

DELIVERANCE and WITCHCRAFT in KENYA

I want to share some things that Pastor Erustus has been sharing with me about his ministry there. I love to share because we all learn and grow through what we share.

Here is what Pastor has shared with me over the last few years about a particular family who were muslim:

Pastor was first involved with an older sister who was saved and converted to Christianity from Islam. He began to work deliverance in her life. Then not long after that her sister was saved and converted to Christianity during the yearly youth conference.

He shares: I am using wisdom not to be known am the one converting them from Islam or else the family attack will be on me. We always ask for God's wisdom when dealing with Muslims. It's not easy, lots of spiritual attacks but God helps us. This family especially the grandmother is deep in witchcraft and have killed many people .she has tamed snakes, tortoise, leopard, monkey, owl, frogs which she uses in witchcraft she had bewitched the oldest sister, was possessed, initiated into witchcraft, refused school, was not to get married & never to have a child. It's a long story Pastor but I took over a month casting demons out of her early last year. She was delivered and got married. Praise God, she recently gave birth to a wonderful baby boy, whom am planning to go and dedicate to the Lord.

Their grandmother the witch as we talk she is critically sick bedridden and am told she may not live for long. She started getting sick late last year after we prayed for the oldest girl's deliverance. She was the one who was to inherit the witches or witchcraft of the grandmother. After we prayed, all the animals she used for witches died and she went again and got others. She really wants to know me, who prays for her grandchildren, but God has continued to hide and protect me. Pastor working in Islam land is not easy but I always see God move powerfully. Praise His holy name!!!

January 2020:

Hello Pastor, yes I rejoice and praise God for saving their mother. She is now attending church. Her home is close to the church and she feels going to this

church her muslim matrimonial home will be a problem to them. So she attends one of pastor's churches still but it is further away. She is a widow. Pastor was told that after attending last Sunday service, she was called by her late husband's family in a mosque and disowned her before many that she is no longer part of them and should not expect any help from them in case she and her children face any problems. She is now free to serve our Lord Jesus. Let's pray for her other 3 children who are still holding on muslim faith. The only challenge she faces as a young believer is how to do spiritual warfare.

You remember I share with you that the grandmother is a great witch but after we started praying for this family through the oldest sister, when she got saved. The oldest sister had been initiated into witchcraft and was planning to join the illuminati but praise God Jesus saved her. God has used her to save her sister and now their mother.

Pastor continues: The oldest girl's deliverance was not easy it really wore me physically and spiritually. Those demons in her by her grandmother, before they left, threatened that if they locate where I am they will kill me. But I don't fear, God is my shield. It's now about 3 years since the oldest girl was saved. Am happy her sister and their mother are now born again and I believe the rest of her siblings will get saved too, God's saving power is still moving in that family. They are still mad at me but I will stand. They are saying the daughters and their mother have joined my church and am in illuminati. The devil is a liar. Pray for us plus the team.

Pastor since I did deliverance to the oldest daughter, her witch grandmother has been bed ridden for now 3 years in critical state but she not dying. It took me 2 years to get her completely delivered. It's not easy Pastor to be set free once one goes deep into satanism. It's just by God's grace.

I asked Pastor how he could tell she was not completely delivered: I could notice she was not fully delivered from the demonic dreams she used to tell me of. She could talk and fight with her dead father in dreams who wanted her to join him. And also during our Sunday service worship and prayer session the demons could manifest in her. So I had to prayerfully keep a close fellowship with her and her husband. She is now happy in her marriage and a very wonderful singer.

Last Sunday I was again at the church to pray for two of their younger siblings who also gave their lives to Jesus. Their brother was hit by a log that fell from a

huge tree in their home when it was starting to rain last Friday. He says Thursday night his late father talked to him in dreams and asked him to go with him but he refused. But the late father told him he will send a bird to pick him up and take him to where he went. Then the following day he is hit with a falling tree branch. I believe that was a spirit of death. Pastor things happen in the satanic spiritual realm that are beyond words. I have learned a lot through these deliverance sessions. Their grandmother and her group are using familiar spirits mimicking their late father's face and voice.

I just got information that that witch was rushed to hospital last weekend after suddenly she became critically sick. Imagine this just happened after I prayed for the other siblings a deliverance prayer. I tell you it's like these things backfire in the spiritual realm. We serve a good God. When I see such results it encourages me to press on despite the many attacks we go through.

Praise God they are not muslims any longer! There may only remain one I believe who isn't saved. By this time they might be saved too. Let's believe for the whole family to be saved.

I pray this has been a blessing for you all to learn from. I shared this to help you to understand better how deliverance and spiritual warfare works in the spirit realm.

God bless you all.
