CROP DISTRIBUTION

We had distributed the crops in the villages to the poor and the needy families so they can have some income sources for their families. And I thank God for listening our prayer and the crops are successfully grown up and because of it the family of the village were able to get some income source and they will be able to get meal and because of this success in the village the God is being praised that how great our God is and helped those people who trust's in him.

HOUSE CHURCH (YESHU SAT SANGATI)

The house churches are being running in the different area of Himalayan rural poor community, we have given the name of House Church (Yesu Sat Sangati) means Jesus Fellowship Group, through which we are sharing gospel all over the villages,

and all this is because of sister Cherie brother Scott, Kennedy & Three Heart Congregation prayer's for us, that here we are able to share the gospel in these areas where people does not know about salvation today they are able to know, I really thank God for it.

SUCCESS STORIES

Manjali Devi lives in village Gopal. Her husband died. She has three children who have left the village and migrated from village to city for work left here alone in the village. She is from very poor family and it was difficult for her to survive as there was no financial support for her food and no means of livelihood. She belongs from Hindu family background. Most of times they quarrel for survive. Once Manjali Devi visited at three heart hostel and explained about her family life and situation to me. She was keen to know about Christianity and Bible and I explained her and provided her Christian teachings and after listing her problems I thought to provide her food and taking care for her because there was no one to take care of her because there was no one taking care of her so now she is feeling much satisfaction and peace. Please tell more about the Jesus. She continued to visit three heart hostel and now she is a believer. Praise God for it that he saved her life for his kingdom and I am thankful to God that he chosen me for this work.

Rakesh Lal lives in village Satatgat . He belongs to a low cast. So the people of the village used to neglect him most of the time. he has two children. He is from very poor family and he did not have any work so there was hard for him and his family to survive. He belongs from Hindu family background. Once I visited at their house for prayer so then they shared me about the situation and then as three heart ministry and then I came to know about his family life and situation to me. He never heard about the salvation so I shared with him about Christ I felt tears in my eyes after hearing their problem so I thought to help them because I also had same situation at my past that there was shortage of food in the house so I bought some food for them and I thank God that he made me that able to do it. It is because of God and sister Cherie and family so from that I was thinking for him so God showed me a way that I should provide him with some work so I bought seeding machine so now he has his own work and I thank God that he made his family eating.

Praise God for it that he saved their life for his kingdom and I am thankful to God that he chosen me for this work. Because the family has started believing and they are now sharing the gospel in the village and I thank God for Choosing them.
