

CORONAVIRUS – Part Four: CHEMICAL BIOLOGY NANO SCIENTIST, WHO NATIONAL PANDEMIC PLAN, TRIGGERING A PANDEMIC

In the first 3 parts of this message we laid the groundwork for who is behind the coronavirus. We brought out information that the Masonic luciferians had discussed and stated that “china would catch a cold” because they did not like how fast they were growing, their power and the size of their military. We talked about how it was all planned and practiced through Event 201. We even saw some truth with a spin on it when China accused the U.S. of biologic warfare and Trump said nuh uh. Then we refreshed ourselves with the video lecture coming from the Pentagon about how they wanted to stamp out the “God gene” in the guise of combating radical muslims. But stated that sending out a virus is the best way to reach most of the world’s population. They spray us with chemicals and metals through the air and unleash things through vaccines all the time. We saw some of their predictive programming where they show us what they are going to do before they do it in the movies: “Contagion” and the Korean movie, “My Secret Terrius.” We had a look at the Georgia Guidestones which tells us plainly they want to do a huge world reduction on humanity. So let’s continue today:

Please play this video – Arrests of Harvard scientists Charles Lieber and 2 Chinese national(about 2 min’s)

<https://www.youtube.com/watch?v=pgAUwb0zpLg>

So they are saying these people were arrested in regards to the ongoing threat posed by Chinese economic espionage and research theft in the U.S.

Charles Lieber sounds like he could have been someone that the U.S. used to leak the virus. Notice he was the chair of Harvard’s chemistry and chemical biology department. Harvard is one of the luciferian’s prestigious universities. It is where some of the government and military research is carried out.

Notice he was receiving grants from the U.S. Department of Defense – that’s military. Wikipedia tells us he is an American chemist and pioneer in nanoscience and nanotechnology. **(This is a HUUUUGGEEEE KEY – just remember that.)** In 2011, Lieber was named by Thomson Reuters as the leading chemist in the world for the decade 2000-2010 based on the impact of his scientific publications. He is known for his contributions to the synthesis, assembly and characterization of nanoscale materials and nanodevices, the application of nanoelectronic devices in biology, and as a mentor to numerous leaders in nanoscience.

His Alma Mater was Stanford University. If you watched the Targeting Series you already know that they are the American arm of Tavistock University which is heavily into mind control, deception, non consensual experimentation, torture...targeting – you name it. Tavistock has patiently been working to drive the agenda toward NWO (new world order) forward. They are a hidden hand behind government, big business, banking etc.

***They are training world leaders into their wickedness and placing them in key*
* positions to bring the world into subjection under the NWO (new world *
*order). ***

Let's refresh ourselves on Stanford:

STANFORD RESEARCH INSTITUTE

Jesse Hobson, the first president of Stanford Research Institute, in a 1952 speech made it clear what lines the institute was to follow. Stanford can be described as one of the "jewels" in Tavistock's Crown in its rule over the United States. Founded in 1946 immediately after the close of WWII, it was presided over by Charles A. Anderson, with emphasis on mind control research and "future sciences." Included under the Stanford umbrella was Charles F. Kettering Foundation which developed the "Changing Images of Man" upon which the Aquarian Conspiracy rests.

Some of Stanford's major clients and contracts were at first centered around the defense establishment, but as Stanford grew, so did the diversity of its services:

Applications of Behavioral Sciences to Research Management Office of Science and Technology

SRI Business Intelligence Program

U.S. Department of Defense Directorate of Defense Research and Engineering

U.S. Department of Defense Office of Aerospace Research

Among corporations seeking Stanford's services were Wells Fargo Bank, Bechtel Corporation, Hewlett Packard, Bank of America, McDonnell Douglas Corporation,

Blyth, Eastman Dillon and TRW Company. **One of Stanford's more secret projects was extensive work on chemical and bacteriological warfare (CAB) weapons.**

Kind of a major thing considering what we have been learning. Stanford Research is plugged into at least 200 smaller "think tanks" doing research into every facet of life in America.

This is ARPA networking {today called DARPA}, and represents the emergence of probably **the most far reaching effort to control the environment of every individual in the country.** At present, Stanford's computers are linked with 2500 "sister" research consoles which include the CIA, Bell Telephone Laboratories, U.S. Army Intelligence, The Office of Naval Intelligence (ONI), Rand, MIT, Harvard and UCLA. Stanford plays a key role in that it is the "library", cataloging all ARPA documentation.

Stanford Research Institute in Washington. Typical layout and buildings in worship to their fallen angels & false gods. The X is for the sun god baal as is the name of the virus we are covering – corona. In their witchcraft math those X's = 6's.

Columbia links to liberty and liberty links to the Roman goddess Libertas which is the same as what you see above – she is “queen of heaven” which is an abomination to God. Columbine was on of the U.S.’s biggest false flag school shooting events. Take off the “ne” and you have Columbi in honor of their goddess. That “event” was 21 years ago. They have certainly perfected their fake events since then.

Lieber was paid to set up a research lab in Wuhan. Wuhan where the coronavirus epidemic started. Hmmm Remember China said the U.S. brought the virus there and Trump said, nuh uh. You can connect the dots here. He could just be the fall guy, I surely don't believe they even did a thing to him. He's one of them. Worth noting he is said to be a Jew and they are the ones teaching witchcraft to the world. God never wanted us blessing a nation living in sin and rebellion against Him. Still we don't hate them, but we should pray for them to be saved.

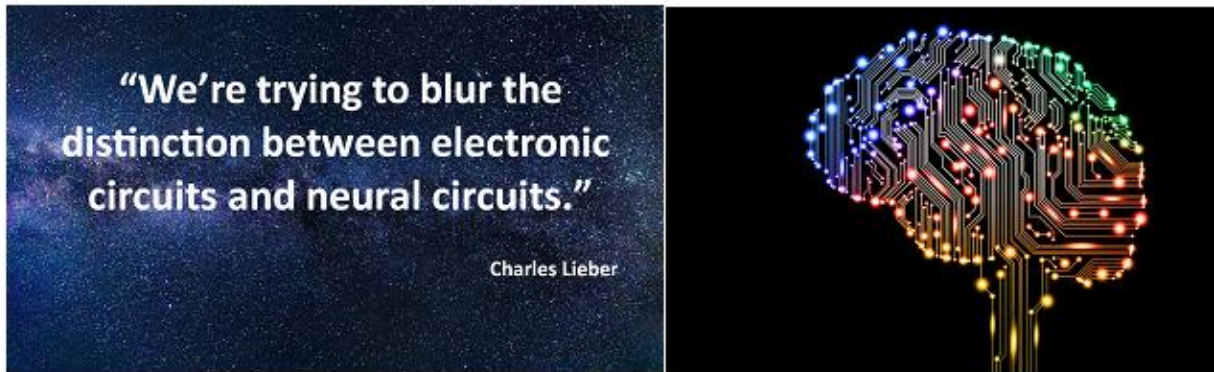

So he was an expert in nanotechnology and biochemistry. Seems feasible that a virus was created to be used in warfare beginning with the Chinese and then spreading to the whole world. This matches what we learned that was stated in the Masonic meeting 10 years ago, about "China catching a cold." This nano technology that they are spraying on most of the world through chemtrails, is microscopic computers and metals.

This virus that was released in Wuhan seems to have had nanotechnology in it. I will bring out more on that later.

RESEARCH ON LIEBER

What if the next gadget for sending messages to your friends wasn't a watch strapped to your wrist or a phone stuffed in your pocket—but an electronic device embedded in your brain? Now, a new kind of flexible circuit has brought us one step closer to this science fiction future. Implanted via injection, a grid of wires only a few millimeters across can insinuate itself with living neurons and

eavesdrop on their chatter, offering a way for electronics to interface with your brain activity.

Most recently, he has demonstrated that this macroporous electronics can be injected by syringe to position devices in a chosen region of the brain. Chronic histology and multiplexed recording studies demonstrate minimal immune response and noninvasive integration of the injectable electronics with neuronal circuitry. Reduced scarring may explain the mesh electronics' demonstrated recording stability on time scales of up to a year. This concept of electronics integration with the brain as a nanotechnological tool potentially capable of treating neurological and neurodegenerative diseases, stroke and traumatic injury has drawn attention from a number of media sources. *Scientific American* named injectable electronics one of 2015's top ten world changing ideas. *Chemical & Engineering News* called it "the most notable chemistry research advance of 2015." **PLEASE KNOW THAT THEY DON'T INTEND TO USE THIS TECHNOLOGY TO BENEFIT ANYONE BUT RATHER ONLY TO HARM AND CONTROL.**

As this message moves on, I want you to remember that Lieber is a well honored and recognized scientist in nanotechnology and nanoscience. This is part of this whole "event."*

RESEARCH

Today, former scientist turned antivaccine “scientist” James Lyons-Weiler is claiming that 2019-nCoV, the coronavirus strain behind the outbreak, is in reality the result of an attempt to make a vaccine that went wrong.

Here are a couple of his theories:

A recombined virus made in a laboratory for the purpose of creating a bioweapon.

A recombined virus made in a laboratory for the purpose of creating a vaccine.

MORE RESEARCH

In the last few years China has had quite a few vaccine debacles.

Conclusions

A majority of the respondents held negative attitudes towards vaccines after the Changsheng vaccine incident. A coordinated effort is required to restore public confidence in vaccines, especially in China, where a nationwide mandatory immunization policy is implemented. To end dissent towards inoculation, a series of actions is crucial and multiple parties should work together to advance efforts and explore the possibility of establishing an open and transparent regulatory system.

I have heard Tony Pantalleresco and a few others say that China had just undergone a mandatory vaccine before the outbreak. I cannot find that information online. They are scrubbing stuff off the internet fast. One video that gave information regarding them receiving a vaccine ahead of the outbreak has been removed and besides that video, I only heard one other person talking about their mandatory vaccine that they took just before the outbreak.

The screenshot shows the website of The Law Library of Congress. At the top left is the logo, which features a scale of justice and the text 'THE LAW LIBRARY OF CONGRESS'. Below the logo is a search bar and a list of navigation links including 'Law Library Home', 'About the Law Library', 'Research & Reports', 'Find Legal Resources', 'Educational & Research Opportunities', 'Visiting the Law Library', 'News & Events', and 'Contact'. To the right of the search bar is a navigation menu with links for 'Home', 'Search', 'Browse All Jurisdictions', 'Browse All Topics', 'Browse All Authors', 'RSS', and 'Too Recent Articles'. The main content area features an article titled 'China: Vaccine Law Passed' with a red arrow pointing to the title. The article text includes: '(Aug. 27, 2019) On June 29, 2019, the National People's Congress Standing Committee of the People's Republic of China (PRC or China) adopted the [PRC Law on Vaccine Administration](#) (Vaccine Law). The official Xinhua news agency [states](#) that the Law provides for the "strictest" vaccine management with tough penalties in order to ensure the country's vaccine safety. Before the passage of this 100-article Law, provisions governing vaccines [were contained](#) in the PRC Drug Administration Law, PRC Law on the Prevention and Treatment of Infectious Diseases, and a few relevant administrative regulations and rules. The new Law provides for regulatory requirements for researching, producing, distributing, and using vaccines. Such requirements, according to one legal commentator, are [much more stringent](#) than those for other drugs (art. 2). It also contains a chapter specifying penalties for violating the Vaccine Law, which are also stricter than those for violating other drug laws (ch. 10). According to the Law, if any violation of this Law constitutes a crime, a "heavier punishment" within the range of punishments provided by the Criminal Law on the relevant crimes is to be imposed (art. 79). The Law mandates the launching of a national vaccine electronic tracking platform that integrates tracking information throughout the whole process of vaccine production, distribution, and use to ensure all vaccine products can be tracked and verified (art. 10). According to the Law, China is to implement a state immunization program, and residents living within the territory of China are legally obligated to be vaccinated with immunization program vaccines, which are provided by the government free of charge. Local governments and parents or other guardians of children must ensure that children are vaccinated with the immunization program vaccines (art. 6). The Law establishes a compensation system for abnormal reactions to immunization. A recipient of an immunization program vaccine who dies or suffers significant disability or organ and tissue damage shall be paid from the vaccination funds of the provincial level government if the damage falls within the scope of abnormal reactions associated with a vaccine or cannot be prevented (art. 56). The Law will take effect on December 1, 2019 (art. 100).' A second red arrow points to the paragraph about the compensation system.

On The Law Library of Congress website we can see that China just passed a mandatory vaccine law. It became effective December 1, 2019 just ahead of the outbreak in Wuhan. It seems only likely that they did begin giving vaccines at that time.

So it is a real possibility that they did use biochemical warfare in the mix of what is going on here, at least initially.

The screenshot shows a social media comment from a user named 'Mass Effect' posted 5 days ago. The comment text reads: 'The NWO tried this in 2009 with the failed swine flu in 2009! Look up Jane Burgermeister and check the links that come up!!! I can tell you president obama was involved! Also look up pope letter to obama you should find it!'. *Please play from 20:01 to 21:31 and from 22:23 to 23:29 and from 24:31 to 26:43 and from 28:09 to 30:44 From 2009: Jane Burgermeister: She is an

Austrian medical and science journalist who figured out what they were up to back in 2009. She tried to stop them and warn the world and is now labeled a “conspiracy theorist.” She blew the whistle on contaminated swine flu vaccines talks about how there is an agenda of the U.S. government, pharmaceutical companies, banking cartels are operating together to push forward this mass murder under the guise of offering people vaccinations. She filed with the FBI and yet there seems to be no paper trail at all. / She says there is no denying that these structures (FBI, law enforcement etc.) are extremely corrupt and are not doing their jobs. / The media is systematically controlled by a central group who have economic interests in oil and renewable energy and suppressing renewable energy. She was surprised to find out how controlled alternative media is as well. She learned that there are people purposely placed within alternative media to obstruct justice and move people away from the legislation which allows mass forced vaccination programs. Most people don’t know anything about the international health regulations and about the national pandemic plans that allow mass vaccinations. For Austria, in the event of a national pandemic level 6, then has to follow the regulations of the WHO (World Health Organization). She talked about the “National Pandemic Plan” and the WHO can force people to take vaccinations and to go into quarantine. / Bill Ryan asks her what she thinks they will do now because people are starting to wake up. She says they have a plan to collapse the economy, along with mass vaccination program, plans for famines and wars and moving the countries under the WHO and the UN for One World Government. She thinks they are pressing ahead and accelerating their efforts. She believes they are trying to trigger a pandemic.* (about 7.5 min’s)

<https://www.youtube.com/watch?v=PeITWCUmTsU>

Seems like what we are dealing with now, doesn’t it.

*Please play from 42:12 to 45:00 From 2009 Jane Bergermeister, a whistleblower, talks about their plan to start a pandemic. People will be offered time off work to go and get the flu shot and children in school will get them and of course the military. They hope to get enough vaccines out there to eventually kill enough people to start a pandemic so that they will have the excuse to execute their plans to vaccinate the whole world. Back in 2009 the vaccine maker, Baxter, had live bird flu that they were putting into the vaccines and hoping to start a pandemic but it did not happen. *(about 3 min’s)

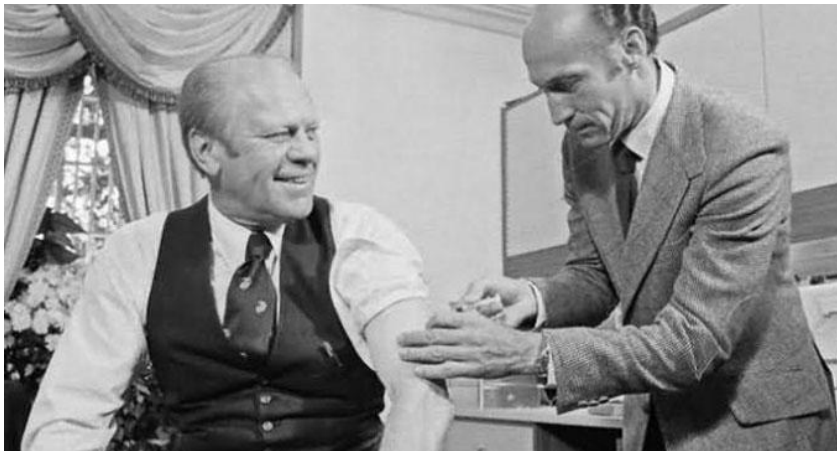

<https://www.youtube.com/watch?v=PeITWCUmTsU>

You know we are a good 10 years out from that failed attempt. So they have regrouped and are making a pretty good go of deceiving the world with the coronavirus lie now.

*Please play from 1:09:45 to 1:12:16 – Dr. talks about how President Ford wanted to vaccinate the whole country against swine flu back in 1976. *(about 3.5 min's)

<https://www.youtube.com/watch?v=P9CGfYPXDKg>

They tried it back in 1976 also?

President Ford getting his swine flu shot. They wouldn't lie to us and just make it appear that he really got it, would they?...

People were dropping dead in the very building where they received their shots and many others were paralyzed and then they stopped the program. There was never an epidemic of swine flu, not a single case of it. Why did the world's most powerful man with the world's most powerful department of health get it so wrong? Because it is an agenda of the luciferians to kill.

People went right out to get the vaccine. We have blindly believed our governments, and healthcare industries. At the top levels they know what they have been doing to further the plans of world domination. 1976 seemed way too primitive for them to run their plan, 2009 was getting closer and look where we are now...

Thanks Aunt Sue for the following post she shared on FB:

Worst case, pay attention! Do this if it happens.....

Good advice from a respiratory therapist!

CORONA Common Sense

Since they are calling on Respiratory therapist to help fight the Corona virus, and I am a retired one, too old to work in a hospital setting. I'm gonna share some common sense wisdom with those that have the virus and trying to stay home. If

my advice is followed as given you will improve your chances of not ending up in the hospital on a ventilator. This applies to the otherwise generally healthy population, so use discretion. 1. Only high temperatures kill a virus, so let your fever run high. Tylenol, Advil. Motrin, Ibuprofen etc. will bring your fever down allowing the virus to live longer. They are saying that ibuprophen, advil etc will actually exacerbate the virus. Use common sense and don't let fever go over 103 or 104 if you got the guts. If it gets higher than that take your tylenol, not ibuprophen or advil to keep it regulated. It helps to keep house warm and cover up with blankets so body does not have to work so hard to generate the heat. It usually takes about 3 days of this to break the fever. 2. The body is going to dehydrate with the elevated temperature so you must rehydrate yourself regularly, whether you like it or not. Gatorade with real sugar, or pedialyte with real sugar for kids, works well. Why the sugar? Sugar will give your body back the energy it is using up to create the fever. The electrolytes and fluid you are losing will also be replenished by the Gatorade. If you don't do this and end up in the hospital they will start an IV and give you D5W (sugar water) and Normal Saline to replenish electrolytes. Gatorade is much cheaper, pain free, and comes in an assortment of flavors 3. You must keep your lungs moist. Best done by taking long steamy showers on a regular basis, if your wheezing or congested use a real minty toothpaste and brush your teeth while taking the steamy shower and deep breath through your mouth. This will provide some bronchial dialation and help loosen the phlegm. Force your self to cough into a wet wash cloth pressed firmly over your mouth and nose, which will cause greater pressure in your lungs forcing them to expand more and break loose more of the congestion. 4. Eat healthy and regularly. Gotta keep your strength up. 5. Once the fever breaks, start moving around to get the body back in shape and blood circulating. 6. Deep breath on a regular basis, even when it hurts. If you don't it becomes easy to develop pneumonia. Pursed lip breathing really helps. That's breathing in deep and slow then exhaling through tight lips as if your blowing out a candle, blow until you have completely emptied your lungs and you will be able to breath in an even deeper breath. This helps keep lungs expanded as well as increase your oxygen level. 7. Remember that every medication you take is merely relieving the symptoms, not making you well. 8. If your still dying go to ER. I've been doing these things for myself and my family for over 40 years and kept them out of the hospital, all are healthy and still living today. Thank you all for sharing. We gotta help one another.

DO NOT TAKE ANYMORE VACCINES. We have not understood how bad for us they were. Seems like they got tired of trying to make it happen through a real pandemic. The false flags they have done for years on us have worked so seems they got bold enough to do one on the whole world. Biological warfare from a lab is certainly a possibility of how it got started. There are other things at play, but they are really working the psyop in all of this, spreading lies and fear and this thing is just morphing and growing bigger and bigger. We the people are split, there are those of us who can see their lies and know what they are up to and those who hang on their every word.

Social media seems to be split as to whether or not you can catch a virus or not. But after watching the lecture given at the Pentagon and their plan to send out the virus onto the whole world it certainly seems like you can. The military has sprayed all sorts of stuff on us and they still do every day. You know they spread their germ warfare through vaccines too. And here is my 2 cents: chicken pox is considered a virus and when I was a kid I gave the chicken pox to all 3 of my brothers. And when someone in my family catches a cold no matter how cautious we are it seems that one of the other two catch it too. I looked in one of my medical reference books and it classified the common cold and the flu as being viral. The medical researcher journalists certainly seemed to believe you can catch it from others or rather those who have been vaccinated. And last of all when Kennedy had mono, which is a virus, they told us there was nothing they could do for her, that it just had to run its course. When you go to the dr. and they find out it is viral and not bacterial, a good dr. will tell you they can't give you anything for that.

John 8:44 - Ye are of *your* father the devil, and the lusts of your father ye will do (you want to carry out your father's desires). He was a murderer from the beginning, and abode not in the truth (did not hold to the truth), because there is no truth in him. When he speaketh a lie, he speaketh of his own (he speaks his native language): for he is a liar, and the father of it (father of lies).

Murdering and lies – they specialize in this because of who they serve.

John 10:10 - The thief cometh not (only), but for to steal, and to kill, and to destroy: I am come that they might have life, and that they might have *it* more abundantly (to the full).

These luciferians have made it very clear that they are out to kill us, steal from us and destroy us if possible. They want total control.

Luke 17:33 - Whosoever shall seek to save (keep) his life shall lose it; and whosoever shall lose his life shall preserve it.

When you trust in Jesus and give your life to Him, then you have died to the flesh and that means you have lost your life. The Bible says the old man is dead. If you continue in obedience to Christ then when you die you will live eternally with Him in peace and happiness. But if you are one of them, trying to live forever without God, then when you die, you will have damned your soul to torment and misery forever and ever first in hell and then finally in the lake of fire.

Romans 8:31 - What shall we then say to these things (in response to these things)? If God *be* for us (If God is for us), who *can be* against us?
