

CORONAVIRUS – Pt 14: GENE EXCHANGE, DNA TAMPERING, CANNIBALISM, VACCINE INJURIES

So far Youtube has pulled parts 10 & 12 of this teaching series. Censorship has been so heavy. You can find those parts as well as all the messages on our church website: threeheartchurch.org.

Ann Marie Miller Hi Cherie! I want to thank you and the Three Hearts Church family for praying for salvation for our children, Noah, Adrianna and Allie. Yesterday, after church, our son, Noah who is 14 told our Pastor that he wanted to be saved. I wish you could have heard the beautiful prayer that Noah spoke out loud in his own words. Praise God, Noah is now saved and I believe God will use him for great things to come. After he got saved, he told our pastor that we have been watching videos online that have helped him to understand the Bible and God's plan for salvation and also have helped him understand the world ,today, and why salvation is so necessary. I want to thank you, Cherie, for your influence on Noah over the years. Noah has watched your sermons with me since he was a little boy! Praise God for answered prayers! All Glory to God, forever! Please continue to pray for our girls, Adrianna (age 17) and Allison (age 10) and for their salvation. Noah passionately spoke to his sisters about his salvation and why He prays that they will come to salvation, as well! Thank you again to the entire Three Hearts Church family, for your prayers! We love you!

CORONAVIRUS – Part 11: ID2020, DIGITAL ID, QUEEN of HEAVEN

Karen Hodges: I am a retired teacher. In the early 90's I got the flu shot. Two weeks later I got the flu for the first time. I will not take any vaccine. Getting this kind of id reminds me of cattle branding. Thanks for your work.

Please play from 1:29:31 to 1:30:51 Clade X is a think tank exercise of a pandemic that was held in 2018. In this clip they say some believe the outbreak came from a lab that was studying a vaccine. They mention gene exchange.(about 1.5 min's)

<https://www.youtube.com/watch?v=sJ1x8SINxi0>

All the talk we have uncovered about labs and bioweapons lets us know that a lab seems to have been involved for sure. I will keep hammering this home: This was all planned. That's why they kept having these think tank sessions.

They are after damaging and altering our dna. Some of the nano I have read about in my research, can unzip our dna and disrupt it.

Research: "We think gold nanoparticles still hold promise for gene therapy," says Dr. Yaroslava Yingling, an assistant professor of materials science and engineering at NC State and co-author of the paper. "But it's clear that we need to tailor the ligands, charge and chemistry of these materials to ensure the DNA's structural integrity is not compromised."

The finding is also relevant to research on DNA-based electronics, which hopes to use DNA as a template for creating nanoelectronic circuits. Because some work in

that field involves placing metal nanoparticles on DNA, this finding indicates that researchers will have to pay close attention to the characteristics of those nanoparticles – or risk undermining the structural integrity of the DNA.

Please play this video – These scientists are going to show us how they are mixing dna and nanotechnology together. This video describes a cell-targeted, payload-delivering DNA nanorobot developed at the Wyss Institute that can trigger targeted therapeutic responses. This novel technology could potentially seek out cancer cells and cause them to self-destruct.(about 6 min's)

<https://www.youtube.com/watch?v=l2WFF3Gy4a0>

He said they designed and ordered the dna from a company. What does that mean? DNA is programmable.

Look at the last slide. The Wyss Institute uses nature's design principles to develop bio-inspired technologies that will revolutionize medicine and create a more sustainable world. Notice how nature is capitalized. That's because it is the goddess they serve called Asherah / Ashtaroth / Queen of Heaven in our Bibles. She is known as Easter, Semiramis, Isis, Lady Liberty, Freedom etc. They are not crediting God with creating man but rather nature.

FROM MS. TOMMIE:

Vaccines? Dr. Sherri Tenpenny began my abrupt wake-up moment in 2001. I cried...with guilt, with anger, with how-could-I-have-been-so-naive... The data does not even support the positive benefits to us. Improvements in hygiene, decreased disease long before the vaccines were introduced. I began studying the ingredients in vaccines....aluminum, mercury, polysorbate 80, formaldehyde, genetically modified insect protein, bovine protein, monkey protein, human protein, chicken protein, yeast protein, pig protein, non-GMO fall army worm protein? Really? Why??? This is money driven on so many levels. DNA makes protein which enable the DNA to form chromosomes. (**My words: These protein injections are interacting with our DNA and changing it.**))

- Our bodies are designed to receive protein (DNA is protein) via the gastrointestinal tract. We eat plant and animal proteins and our bodies know how to process them (unless they are GMO then we don't know how these will be handled or expressed in our bodies or the environment for that matter). By injecting them directly into body tissues (muscle, subcutaneous tissue) the (unprocessed) proteins are picked up by the circulating blood and begin a cascade of problems - hyper-immune responses, inflammation, allergies, and I suspect causes viruses to more easily jump species (bird flu, swine flu, etc) along with causing cancer.
- Hyper-immune responses = autoimmune diseases
- Inflammation = gastrointestinal inflammation (leads to poor digestion and utilization of nutrients and allows undigested proteins to enter our circulation), neuro developmental problems in children (autism, speech, weak throat muscles (loss of pharyngeal tone), delayed walking, poor coordination, ADD, etc. Also cholesterol responds to inflammation by increasing to repair damage by inflammation. You guessed it. The doctor then sees the elevated cholesterol level and the drug company says, "Chancing!" You are now on a statin that will lead to a BP med, then a diabetes med, and then a heart med. They know this from their research and they push it all out to make money while killing us. Oh, and you no longer have an elevated cholesterol to heal damage caused by inflammation...
- Allergies = sniffing, sneezing, asthma, anaphylactic reactions, etc.
- The way God created us - we (of the animal kingdom) all start out as an embryo that resembles a chicken embryo (pretty much indistinguishable to the eye at that point); then our DNA expression results in our final design

(my DNA expressed itself as a human and my cat's DNA expressed itself as a feline). God created us perfect!!! I suspect that by injecting foreign DNA into us will allow viruses from other species to more easily jump to humans because we will have DNA from the species that those particular viruses usually prefer. This could explain why the monkey virus (SV 40) survived in the polio vaccine - it had monkey DNA to help it replicate and mutate. Unlike bacteria, viruses are incomplete; they must have DNA (animal or plant) in order to replicate. Anyway, if we are faced with more disease, then the drug company gets to sell more vaccines, more anti-cancer treatments...cha ching...

Rev. 18:4 - And I heard another voice from heaven, saying, Come out of her, My people, that ye be not partakers of her sins, and that ye **receive not of her plagues.**

God will pour out His judgment – but in the meanwhile we don't have to be receiving disease/plagues at their hands if we can help it.

I met another RN that has similar concerns. I told her about the fall army worm larvae (lar-vee) being used in the production of certain vaccines. She questioned why that particular insect and looked it up. Apparently the fall army worm larvae is prone to destructive behavior and cannibalism (cannibalism is a way to remove competitors). They are mixing this DNA with ours.

L: Fall Armyworm has cannibalism in its dna R: Zombie Apocalypse Why are they specifically seeking a cannibalism gene to put into the vaccines???

Remember the things we've heard about McDonald's having human flesh in their meat?

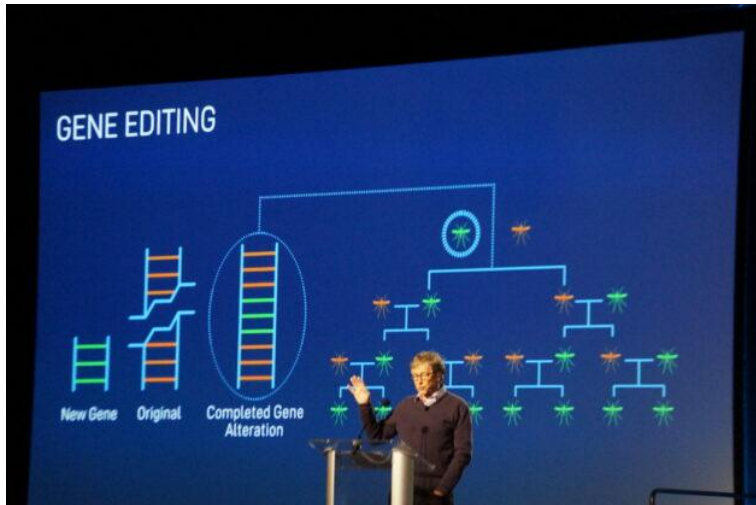

I remember hearing that Pepsi used aborted fetuses to flavor their drinks and they aren't the only ones. Aborted fetuses are used in beauty products too. Many of these giant corporations are adding aborted fetuses under the label of natural and even artificial flavoring.

It's not a far stretch when you realize that they boldly use them in vaccines but don't tell us that up front. Remember Soylent Green?

Please play from 0 to 1:33 In the movie Soylent Green, Charlton Heston discovers that the ocean is dying and plankton is dying. The rulers are feeding everyone green squares called soylent green. He finds out that it is made out of people. He is trying to let everyone know that what they are being forced to eat is people.(about 1.5 min's)

<https://www.youtube.com/watch?v=8NmFzRjNfVk>

He said, "They're making our food out of people. Next thing you know they'll be breeding us like cattle for food." So they are doing their sick and twisted experiments on us.

This is one of Bill Gates' talks – Gene Editing - they are all about changing our dna.

Here is a headline From Vactruth: India holds Bill Gates accountable for his vaccine crimes.

Gates Foundation, WHO, PATH, GAVI, UNICEF Behind Chad Vaccine Disaster

In December 2012, in the small village of Gouro, Chad, Africa, situated on the edge of the Sahara Desert, five hundred children were locked into their school, threatened that if they did not agree to being force-vaccinated with a meningitis A vaccine, they would receive no further education.

These children were vaccinated without their parents' knowledge. This vaccine was an unlicensed product still going through the third and fourth phases of testing.

Within hours, one hundred and six children began to suffer from headaches, vomiting, severe uncontrollable convulsions and paralysis. The children's wait for a doctor began. They had to wait one full week for a doctor to arrive while the team of vaccinators proceeded to vaccinate others in the village.

When the doctor finally came, he could do nothing for the children. The team of vaccinators, upon seeing what had happened, fled the village in fear.

The original report written in a small, local newspaper called *La Voix*, the only newspaper to have published the original story, stated that forty children were finally transferred to a hospital in Faya and later taken by plane to two hospitals in N'Djamena, the capital city of Chad.

After being shuttled around like cattle, many of these sick, weak children were finally dumped back in their village without a diagnosis and each family was given an unconfirmed sum of £1000 by the government. No forms were signed and no documentation was seen. They were informed that their children had not suffered a vaccine injury.

However, if this were true, why would their government award each family £1000 in what has been described as hush money?

The only mainstream news channel to have highlighted the plight of these poor children was a local channel called Tchad, which filmed footage of the then-Prime Minister of Chad visiting the children in hospital.

VacTruth has copies of both reports, along with medical and government documents.

Despite this evidence and VacTruth's detailed and extensive coverage, including highlighting television footage, once again, the vaccine program was hailed a success. To watch videos reporting the story, see the references at the end of this article. [4] [5]

In 2011, the *Express Tribune* published a story stating that:

“ISLAMABAD: A government inquiry has found that polio vaccines for infants funded by the Global Alliance for Vaccination and Immunisation are causing deaths and disabilities in regional countries including Pakistan.

The startling revelation is part of an inquiry report prepared by the Prime Minister's Inspection Commission (PMIC) on the working of the Expanded Programme on Immunisation (EPI). The PMIC, headed by Malik Amjad Noon, has recommended that Prime Minister Yousaf Raza Gilani immediately suspend the administration of all types of vaccines funded by the GAVI.”

According to the *Express Tribune*, the main vaccinations in question were the polio vaccine and the 5-in-1 pentavalent vaccine, which were said to be responsible for the deaths and disability of a number of children in Pakistan, India, Sri Lanka, Bhutan and Japan.

The Gates Foundation Blamed for 10,000 Vaccine-Related Deaths

In 2013, yet another report named the Gates Foundation and GAVI as being responsible for multiple deaths using untested vaccinations on children from the developing world.

The report, published on the website Occupy Corporatism and written by Susanne Posel stated:

"It was found out through an investigation, that GAVI was using an untested vaccine; giving this dangerous vaccine to Pakistani children shows the lack of empathy associated with these organizations.

GAVI was blamed for the deaths of 10,000 children in Pakistan when they came in and administered polio vaccines that resulted in casualties."[9]

As we know, GAVI is heavily funded by the Gates Foundation. [10]

The Gates Foundation Blamed for 10,000 Vaccine-Related Deaths Deaths

In 2013, yet another report named the Gates Foundation and GAVI as being responsible for multiple deaths using untested vaccinations on children from the developing world.

The report, published on the website Occupy Corporatism and written by Susann Posel stated: "It was found out through an investigation, that GAVI was using an untested vaccine: giving this dangerous vaccine to Pakistani children shows the lack of empathy associated with these organizations. GAVI was blamed for the deaths of 10,000 children in Pakistan when they came in and administered polio

Vaccines that resulted in casualties.” As we know, GAVI is heavily funded by the Gates Foundation.

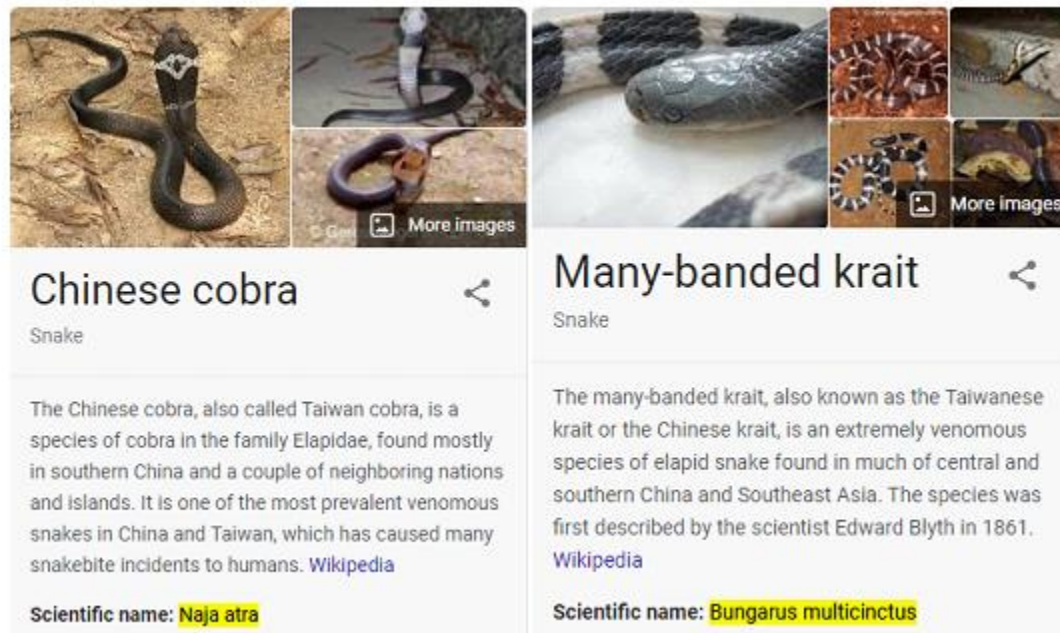

The nations considered 3rd world countries are starting to wake up to the truth about vaccinations. They are harmful, damaging and in fact many times they are deadly. Some of the accounts I read stated that they obtained consent illegally from wardens over the hostels where the children resided or by obtaining fingerprints of illiterate parents. I am amazed at what a good snow job they have done on America with vaccines. We have really swallowed the vaccine lie and thought we were so privileged to have such easy access to them.

We learned last week that they use aborted fetuses in many vaccines. They also use animals to culture vaccines and they add animal tissues, cells, dna, proteins, blood etc. into in the vaccines. Originally there was a lot of talk about the virus jumping from animals. Remember I said if there was any truth in that it is because they culture that stuff and put it into the vaccines.

Ms. Tommie shared an article from The Lancet on the speculation that the virus jumped from animal to human. On the page with that article, another article caught her eye, so she went there and read it. Here is the short version of what she came away with: Findings summarized by the authors: "In summary, results derived from our evolutionary analysis suggest that 2019-nCoV has most similar genetic information with bat coronavirus and has most similar **codon usage bias with snake**. Additionally, a homologous (ho mal e gus) recombination may occurred within the viral receptor-binding spike glycoprotein, which may determine cross-species transmission. These novel findings warrant future investigation to experimentally determine if homologous (ho mal e gus) recombination within the spike glycoprotein determine the tropism of the 2019-nCoV in viral transmission and replication. New information obtained from our evolutionary analysis is highly significant for effective control of the outbreak caused by the 2019-nCoV-induced pneumonia. "

Ms. Tommie shared: These authors stated more research was needed because their research did not prove species jumping. I believe they will find that this virus is a lab creation by way of genetic engineering. I could be wrong but I am leaning toward GE and vaccine related. I'm particularly wondering why the dna bias is towards the snake. This is so disgusting. I think of all the different animal

cells used in making vaccines - the ticking time b_o_m_b_ just reached zero. But I digress. Another key element of their findings is that they could not determine tropism - why the virus prefers to bind with the host cells it chooses. Again, I believe it was the product of "function gaining" experimentation in a lab. Again, I cannot prove this just suspect this.

She did our homework for us on this. In the second article it mentioned these two snakes coming up in their testing and research: N. atra and B. Multicinctus

Let's go back to the beginning to understand something about the serpent who is satan. This next passage is after the fall in the Garden of Eden when God pronounced curses against Eve and the serpent.

Gen.3:14-15 - And the LORD God said unto the serpent, Because thou hast done this, thou *art* cursed above all cattle, and above every beast of the field; upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life: And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel.

Mandela Effect – It used to read He shall crush your head and you will bruise His heel.

There are false teachings that say Eve actually slept with satan. I have already addressed that in “Eve, satan and the Snake: Serpent Seed.” We see that satan does have seed and his seed are those that love him and his ways.

Matt.12:34 – (Jesus’ words) O generation of vipers, how can ye, being evil, speak good things? for out of the abundance of the heart the mouth speaketh.

Luke 3:7 – (John the Baptist’s words) Then said he to the multitude that came forth to be baptized of him, O generation of vipers, who hath warned you to flee from the wrath to come?

The serpent is cursed. Look at what the wicked ones are doing now because it sure seems they are trying to get serpent dna into us.

Remember what Ms. Tommie said: I suspect that by injecting foreign DNA into us will allow viruses from other species to more easily jump to humans because we will have DNA from the species that those particular viruses usually prefer. Unlike bacteria, viruses are incomplete; they must have DNA (animal or plant) in order to replicate.

God is sovereign. I sure would like it if God would speak everything back to its original creation. This can of crazy just gets deeper and deeper.

CLOSING

A picture at one of the protests. There are others who are awake about vaccines out there. They know, what is coming in the coronavirus vaccine, is not going to

be good. I wanted to cover vaccines thoroughly so that our congregation and those that God draws to these messages can be fully informed before they make a decision about the vaccines that are coming. My advice is not to ever take any more vaccines and warn everyone you can.

PRAYER
