

SOURAV'S MISSION TRIP to UTTARKASHI - FEB 2019

Sourav is 21. He borrowed a friend from colleges motorcycle and went all by himself to spread the gospel to this far away village. I think he said it was about 4 hours away.

There are 150 to 200 people in this village.

The little girls at the home where Sourav was invited to have lunch.

These are their homes.

He said it was hard to take pictures of him spreading the gospel, to find someone to take pictures for him.

Yes aunty but the best part was that I prayed for a boy name Rajeev age 14 years he had fallen down in the village while playing and he said that from that moment he is not having pain on his right hand which he was suffering from past 4 or 5 months. All glory goes to God. That was a living testimony for us.

And the message has spread over the village and I felt the Spirit upon me while praying.

What a colorful and beautiful picture of some of the youths of that village.

Sourav loves taking pictures and has an eye for capturing the beauty. He is graduating from college this May. He has shared that in praying and searching for what he would do with his life, he has decided to join his dad in ministry. Praise the Lord!

Please keep him in prayer for God's guidance on his life.
