.com](mailto:george.christoff@hotmail.com)

Here are screenshots of his website and facebook page.

I am amazed at this group of people working together to help humanity and to get the word out about all of this. Tony, Suzanne, George and others are working together the way the church should. Lord help your churches to get along.

## CLOSING

**John 14:3** - Jesus answered and said unto her, Whosoever drinketh of this water shall thirst again: But whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall be in him a well of water springing up into everlasting life.

**John 7:37** - In the last day, that great *day* of the feast, Jesus stood and cried, saying, If any man thirst, let him come unto Me, and drink.

**Rev. 22:17** - And the Spirit and the bride say, Come. And let him that heareth say, Come. And let him that is athirst come. And whosoever will, let him take the water of life freely.

The water that Jesus was talking about was the Holy Spirit.

"If God is not the centre of the equation then you have Nothing and as far as Jesus goes if He is not leading the war you're done," Tony.
