

OUTREACH INDIA LANDSLIDE TESTIMONY

Sister I thank God for saving us last week from a huge accident.

I asked, What happened or what didn't happen?

Pastor Dalbeer shared the following:

I was going to take house church in the village and it was raining very heavily and at the road the mountain came down heavy landslide.

And one of the rock just jumped over car. And I thank God that there was nothing much destroyed and I thank God that He saved us. Because at that time I felt that I was not driving the car it was God Who was at the driving the car.

Sister, He protect us. Yes sister it was Him always taking care.

I asked who was with him. He said: With me My wife ,Sourav and two member of our ministry were there in the car.

Is the van ok?

It's quite broken from left side and from bumper too.

These are the damage photos.

That doesn't look too bad. It took a hard hit though you can tell from the bumper too. I was happy they were all kept safe. Pastor said, even I am thank full to God.

Yes sister it does not look too bad but the steering wheel is not working properly.

So these days I am taking the buses to go to villages. The ministry work continues. Sourav will go tomorrow to the service centre and then he will let me know the cost to repair. Yes sister praying for it that God shows the way.

This was the landslide where car got hit. Pastor, where is the road? You cannot even see it. Yes sister all covered by the mud.

We praise God that Pastor Dalbeer and Sunita, Sourav and the ministry team were kept safe during this landslide driving around the mountains. Even though the van was damaged their lives were spared. Glory to the LORD!

Please keep our outreach ministries lifted up in prayer as satan always wants to hinder the work of the LORD. But he is already defeated and we have the victory in Christ Jesus!
