

# WEATHER and CHEMICAL WARFARE – Part Seventeen: VACCINES, ZOMBIE APOCALYPSE

## VACCINE IMPLANTS

**Implants** are now smaller than a hair's width and are injected with vaccine and flu shots. **Millions have had this done unknowingly**. These 'biochips' circulate in the bloodstream and lodge in the brain, enabling the victims to hear 'voices' via the implant. There are many kinds of implants now and 1 in 40 are victims from 'alien abduction' statistics, though 1 in 20 has also been gauged. The fake alien abduction event, revealed to be actually the work of US military personnel using technology to make hologram spaceships outside, virtual reality scenarios of going onto a spaceship with humans in costumes, has been astutely perceived. Though real alien abductions do occur, the 'alien abduction' scenario has been useful to stop any further investigation or accountability of government authorities by poor victims who would face mockery and appear silly.

Thank you Michelle for alerting me to this news back in 2016.

30 STATES WITH VACCINE BILLS NEEDING YOUR ACTION – FEBRUARY 7, 2017  
Vaccineimpact.com

"We have only finished the first full month of the 2017 legislative session, and already we are tracking **103 vaccine related bills across 30 states** on the NVIC Advocacy Portal. To put the sheer volume of bills in perspective, we tracked a total of 106 bills in the entire legislative session last year. If you live in one of the following states, (see link below) there are already vaccine bills filed that can affect your rights.

If you are in any of the following states, beware that there are bills filed to **expand vaccine tracking or eliminate** OPT-IN Consent for vaccine tracking and that these need to be opposed: CT, ID, KS, MA, MT, NY, and TX..."

***What is mandatory to understood about this mandatory vaccinating agenda - is that 'they' will never give up on it. It is about 'ownership'; see:***

**AAP Vaccine Refusal Form Requires Parents Admit 'Endangering Life Of Child And Others' 6-30-16** "Mandatory vaccinating of all is without question a major agenda item of the rising would-be false-zion [link] novus ordo seclorum-ites. Most are well aware of this fact at this point, but may not really understand the driving force behind it. The reason for the agenda is very simple. It is exactly the same reasoning driving the global-euthanasia movement... Euthanasia is culling the herd, vaccinating is 'herd management'. No individuals, all are to be 'managed' as a group i.e. 'herd'. Literally like a herd of cattle [read: '**goyim**'], each to be given all their shots. Overall cost control in regard to the 'health-management' of 'the herd' as a whole, is the bottom line. Just like real 'cattle ranchers' do.

**FROM MS. TOMMIE:**

Vaccines? Dr. Sherri Tenpenny began my abrupt wake-up moment in 2001. I cried...with guilt, with anger, with how-could-I-have-been-so-naive... The data does not even support the positive benefits to us. Improvements in hygiene, decreased disease long before the vaccines were introduced. I began studying the ingredients in vaccines....aluminum, mercury, polysorbate 80, formaldehyde, genetically modified insect protein, bovine protein, monkey protein, human protein, chicken protein, yeast protein, pig protein, non-GMO fall army worm protein? Really? Why??? This is money driven on so many levels. DNA makes

protein which enable the DNA to form chromosomes. \*\*My words: These protein injections are interacting with our DNA and changing it.

- Our bodies are designed to receive protein (DNA is protein) via the gastrointestinal tract. We eat plant and animal proteins and our bodies know how to process them (unless they are GMO then we don't know how these will be handled or expressed in our bodies or the environment for that matter). By injecting them directly into body tissues (muscle, subcutaneous tissue) the (unprocessed) proteins are picked up by the circulating blood and begin a cascade of problems - hyper-immune responses, inflammation, allergies, and I suspect causes viruses to more easily jump species (bird flu, swine flu, etc) along with causing cancer.
- Hyper-immune responses = autoimmune diseases
- Inflammation = gastrointestinal inflammation (leads to poor digestion and utilization of nutrients and allows undigested proteins to enter our circulation), neuro developmental problems in children (autism, speech, weak throat muscles (loss of pharyngeal tone), delayed walking, poor coordination, ADD, etc. Also cholesterol responds to inflammation by increasing to repair damage by inflammation. You guessed it. The doctor then sees the elevated cholesterol level and the drug company says, "Chancing!" You are now on a statin that will lead to a BP med, then a diabetes med, and then a heart med. They know this from their research and they push it all out to make money while killing us. Oh, and you no longer have an elevated cholesterol to heal damage caused by inflammation...
- Allergies = sniffing, sneezing, asthma, anaphylactic reactions, etc.
- The way God created us - we (of the animal kingdom) all start out as an embryo that resembles a chicken embryo (pretty much indistinguishable to the eye at that point); then our DNA expression results in our final design (my DNA expressed itself as a human and my cat's DNA expressed itself as a feline). God created us perfect!!! I suspect that by injecting foreign DNA into us will allow viruses from other species to more easily jump to humans because we will have DNA from the species that those particular viruses usually prefer. This could explain why the monkey virus (SV 40) survived in the polio vaccine - it had monkey DNA to help it replicate and mutate. Unlike bacteria, viruses are incomplete; they must have DNA (animal or plant) in order to replicate. Anyway, if we are faced with more disease,

then the drug company gets to sell more vaccines, more anti-cancer treatments...cha ching...

**Rev. 18:4** - And I heard another voice from heaven, saying, Come out of her, My people, that ye be not partakers of her sins, and that ye **receive not of her plagues.**

God will pour out His judgment – but in the meanwhile we don't have to be receiving disease/plagues at their hands if we can help it.

I met another RN that has similar concerns. I told her about the fall army worm larvae (lar-vee) being used in the production of certain vaccines. She questioned why that particular insect and looked it up. Apparently the fall army worm larvae is prone to destructive behavior and cannibalism (cannibalism is a way to remove competitors). They are mixing this DNA with ours.

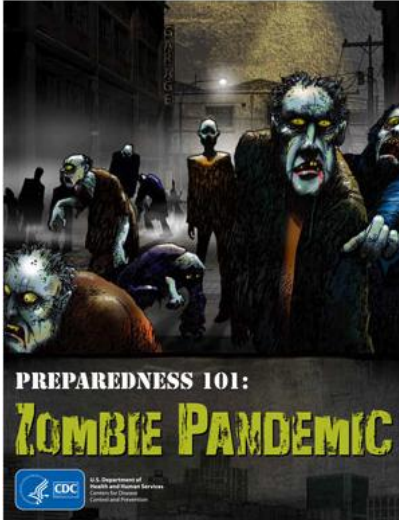

L: Fall Armyworm has cannibalism in its dna R: Zombie Apocalypse

## ZOMBIE APOCALYPSE

Did you know the government is very interested in zombies? They sure are.

I asked Scott his thoughts on zombies: Of course he looked at me like I was crazy but I pushed him to just answer the question. He said they need to be shot. They walk around real slow but no matter how fast you go, they still catch you. They kill people that are not zombies. They are cannibals. They are dead.

In 2011 the CDC (Centers for Disease Control) published a Zombie Preparedness article and plan

**From CDC website:**

### **A Brief History of Zombies**

We've all seen at least one movie about flesh-eating zombies taking over (my personal favorite is [Resident Evil](#)), but where do zombies come from and **why do they love eating brains so much?** The word zombie comes from Haitian and New Orleans voodoo origins. Although its meaning has changed slightly over the years, it refers to a human corpse mysteriously reanimated to serve the undead. Through ancient voodoo and folk-lore traditions, shows like the Walking Dead were born.

**My Research: The etymology of zombie comes from African witchcraft. For their familiars, the Zulu's used corpses and re-animated them with magic, these familiars are sent out at night to scare travelers.**

**Leviticus 19:26** - Ye shall not eat *any thing* with the blood: neither shall ye use enchantment, nor observe times (seek omens).

God started talking about witchcraft after He said not to eat the blood because satanists/witches/occultists make sacrifices and drink the blood and eat the flesh with the blood in it as well.

A couple dressed as zombies - Danny Zucco and Sandy Olsson from the movie Grease walking in the annual Toronto Zombie Walk.

In movies, shows, and literature, zombies are often depicted as being created by an infectious virus, which is passed on via bites and contact with bodily fluids. Harvard psychiatrist Steven Schlozman wrote a (fictional) medical paper on the zombies presented in [Night of the Living Dead](#) and refers to the condition as *Ataxic Neurodegenerative Satiety (suh-tahy-i-tee)Deficiency Syndrome* caused by an infectious agent. The [Zombie Survival Guide](#) identifies the cause of zombies as a virus called solanum. Other zombie origins shown in films include radiation from a destroyed [NASA Venus](#) probe (as in [Night of the Living Dead](#)), as well as mutations of existing conditions such as [prions](#) (pre-ons), [mad-cow disease](#), [measles](#) and [rabies](#).

The rise of zombies in pop culture has given credence to the idea that a zombie apocalypse could happen. In such a scenario zombies would take over entire countries, roaming city streets eating anything living that got in their way. The proliferation of this idea has led many people to wonder “How do I prepare for a zombie apocalypse?”

Well, we’re here to answer that question for you, and hopefully share a few tips about preparing for *real* emergencies too!

Some of the supplies for your emergency kit

### **Better Safe than Sorry**

So what do you need to do before zombies...or hurricanes or pandemics for example, actually happen? First of all, you should have an emergency kit in your house. This includes things like water, food, and other supplies...and the article goes on...

They mentioned some interesting things in their article:

Other zombie origins shown in films include radiation from a destroyed [NASA Venus](#) probe (as in [Night of the Living Dead](#)), as well as mutations of existing conditions such as [prions](#) (pre-ons), [mad-cow disease](#), [measles](#) and [rabies](#). Remember Harald Vella talked about the farmer who refused to vaccinate his cows and so they did not come down with mad-cow disease and then they killed him. He also mentioned about how they have been stripping our systems of copper and setting us up to have mad cow disease as well by attacking our food supply with radiation and spraying the nano on us. Our bodies are being depleted of the good dna building blocks, our dna is being split into rna through frequencies and then it is being rebuilt with the nano tech they are pushing on us. MUTATIONS – could that be through the vaccines they are trying to make everyone take with all of the animal proteins in them? They are working their plan against humanity.

Government poster about Zombie Apocalypse

A few years later the Department of Defense (DOD) followed suit and developed an entire training course intended for the Joint Operational Planning and Execution System (JOPES). The complete response plan, called CONPLAN888, was recently declassified, and it's just as weird and creepy as you might imagine. The Black Vault posted two documents retrieved from the NSA using the Freedom of Information Act.

The purpose of the plan, according to the United States Strategic Command (USSTRATCOM), was to use a fictitious scenario to prepare for real-world emergencies.

"[The training focused on how to] undertake military operations to preserve 'non-zombie' humans from the threats posed by a zombie horde. Because zombies pose a threat to all 'non-zombie' human life (hereafter referred to as 'humans'), USSTRATCOM will be prepared to preserve the sanctity of human life and conduct operations in support of any human population-including traditional adversaries."

Just to interject my own thought here, wouldn't it be easy for them just to start shooting normal people under the guise that they "thought" they were zombies?

The objective of the three-fold plan includes the neutralization of zombies through "denial, deception, disruption, degradation or destruction," though with the exception of 'destruction,' it is unclear what is meant by these terms with regard to fighting zombies.

Reading at times like the treatment to a campy science fiction script, CONPLAN888 categorizes eight classes of zombies:

1. **Pathogenic zombies** — Zombie life forms created after infection by a viral or bacterial contagion. **((Could be from vaccines))**
2. **Radiation zombies** — Zombie life forms created after infection from electromagnetic or particle radiation. **((Doing this already, 5G is at the door and Tony said China was already talking 6G))**
3. **Evil Magic Zombies** — Zombie life forms created by occult experimentation, or "evil magic." **((They already know how to reanimate a dead body and have been doing this – they have studied their black magic thoroughly and are working with the fallen angels and their technology / Also they know how to map the brain onto a chip and just put the chip into a cloned body – the cloned body does not have a soul/spirit))**
4. **Space Zombies** — Zombies that come from space or are created by extraterrestrial toxins (this also includes Zombie Satellites that could pose a threat to SATCOM services like DirecTV) **((This is talking about fallen angels/demons which the world thinks are aliens – they are reptilian in nature and not like us))**
5. **Weaponized Zombies** — Zombie life forms engineered through bio-mechanical technology for the purposes of attacking another nation. **((They have this already too, Donald Marshall talked about them creating weaponized animals in the D.U.M.B.S. (deep underground military bases) – this also plays in with their supersoldier experiments))**
6. **Symbiant-Induced Zombies** — Zombie life forms created after the "introduction of a symbiant life form into an otherwise healthy host." **((morgellons or activated nanotech trying to take over our bodies))**
7. **Vegetarian Zombies** — Zombie life forms that cause no threat to humans because they only eat plant life (could nevertheless "cause massive de-

forestation or elimination of basic food crops essential to humans [rice, corn, soybeans])"

8. **Chicken Zombies** (yes, this is real)— Zombies that are essentially old hens that can no longer lay eggs. Farmers euthanize them with carbon monoxide and stack them in piles; however, some of the hens are still alive and crawl out. Though they ultimately die of organ failure, chicken zombies are "*simply terrifying to behold*" and are likely only to make people become vegetarians in protest of animal cruelty. **((Hinting to us that we should be creeped out by what they are doing to our food? That is just the truth.))**

CONPLAN888 consists of multiple striking passages, given this is a government agency assessing a fictitious zombie uprising. More practical factors concern environmental issues such as groundwater contaminated with zombie pathogens.

\*They are only telling us here what is happening now. We are injecting the nano and so are the animals much less it is being sprayed on the land and water. Nano feeds on organic (carbon based) material. It is wreaking havoc on our environment as well as our bodies. I remember the guy who tore the bark right off of the coconut tree because it is so weakened down now. With our bodies loaded with nano making us conducive for mind control and having the atmosphere loaded with nano so they can use their frequencies and manipulate people's minds, emotions etc. I'm sure they are going to test out their equipment to see if they can kick off a zombie apocalypse. \*

Other, more ominous notes, include references to the government declaring martial law within the United States. There is also a reference to epidemiologic surveillance for the purposes of watching changes in disease vectors.

Epidemiology is the method used to find the causes of health outcomes and diseases in populations. In epidemiology, the patient is the community and individuals are viewed collectively. By definition, epidemiology is the study (scientific, systematic, and data-driven) of the distribution (frequency, pattern) and determinants (causes, risk factors) of health-related states and events (not

just diseases) in specified populations (neighborhood, school, city, state, country, global). It is also the application of this study to the control of health problems.

## VECTOR

**a** : an organism (such as an insect) that transmits a pathogen

**b** : POLLINATOR a

**3**: an agent (such as a plasmid or virus) that contains or carries modified genetic material (such as recombinant DNA) and can be used to introduce exogenous genes into the genome of an organism

Isn't this what they've been doing with all of the alien abduction experiments? Taking ovum and sperm and also impregnating women. Trying to get their species to live while it feeds on ours? Remember not only the "Jews" call us useless cattle but so do the aliens/demons/fallen angels call us bags of food per Phil Schneider.

L & M: Original tv series "V" from the 80's R: New tv series "V" in 2009

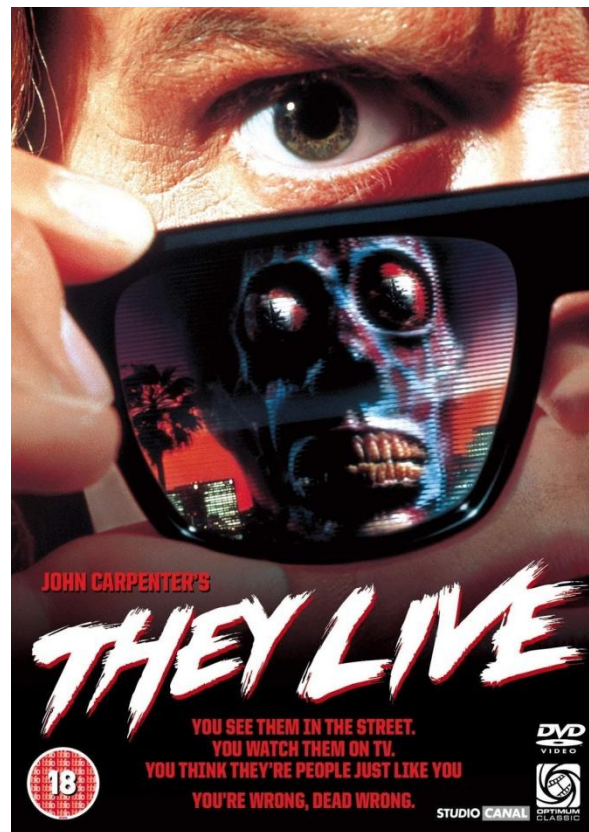

V = visitors which are aliens/demons or fallen angels V = 6 in Hebrew V = vector or virus and also stands for the snake with split tongue V = the markings on the back

of a cobra and according to the kabbalist it stands for nail and that is one of satan's nick names. V = vril which is a secret society based on demonic beings living in the earth that are able to harness the ether power and use it (antigravity).

\*Please play from 48:22 to 52:19 Buck Rogers "Mark of the Saurian" aired in 1981.\* (about 4 min's)

In the series on nephilim I have already brought out that they are here walking among us already. They are doing their best to still cloak themselves but in the near future they are coming out full force.

They always tell us the truth, we just have to figure it out. In an interview John Carpenter said this is a documentary – not science fiction.

The government response to a zombie uprising unleashed by a nation-state, large

corporation, or terrorist group includes the following additional measures: HAND SANITIZER, which, marketing materials say, kills 99% of germs (they note that hand sanitizer has never been tested on biohazard level 4 pathogens like ebola); and FIREPOWER TO THE HEAD ("the human brain will still be functioning in the zombie state, but it is universally agreed that the only part actually active will be the brain stem").

The document's assessment of zombies states that they are "undead and thus feel no pain or fear of death, (therefore) riot control counter-measures would be completely ineffective." Donald Marshall talked about being sent to the cloning center and made to fight to the death and the clones do not feel anything. These are clones made from cells being shocked/ignited and growing within 5 months. A demon/evil spirit housed in a cloned body feels no pain.

CONPLAN888 references the books and articles The Zombie Survival Guide, World War Z; An Oral History of the Zombie War, and "Zombie Chickens Taking Over California," among others.

## **REPHAIM**

**Isaiah 14:9** - Hell from beneath is moved for thee (lucifer) to meet thee (lucifer) at thy coming: it stirreth up the dead (Rephaim – dead spirits) for thee, even all the chief ones (leaders) (Hebrew: he goats) of the earth; it (hell) hath raised up from their thrones all the kings of the nations.

What spirit do you think is leading these men? The Spirit of God or the spirit of lucifer? L: Erdogan of Turkey interesting that if you unscramble his name you get

dragone \*Don't forget Jesus said Turkey is where satan's seat is. M: Al-Assad R: Jong-un

L: Netanyahu, never mind that he carries his god's name within his own name (yahu) but if he were really a true Jew who loved God the Father then he would reject that satanic star on his country's flag. R: Trump, remember they pose for these type of pictures. He has made a habit of surrounding himself with witches/masons in the Whitehouse to fool the deceived Christians into thinking he's one of them. Remember he went to Jesuit school.

## **CLOSING**

**Isaiah 26:14**– (under a title: The Lord Punishes) They are dead, they shall not live; they are deceased, they shall not rise: therefore hast Thou visited and destroyed them, and made all their memory to perish. (They shall not rise in the resurrection.)

They were no longer ruling over men and terrorizing the earth in bodily form because God destroyed their bodies through the flood and after that King David killed the remaining ones. Out of sight – out of mind.

They have been wreaking havoc on the earth and we are going to find out next week that they are going to rise again – the walking dead.
