

08/19/2018 Q & A: HIMALAYAN SALT LAMPS, CRYSTALS and NATURAL THINGS

Question: Flayme forHim

Wondering if himalayan salt lamps have some type of evil spiritual history connected to them. Or whether they are safe to use for us believers. I'm praying about it before buying one as an air purifier/dehumidifier. I learned the hard way to ask and research before bringing anything home I'm uncertain of. If you know please let me know thank-you Pastor Cherie and God bless you all.

QUESTION: Justin W.

Wanted to ask you if you think pink himalayan salt lamps are pagan? With a family member recovered from lung cancer and pollen all over the place. I wanted to put a few in the house to help with the air pollution, electromagnetic pollution and radiation. I've been amazed how real - natural - salt is so good for us. Looking back it seems people have always valued salt as a seasoning and medicine. Now the government is telling us to stay away from it. Plus so cool salt is talked about in the bible

ANSWER:

Justin is right on the money. Tony Pantalleresco talks about how good it is to have salt in ourselves. There is a link in my notes to one of his videos about this. It is also in the youtube info. box under the video. Soaking with Epsom salt helps to break down toxins in our body and draws them out.

Mark 9:50 - Salt *is* good: but if the salt have lost his saltness, wherewith will ye season it? Have salt in yourselves, and have peace one with another.

Matt. 5:13 - Ye are the salt of the earth: but if the salt have lost his savour, wherewith shall it be salted? it is thenceforth good for nothing, but to be cast out, and to be trodden under foot of men.

Hello my dear Pastor praise and thanks to our Lord Jesus. Let me start by talking about the crystals. I believe when God created man he first prepared the world with natural things in it to sustain his life by ensuring he remained in good health and physically fit. But when sin entered into man, the devil started to use man to change the good natural things created by God for the sake of man's well being. *Think about GMO's and chemicals and how we don't let the land rest and how we treat animals we are using for food.*

To me it's ok to use the natural things or materials for our well being as long as one does not attach to it witchcraft or occultic perspective which opens a door to Satan and his demons to put one's soul in bondage. In the old days there were no hospitals as it is today. God gave knowledge to people to use natural things for their lives well being.

I remember some years back I had a skin allergy that I was treated for but it never went away. One day my mama called my Uncle who knew good natural medicine he used to heal many people suffering from various sicknesses & diseases. He boiled some natural herbs which I used as medicine to drink and I tell you it's now many years have never had skin allergy again.

They can use the crystals as long as they don't attach witchcraft or occultic beliefs. That is my thinking Woman of God.

Always pray over everything you buy or bring into your home. Break off demonic curses, attachments etc. Lift it up to God and ask His blessing, anointing, sanctification on it and plead the blood of Jesus Christ over it.
