

CORONAVIRUS PT 27: HR 6666, TRACK and TRACE

Please play from 0 to 20:02 This woman was certified by Johns Hopkins and Astho to be a contact tracer. She shares what she learned. She said it is going to affect you and your family. A clip of Nancy Pelosi saying they need to test, trace and treat. The contact tracer said that if you test positive they are going to call you and tell you that you need to isolate. They will make you prove that you can isolate away from your family and pets in your own home. If not, you will have to go into a hotel room. This means you have to have enough space not to share a bathroom etc. If you tested positive they are going to go over your movements by going through your phone and social media to find out where you have been so they can notify those places and people so that they can be quarantined. She said you can easily get out of quarantine and go right back into it over and over again even though you may be perfectly healthy. Then she showed how they had paperwork that discussed signing paperwork to state that you are voluntarily quarantining. However, within the body of that document it states that if you don't voluntarily quarantine they will get police to enforce it and make you quarantine. Your privacy goes out the window with this covid agenda. They are accomplishing this by saying being open about everything is for the greater good. They can require you to take medicines or vaccines because they say you cannot risk getting anyone else infected. She found a document that stated that in the guise of a spread of a communicable disease that the police can take control of a person's body or of a corpse. She showed how they are using this plandemic to take away all of our rights. (A medical marshall law.) She showed a clip of a lawyer saying you have no right not to wear a mask, no right not to vaccinate, no right not to quarantine, no right not to open up your business. He said the state has a right to force you to take the vaccination. He explained that if you personally get a disease that can kill you, you have the right to refuse a vaccine for that. But he said in the case of a communicable outbreak you don't have the right to refuse a vaccine. (Forced vaccination.) She said in her certification meetings that they discussed apps. They said at that time in May that only 2% of the population had downloaded the app. They said they needed about 50 to 70% of the population to download the apps for them to be effective. She said that India was given a voluntary covid app. But she said that in order to go anywhere you have to show the app. She mentioned examples like planes, tranes, work, etc. New Zealand is using a QR code app.(about 20 min's)

This lady went through the certification process to be a contact tracer. Notice how she said if you test positive you have to prove you can quarantine away from everyone in your house or else you will have to leave the home to isolate. You have to stay away from your pets if you are positive. Wow. Crazy. They will get your groceries and they will take care of your children. That's a problem, that's a whole lot of problems. I don't think this is fully in effect yet. These are their plans and they are showing us what they hope to implement.

Doesn't this say it all. How miserable all of this is and the masks are beyond ludicrous.

If you tested positive then they are going to begin to dig into your movement to find out where you have been so they can contact other people and places of business. She said if you get out of quarantine, they can call you and tell you that you were at a location where someone tested positive and you need to go right back into quarantine. I see this encouraging people not to go out. But isn't that a win win for them? They want us confined in our homes and if we think that if we stay home we will be covid free then you have given up living life as a free person.

I have seen in some research on India where they were saying that their code changed for no reason. Don't we already know how glitchy a.i. is anyway. How our computers crash and our phones do what they want to do. And don't get me started on the government or doctors either for that matter and all the mistakes they make with their record keeping. Remember that time Kennedy was taking

physical therapy for her knee and they marked her chart as a dope addict, mentally challenged and all sorts of diseases. You think all kinds of mistakes, let alone pure premeditated wickedness isn't going to go on with all of this? It is.

She said they will stay on the phone or video conference and look through your phone and social media to see where all you have been. If a restaurant has a positive person, they will just contact by payment activity.

This really isn't voluntary at all. Options for Non-compliance Look at the bottom yellow box: If used Court Order for Involuntary Isolation or Quarantine Initially, then seek an order from the court finding the individual in contempt of court under chapter 7.21 RCW (incarceration and / or fine up to \$2,000 per day). Note: Given potential exposure to others, imprisonment might take the form of electronic monitoring at the quarantine site.

We all thought HIPPA was keeping our health information private. Not according to what we heard last week from NVIC and not according to this video either. They can require you to take medications or vaccines to be treated so that you don't infect others. She found a document that stated that in the guise of a spread of a communicable disease that the police can take control of a person's body or of a corpse. That clears the way for them to take people off to quarantine centers, say they did not recover from covid and that they had to burn the body because this disease is so infectious. Never to be seen again.

They want people to download these apps because they are part of the surveillance system and a way to control us. They will restrict movement based on your health verification through the app.

I did ask Pastor Dalbeer, he is in the Himalayan Mountains , if their government did ask them to download the app. He said yes they did but he has not downloaded it. I know he has been able to still go to the villages and do the work the Lord has called him to do. He isn't getting on a plane or train or going to an office building for work. So it seems they have not completely enforced making people get the app yet in India. And what will they do there for the people who don't have smart phones, who live out in remote villages? Will they just write them off? No proof - no service? No proof no participation in society? Or make them get tested and log it into a database and make them show their biometric data before they can do any transactions. Pastor Erustus said they have not asked them to download any apps yet.

New Zealand gives you a QR code to scan. They are already sending out updates to smart phones even without our knowledge.

Notice how she said the app can tell you that you got too close to someone who had covid-19 and now you need to be quarantined. This is going to cause more division among people. A young man recently told me that it was hard not to participate in the Babylonian holidays because of peer pressure. How many people do you think are going to cave in to all of this because of peer pressure? How many people will cave in and take the mark of the beast so that their lives are not disrupted? We always thought everyone was going to be fighting the system in the end of days as we see the mark of the beast approaching. But that is not what I see, I see people readily accepting all of this nonsense. Already so deceived.

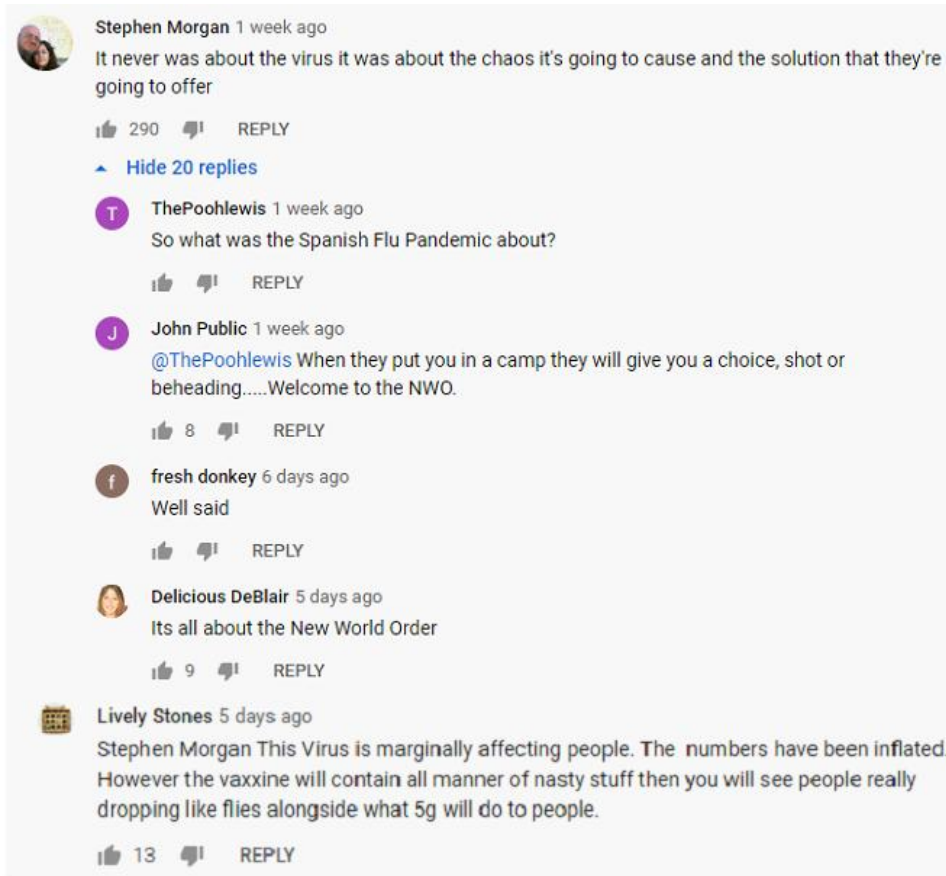

And I see so many still loving our government and not even realizing that our governments are the beast system. They are already working together and no matter where you are in the world, your government is the beast system. They just aren't officially announcing that they are working together and we don't have one person standing on the world stage as the antichrist.

The luciferians can conveniently send a notification saying you need to test or that you are now infected or got too close to someone that had covid. They can use the track-n-trace to shut you up if you are a problem or threat to them. Look at the control they are gaining through all of this. They don't have to have a huge military presence. They are doing pretty well with their apps and mandates. They might come to a point of needing military presence when people are facing the mark of the beast or else having their heads cut off.

Now I want to say something about this video. We are to believe that this woman is an awake citizen to the non sense they are pushing on the world? All through the video she acts skeptical and questioning what they are doing every step of the way. However, she went down and gave them all of her information so that she could be put into their system and work for them. To me that is shady. You aren't going to see me having tea and crumpets with Bill Gates.

This video seems like one of the ones they want us to see.

Thank you so much Ms. Rhonda for sharing that with us.

Stephen Morgan: It never was about the virus it was about the chaos it's going to cause and the solution that they're going to offer.

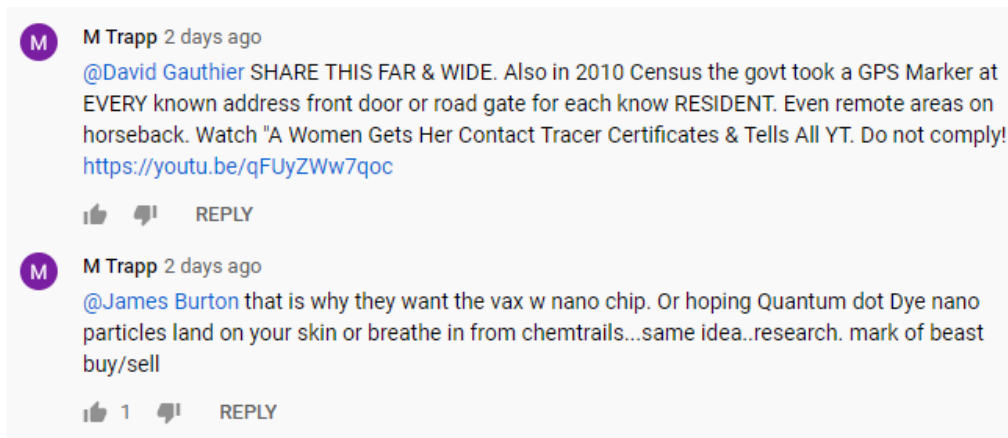

The Poohlewis: So what was the Spanish Flu Pandemic about?

John Public: When they put you in a camp they will give you a choice, shot or beheading..Welcome to the NWO.

Fresh donkey: well said.

Delicious DeBlair: It's all about the New World Order.

Lively Stones: replied to Stephen Morgan: This virus is marginally affecting people. The numbers have been inflated. However the vaxxine will containe all manner of nasty stuff then you will see people really dropping like flies alongside what 5g will do to people.

MTrapp: Also in 2010 Census the govt took a GPS Marker at EVERY known address, front door or road gate for each known RESIDENT. Even remote areas on horseback. / That is why they want the vax w nano chip. Or hoping Quantum dot DYE nano particles land on your skin or breathe in from chemtrails...same idea...research. Mark of beast buy/sell

Praise God there are some that are watching this whole thing closely and aware of where the mark of the beast is going to come from.

Rich Makarski: I see a lot of Contact Tracers being hospitalized for blunt force trauma.

Derek Redgate: Anyone tries to test me or vaccinate me forcefully I'm going to treat it as the attack on my person that it is and will respond in kind.

*Please play from 1:35 to 3:07 CBS Los Angeles News Dec. 10th: Contact tracing app rolls out in California. I phones will send exposure notifications if you have the app on your phone. Android phones, you can download the app from the google play store. They use Bluetooth signals to determine who is near you and to notify you. Of course they claim they are not sending your information to the government. They just want you to download the app. *(about 1.5 min's)

We haven't seen the last of these apps. That news report was very recent, the 10th of December. So they have not finished the roll out or the push for people to use these apps. They usually don't spend a lot of money just to let it go.

Please play from 0 to 5:50 From May 27, 2020: This video talks about the tracing apps that are being deployed. The first screen shot says, "Chinese city plans to turn coronavirus app into permanent health tracker." A city in China is planning to monitor and rank its citizens by healthiness with an app. This will become permanent. Talks about how a tracking app (digital health passport) was already developed in Europe by April 3rd when Europe only went on lockdown in the Middle of March. Questions how did they have a software rollout of this app that fast? Seems to be preplanned for sure. They are going to use this digital health passport as a requirement for people to be able to attend events – the video showed football as the example. The covipass app is working with Vcode technology. It is going to incorporate all of your information into this app: your passport, health info., payment records, car registrations, payment info., websites, videos, documents and more. It holds events you've been to, websites you've visited, photos, social media links. It holds your work details, crypto wallet if you hold crypto currency, education details – EVERYTHING ABOUT YOU. This is going to the governments. We should not be giving up our civil liberties for "safety."(about 6 min's)

Thank you Monica C. for sharing this with us.

Look how fast they had that software for that app developed. Here in America we went on the first lockdown mid March and they had that app ready to go on April 3rd. That is consistent with the fact that this whole thing was planned.

Remember last week we saw the lady in China showing the QR codes that are placed outside of shops to show the health data. These technologies are coming into play more and more. They will be using these apps more and more to track our health and control which businesses are allowed to open as well.

Covi-Pass: Secure, Universal, Trusted. Covi-Pass is a permission-based digital health wallet (remember how we talked about ID 2020 and that they want everyone to have a digital identity) that is built on decentralized technology to provide full end to end global Covid-19 solutions. Arguably the world's most secure digital health wallet, built to verify and authenticate health credentials, fully compliant with global data and privacy standards. (This lingo is there to help you believe in this technology.) Covi-Pass gives everyone the ability and peace of mind to return to work, life and travel.

Covi-Pass is a global full solution provider of gold standard Covid-19 test assays, point of care analysers and digital health wallets.

The diagram shows: a cell phone with a Health Certificate screen that has a qr code that is scannable so others can verify your health status. Notice on the circle at the top it says "self sovereign identity." There is only One Who is Sovereign and that is God alone. It shows a lock saying that you will have a cryptographic signature and to give you confidence in how safe and secure it is they show the

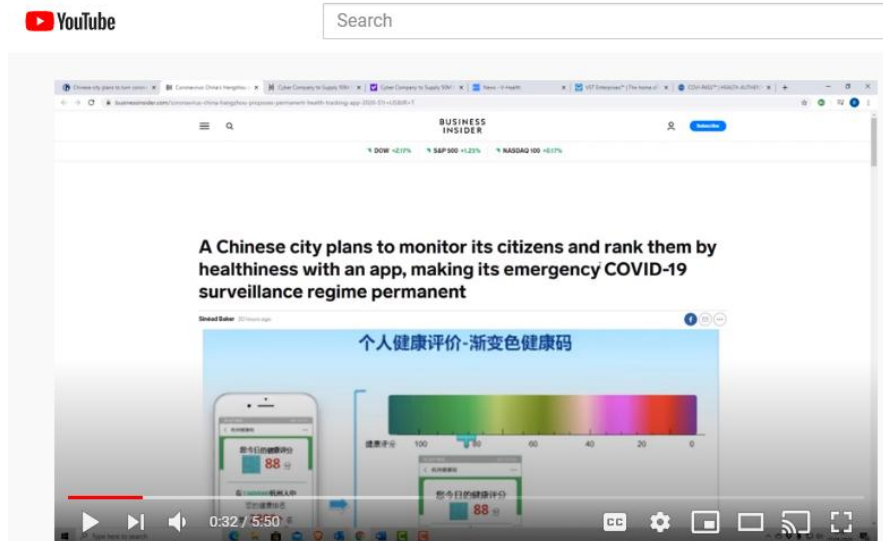

digital security seal and it shows that there are many servers because of course it is decentralized. No, this is not controlled by one entity but by many.

Where might Covi-Pass be used? Covi-Pass is a solution that can help where test results might be a prerequisite for an activity. Travel, work and stadiums are such examples.

The covi-pass app works with Vcode. Current status: Negative and it is shown in green. The basic information that they display on this screen shot are: Name, sex, d.o.b., hair color, eye color and language. They always want you to think your information and privacy are secure. They are not. They are already tracking our movements even without these particular apps. SMART technology allows them to track you. Period.

Back to the video we just watched: A Chinese city plans to monitor its citizens and rank them by healthiness with an app, making its emergency COVID-19 surveillance regime permanent.

CLOSING

They want all of your information online including your immediate health vitals. They want access to everything for total control right down to your thoughts. They told us in the book "1984." At some point Christians should start to understand that the government is the beast system. And the governments are working together already. They are the ones that pass the laws that govern the land. Remember the Bible says satan is the god of this world. They serve him. No one gets to the top leadership positions without having bowed to him.

The government is in covenant with the medical industry, banking, military, mega corporations, actors and actresses, sports stars and mega apostate churches. It is the top layers, those at the top are all placed there strategically, in an alliance together and the media is just satan's mouth piece. There are regular citizens working in the lower levels that are not in on the bigger plan but at the top layers you will find the illuminati bloodline families and those that have sworn allegiance to lucifer already.

Their plan was to cover all the bases with those that would stick to the plan and stay loyal to lucifer. Think about how the Wal-Marts came in and took out their competition. Look at Amazon, Google, Microsoft, Apple, Samsung, Bluetooth,

GPS, the Banks, and all chain conglomerates and notice how they have taken the little guys out. Not to mention the big tech and energy companies who play such a key role in the lockdown and torture system.

Those at the top are the bloodline families, that's why all of our presidents are related. They are the world leaders in government positions, they are the illuminati, Jesuits, freemasons, secret societies all the way down to witches. They have their ranking order of who answers to who.

Prov.4:14-17 - Enter not into the path of the wicked (do not set foot on the path of the wicked), and go not in the way of evil *men* (*don't do as the wicked do*). Avoid it, pass not by it, turn from it, and pass away (Don't even think about it, don't go that way. Turn away and keep moving). For they sleep not, except they have done mischief (For they cannot rest until they do evil ; and their sleep is taken away, unless they cause *some* to fall (unless they cause someone to stumble). For they eat the bread of wickedness, and drink the wine of violence.

These people have been planning for this time for hundreds and even thousands of years. They have held their secret meetings. They have killed those that got in their way and ruined the lives of others. These people thrive off of wickedness. Remember the interview with George Soros and how he smiled and laughed about taking nations down and ruining economies just because he could. It is a game to them. They are all in bed together and God will repay them for what they have done and are doing.

Romans 12:12 - Rejoicing in hope; patient in tribulation; continuing instant in prayer;

Never discount the power of prayer. God answers prayer and prayer is powerful. Jesus told us to Watch and Pray. Even though this type of information can be unsettling, remember God said from the beginning of the Bible through to the end, not to fear because HE is with us.
