

# TARGETING – Part 28: SICK or TARGETED, DIRECTED ENERGY WEAPONS, MIND CONTROL

\*\*Please play from 52:48 to 55:56 and from 101:42 to 1:03:27 Cody Snodgres shares about their mind control weapon they use to control emotions, moods – example: road rage, I would add – rogue shootings. They say controlling emotions and moods is part of the 5G program./using psychics to target someone by shooting psychic energy at them and after being under this kind of attack day in and day out they discovered it altered the brain chemistry. When you bombard someone for long enough with these psychic waves it disrupts the serotonin and melatonin and gets them way out of whack. This is part of their assassination programming; it can make you look like you have food poisoning and if you die from it the dr. just thinks you had food poisoning. These frequency weapons are the new way to kill remotely and have your hands appear to be clean, nothing tracing back to you, the death looks like it was from normal sicknesses and diseases. \*\* (about 5 min's)

Cody shared that when they use “psychics” to target someone by shooting psychic energy at them that after being under this kind of attack day in and day out they discovered it altered the brain chemistry. When you bombard someone for long enough with these psychic waves it disrupts the serotonin and melatonin

and gets them way out of whack. This is part of their assassination programming; it can make you look like you have food poisoning and if you die from it the dr. just thinks you had food poisoning. These frequency weapons are the new way to kill remotely and have your hands appear to be clean, nothing tracing back to you, the death looks like it was from normal sicknesses and diseases. (..)

When I listened to that interview with Cody it really hit me hard. He described things that I feel like are going on with me. I get 13 pills a month to help with migraines and sometimes it almost isn't enough. Can you imagine your head hurting that much? Lots of times I begin to throw up and don't stop until every single little bit of stomach bile is thrown up. Sounds like the food poisoning effect he was talking about. You lose so much of your life being sick like this. Many times if I walk into a store all of a sudden I begin to feel instantly that I need to go to the bathroom. This is after going before leaving home and only being 5 minutes away from the house. That's not normal. I usually get a migraine if I walk around in a store too much or too far. I usually get a migraine after taking a shower, if I get too hot, if I exercise etc. Most of the time I don't have nice hair through the week because I sit around the house with ice packs on my head. Hairspray and melted ice packs don't mix. Many things I know I can't do or I'll be sick, so I avoid them. That's not even to mention the pain from rheumatoid arthritis on top of the migraines. The inflammation that is hitting my hands something fierce now for about 5 months. I do my research online and type out the messages and share them. The ringing in my ears ramping up and fluctuating and stopping briefly and then going full force again like a power surge in my head. My left eye has been blood shot now for a month. I can feel when it seems like my eyes are being hit.

I wonder... am I targeted? Or just sick? Many times I can't sleep. All of this could drive a wedge between me and God. Pain can make you angry, make you question God, why me, why this way? How can I be effective for you like this? It can make you question His love for you. It can make you want to give up and I've been talking about how it can make you think of taking your life or what is even the point of living. I never stay there or dwell on that way of thinking too long. I already covered that suicide is a sin and no matter what, God did not create us to

just take our own lives because this world got too tough. Read His Word, pray for relief, talk with someone, pour your heart out to God when you feel like that.

In all of this, somehow I keep going, knowing He is with me. Somehow this is for His glory. Lord knows I have prayed every which way about it all that I can pray. Sometimes I want to quit. It's not easy to teach the truth like I do. But God always picks me up and keeps me going somehow and someway. Sometimes one of you will give just the right word at the right time and it gives me a boost. That's how we help each other in the body of Christ. Your prayers are surely helping and I am thankful for them. What if you decided to quit Christianity and found out you were still sick or still targeted? No, quitting is not being a good soldier for Jesus Christ, so I go on. You have to stop the pity party and just focus on Christ and doing the Father's will. Pray for others, pray against the targeting. God will give you relief and strength and help you to keep going. He is faithful.

Pastor Erustus shared this with me: Even if they are targeting your life just like Job, the flesh may suffer but God will not allow satan and his agents to touch your life which is hid in Christ Jesus. He has put a hedge around you. He who called you is faithful to accomplish the work He has started in you. God is faithful and He answers our prayers. I think what we are facing are just attacks. The devil thinks will silence you through sickness and blocking your voice. But in all this God's power is manifested. As much as they may monitor you and attack but He who called you is faithful.

So I give up trying to know if I'm being targeted or if I'm just sick. Either way, it is in God's hands, He is the One Who fights for me.

**\*\*Please play from 1:09:35 to 1:10:43 Cody Snodgres talks about how they secretly target people and kill them to shut down the truth from getting out.\*\***(about 1 min.)

**Matt.12:14** - Then the Pharisees went out, and held a council against Him, how they might destroy Him.

Killing someone to shut them up is not new, but what is new, are the methods they have been using that we are now learning about.

### 3. DISCUSSION.--

a. Project Artichoke is a special agency program established for the development and application of special techniques in CIA interrogations and in other CIA covert activities where control of an individual is desired. Activities along the line of Project Artichoke have been pursued by various components of CIA for at least four years, and previously sporadic efforts to develop and apply techniques of this nature were made by the Armed Services and OSS during WWII.

b. A directive establishing OSI as the coordinator of an integrated CIA and inter-agency program in this field was approved on 13 March 1951. Since that date OSI has endeavored to evaluate known techniques and to uncover new ones using consultants, Armed Service contacts and whatever information may be available within CIA or through other CIA channels. At the same time, OSI has endeavored to evaluate claims that the USSR and/or its satellites may have developed new and significant techniques for this purpose.

c. Results of the program to date are noted as follows:

(1) Presently known techniques which have been used in one form or another along the lines of interest to CIA:

(2) Drugs -- Sodium pentathol, sodium amytal, barbiturates in general. Evaluation: These techniques have been proven to be effective and they involve little risk to the subject if administered under competent medical direction. They will produce leads and some previously concealed information in a majority of cases. Requirements are: Limited medical facilities; experienced medical personnel; interrogation personnel with background and training in their application; preparatory medical examination to insure proper physical condition of subject; psychological interview to determine strengths, weaknesses and the most productive pattern of interrogation to follow. Subject usually has no knowledge of actual interrogation. Physiological after-effects might be analyzed by a doctor as an indication that drugs of some kind had been used.

In the 1950s, the CIA's Office of Scientific Intelligence ran a series of mind control projects in an attempt to answer the question "Can we get control of an individual to the point where he will do our bidding against his will and even against fundamental laws of nature?" One of these programs, Project Artichoke, studied hypnosis, forced morphine addiction, drug withdrawal, and the use of chemicals to incite amnesia in unwitting human subjects. Though the project was eventually shut down in the mid-1960s, the project opened the door to extensive research on the use of mind-control in field operations. \*\*They never shut these projects down.\*\*

**MEET WILHELM REICH**

He secretly worked for the CIA from 1947-1952 successfully developing a frequency band that could manipulate minds. Reich discovered who the CIA planned on using this mind control on - THE AMERICAN PEOPLE. Reich swore never to help the US government again. He was thrown in Federal prison, where he was murdered.

**THE FREQUENCY USED IN CELL TOWERS TODAY EXACTLY MATCHES REICH'S SECOND WAVE MIND CONTROL FREQUENCY.**

Voices in the head were produced in prisoners in Utah prisons using Tesla technology. Each of the prisoners received the *same* message from an 'ET'. Today, it seems, it's easy to produce 'voices in the head' without implants.

A prisoner called David Fratus in Draper Prison, Utah in 1988 wrote:

*"I began to receive, or hear, high-frequency tones in my ears. When I plug my ears..the tones are still inside and become amplified. It's as if they had become electrified echo chambers with the sounds coming from the inside out..I began to hear voices..into my inner ears as vivid as though I were listening to a set of stereo headphones..with the end result being that I am now having my brain monitored by an omnipotent computerized mind reading or scanning machine of some sort "*

Hundreds of inmates at the Gunnison Facility of the Utah State Prison, and the State Hospital were subject to this brand of mind-control in order to test it. In the early 1970s, this was brought out in the Utah U.S. District Court, because inmates who had been subjected to this Tesla-wave mind-control in prison had tried unsuccessfully to fight back in court. The University of Utah researched how Tesla-waves could be used to manipulate the mind into hearing voices, overriding and implanting thoughts into the mind, and reading the thoughts, as well as developing eye-implants.

Tim Rifat of UK wrote that *"this inter-cerebral hearing is used to drive the victim mad, as no one else can hear the voices transmitted into the brain of the target. Transmission of auditory data directly into the target's brains using microwave carrier beams is now common practice. Instead of using excitation potentials, one uses a transducer to modify the spoken word into ELF audiograms, that are then superimposed on a pulse modulated microwave beam."*

The *Sydney Morning Herald* on 21 March 1983 published an article by Dr Nassim Abd El-Aziz Neweigy, Assistant Professor in the Faculty of Agriculture, Moshtohor Takh-Kalubia, Egypt. It stated: *"Russian satellites, controlled by advanced computers, can send voices in one's own language interweaving into natural thoughts to the population of choice to form diffused artificial thought. The chemistry and electricity of the human brain can be manipulated by satellite and even suicide can be induced. Through ferocious anti-humanitarian means, the extremist groups are fabricated, the troubles and bloody disturbances are instigated by advanced tele-means via Russian satellites, in many countries in Asia, Africa, Europe and Latin America."*

The Russians broke the genetic code of the human brain. They worked out 23 EEG band-wave lengths, 11 of which were totally independent. So if you can manipulate those 11, you can do anything.

NSA Cray computers can remotely track people just knowing the specific EMF waves (evoked potentials from EEGs in the 30-50 Hz, 5 milliwatt range) of a person's bioelectric-field. Each person's emissions are unique and they can remotely track someone in public.

Maxwell's 'Hidden' Etheric Component

Evoked-potentials officially don't exist in physics, but in 1873 a Scotsman, James Clerk Maxwell, discovered electromagnetic waves have 3 components:

**In this image, you can see the heavy beams sweeping down across the planet - those are the HAARP mind control transmissions that we are ALL under, and the most direct and intrusive way they are monitoring all of the US.**

He discovered waveforms which exist at a certain number of right-angled rotations away from the electromagnetic-field. *These are hyperspatial components, not subject to constraints of time and space.* He claimed that electromagnetic-radiation waves were carried by the **ether** and the ether was disturbed by magnetic lines of force. The hidden component is called only 'potential' now and not normally used except for covert hyperdimensional physics and to manipulate consciousness itself via electromagnetic-waves covering vast areas of the planet.

Approx. one person in 3000 is naturally sensitive to this magnetic-waveform component, the telepathic types (according to a writer called "Majix"), but we are all capable of tuning into this magnetic component by tuning our subconscious to it. Maxwell's successors thought potentials were akin to mysticism, because they believed fields contain mass which cannot be created from apparently nothing, which is what potentials are, both literally and mathematically - they are an accumulation or reservoir of energy; but this hasn't been taught in mainstream physics.

### Thought Control

Subliminal words in the correct electromagnetic-field that expresses human consciousness, attuned to the human brain, can enter our minds at a

subconscious level. Our brain activity patterns can apparently be measured and stored on computer by super-computers. If a victim needs subliminal-thoughts implanted, all that is necessary is to capture, save on computer, and target the person's brainwave pattern to send them such low frequency subliminal-messages that they actually think it is their own thoughts [confirmed by Al Bielek and Preston Nichols with the Montauk Project in Long Island].

The researcher Majix says our brains are so sensitive that they are like liquid-crystal in response to the magnetic component of the earth.

We are sensitive to earth's magnetic changes, changes in the ionospheric cavity and re-resonate those frequencies ourselves. We are incredibly complex, beyond comprehension and a type of biocosmic transducer. He adds:

*"Physicists in Russia correlate the mean annual magnetic-activity, electro-magnetic and electro-static fields on human behavior and medical indications. They are similar to biorhythms. These magnetic frequencies can be manipulated. Our brain waves can mimic magnetic frequencies from very simple equipment at extremely low power levels. From half a second to 4 seconds later, the neurons and brainwaves are driven exclusively by the device, with power levels almost nonexistent. All one needs is a circularly polarized antenna aimed up at the ionospheric cavity and they can manipulate the moods of everyone within a 75 sq.*

*mile area. The body picks up these "new" manipulated waves and begins to correspond immediately. "Sleep" frequency will make everyone become tired and sleep."*

## **CLOSING**

Let's talk about the fact that nobody believes you or that you are being treated unfairly? Did they accept Jesus and treat Him fairly?

Did Jesus say it would be easy living for Him? Did He say everyone in this world would be doing the right thing and would never lie? No, in fact He said the opposite of those things.

**John 15:18-19** - If the world hate you, ye know that it hated Me before *it hated* you. If ye were of the world, the world would love his own: but because ye are not of the world, but I have chosen you out of the world, therefore the world hateth you.

**John 16:33** - These things I have spoken unto you, that in Me ye might have peace. In the world ye shall have tribulation: but be of good cheer; I have overcome the world.

This world isn't fair. People are dishonest and coldhearted and are willing to step on your head to get ahead. Most people are taken over by greed and serve the god of this world. You have to remember that even when it seems like God isn't with you, He is. Even if it seems like He's not answering your prayers, if you are His, He hears you. He is faithful and He will not leave you as long as you want Him.

Remember what Shadrach, Meshach, and Abednego told the king when they were faced with bowing down to his god.

**Daniel 3:17-18** - If it be *so*, our God whom we serve is able to deliver us from the burning fiery furnace, and He will deliver *us* out of thine hand, O king. But if not, be it known unto thee, O king, that we will not serve thy gods, nor worship the golden image which thou hast set up.

They had their minds set that they were going to remain true to the LORD God Almighty even to the point of death. We need to have our minds made up to serve Jesus Christ even if deliverance or healing doesn't come when we think it should. Even if it feels like our prayers aren't being answered. Even through the pain of not being believed or listened to and through the physical pain.

**Rev.21:4** - And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away.
