Upstairs where the church will be.

The kitchen is looking so good. That is a new refrigerator. As you know they have lost most of their appliances and many possessions because of the flooding that has been happening where they are currently staying. Praise God He is making a way for those things to be replaced.

This is showing the pretty tile work in the bathroom.

Another look at the upstairs.

This looks like the front door area.

Gradually it is all coming together.

Thank you all for praying for the rate of exchange to increase so that the money we send toward building the house will go further. It has increased. We Praise God for that!

Thank you all so much for your prayers and support and for helping us in this great work for the Lord. When you honor God's servants He will bless you.
