

CORONAVIRUS –Pt 32: TESTS, THE NUMBERS, SURVIVING CORONA

We will continue to do this ministry as long as we can. We are having a lot of interference and spiritual attacks. Our youtube channel is suppressed and shadow banned. I believe they are even messing with our website which we pay for. Censorship is getting worse every day.

The coronavirus will come and go. But the government will NEVER forget how easy it was to take control of your life. To control every sporting event, classroom, restaurant table, and church pew. And even if you are allowed to leave your house. *Only one correction to add, it doesn't look like the coronavirus is leaving any time soon.*

TESTS

Early on during this plandemic, Magufuli, President of Tanzania, questioned the test kits received from China. Some comments online say that he has a degree in chemistry. So they tested all sorts of things like a goat, motor oil, a bird, a pawpaw fruit etc. He said they tested a wide variety of things. They did the testing properly so as not to contaminate the specimens. They gave each specimen a name, some male and some female and assigned an age to it. They wanted to prove the validity of the covid tests. Some things came back inconclusive like the motor oil and a rabbit.

Some of the things that tested positive are: the pawpaw fruit, a goat, a kware (quarie) bird. He said that when you see this, then you have to question if the workers in the lab were bought with money or not educated. He said he knew they were educated because other diseases are handled there. He made a case that if they want to stand by these tests then the scientists haven't done the proper research if a goat, a pawpaw fruit, a durian fruit has coronavirus too. So he says surely then there are people who have been told they have coronavirus who don't truly have it. He said the pawpaw fruit is just there, it's not dead, it is

getting ripe. He said the goat isn't dead and the durian is also just there ripening like the pawpaw. He told his country not to worry. He said if you are not tired or injured in any way, don't worry because the flu has always been around and this is just a little more advanced. He says, this will pass too. He said we should not put fear on each other and that politicians should quit using this as an agenda. He said why didn't they do trials in the beginning to test these test kits?

There is little to no evidence that domestic **animals are** easily infected with SARS-CoV-2 under **natural** conditions and no evidence to date that they transmit the virus to people. The primary mode of transmission of **COVID-19** in humans is person-to-person spread.

[SARS-CoV-2 in animals | American Veterinary Medical ...](#)

There is little to no evidence that domestic animals are easily infected with SARS-COV-2 under natural conditions and no evidence to date that they transmit the virus to people. The primary mode of transmission of Covid-19 in humans is person-to-person spread.

One news report I listened to said that at one point Spain, The Netherlands, India and Turkey apparently were also questioning the tests. They were all saying the Chinese testing kits were faulty.

I do believe the president of Tanzania was playing the role that he was told to play. And he was playing more of a truth role about the whole thing. However, they are steam rolling right ahead. The World Health Organization even responded to his questioning of the tests and of course did not address the fact of why animals and fruit were testing positive for coronavirus. They just did their political speech and said he could talk to them about it. That is not a valid response at all. Yet the agenda continues. What they have shown through this example is that no one can question it.

A theragripper is about the size of a speck of dust. This swab contains dozens of the tiny devices.

When an open theragripper, left, is exposed to internal body temperatures, it closes on the intestinal wall. In the gripper's center is a space for a small dose of a drug.

Left: A theragripper is about the size of a speck of dust. This swab contains dozens of the tiny devices. Right: When an open theragripper, left, is exposed to internal body temperatures, it closes on the intestinal wall. In the gripper's center is a space for a small dose of a drug. The smart dust on the right is what is on the q-tip on the left. If that is on the q-tips that go deep up inside the nasal cavity, those things are going straight into the brain.

Inspired by a parasitic worm that digs its sharp teeth into its host's intestines, Johns Hopkins researchers have designed tiny, star-shaped microdevices that can latch onto intestinal mucosa and release drugs into the body. They say they are temperature driven and not driven by batteries or frequencies. Looks like a type of nano technology to me.

Some are speculating that these are on the test swabs and actually infecting people with covid. Remember we are at war here because all of this has been planned. This is smart dust. Remember all of the SMART technology has been designed to work together and to work against us. They are going to "smart" as far as hurt us in the end.

Creag said: Govt's could easily use this tech to vac their vaccine-hesitant citizens by stealth via a PCR swab.

Tyrone Holder said: Lol I'm sure they thought about that, this is already in play.

One sight suggested that these test swabs are the easiest way to deliver nose to brain technology. Think about the nanotechnology that gets in the bloodstream and attaches to the neurons and begins to work to take you over and take you down.

Thank you Ms. Tommie for sharing about the theragrippers with us.

I know people who have taken the test and were found negative: DaeJonay, Scott's dad and Jessica's mom and step-dad. So I do know that not everyone is testing positive and they did not turn around and get sick either.

*Please play this video - A respiratory therapist blows the whistle on this planned pandemic. He shows how they have plenty of respirators, there is no shortage. He talks about how they don't have anyone there with coronavirus. Tests are taking 3 to 5 weeks to get them back. He said anyone coming in with any kind of breathing problems at all they are saying they have covid. Anyone that dies from other complications, example, heart attack and has covid, they are saying they passed away from covid. THAT IS HOW THEY ARE BOOSTING THE NUMBERS UP. He talked about their scare tactics. Showing bodies being loaded into a tractor trailer is just to scare people. He says that never happens. He says they are wearing their equipment over and over and keeping it in a bag when not wearing it and that it is just getting contaminated over and over and still no one at the hospital has coronavirus. He says there is no test to test for a virus. He explains that they are testing for an RNA sequence from a reaction to the virus. They are putting it (the culture from the person/patient) in a pcr, it's a pcr test which means it amplifies it so that if there's any little (microscopic) even one little shred of that RNA sequence from a damaged cell in your lungs or in your nasal passage, you're gonna test positive. That can come from cancer, that can come from radiation, it can come from several things. And then you hear all of this talk on the news about antibody therapy and all this other kind of stuff, people wanting to donate plasma and everything else. But they're not talking about the virus..He did point out that this isn't just about Trump because it is worldwide. He said it was an illuminati agenda. He mentioned why do we have car manufacturers making respirators when the hospitals still have plenty of unused respirators. He

was going to mention something about the vaccine and was cut off – video stopped.*(about 13 min's)

<https://www.youtube.com/watch?v=ryx27uJj7xE>

This video was back at the beginning of the lockdown when they were saying they didn't have enough respirators. He is showing that they had plenty of them because elective surgeries were being cancelled. **THERE IS NO TEST FOR A VIRUS.** Hmmmm Tony was saying the same thing. We know that this coronavirus is supposed to be like a cold or the flu and he said you cannot vaccinate yourself for a sinus infection. You cannot vaccinate for this. Also, making the nurses wear their PPE (personal protective equipment) over and over seems like a tactic they actually wanted to happen so that they might actually contract something.

I really think this guy nailed it and put so much truth out. He might be a shill because he said he's been a respiratory nurse for 21 years which adding it forward and backward equals 33. That isn't enough to go on but the video ending abruptly where he starts to talk about the vaccines, that at that time were coming, makes me wonder. Did the phone run out of charge? I still think the information was good.

They have certainly scared a lot of people that are not awake into going and getting tested. That helps to keep the fear going because you can take pictures of all of that and you can drive the statistics any way you want them to go. I am not even going to try and disprove their astronomical numbers because it has taken me so long to get to this part that we now see that they are saying whatever numbers they want to. It doesn't matter how much research we do and how much we prove they're lying about the numbers, they just go right on boosting them up.

If you are in a situation and you have to get tested, don't be scared. This is where you have to just trust Jesus to protect you. My brother had to have a surgery to reattach his ligament or bicept muscle to the bone and of course they tested him for covid. I'm sure Simone had to take a covid test before her surgery. Yolindie had to be tested also.

*Please play from 1:13 to 4:39 and from 6:09 to 7:52 Dr. Kettner, professor of Community Health Sciences and Surgery at Manitoba University, Former Chief Public Health Officer for Manitoba province and Medical Director of the

International Center for Infectious Diseases was on a radio talk show. He was saying he's never seen anything like this in 30 years of public health medicine. He says he's seen a pandemic, one every year, it's called the flu and he's never seen this type of reaction. He was stating how the whole thing is not that serious. He said he was concerned about the social distancing and wasn't even sure it had been proven to solve anything. The Director General of the WHO, he said it was a grave threat and public health enemy number one. He was worried about people losing their jobs, being scared of public interaction, scared in general etc. At the end when he started bringing up the statistics they quickly cut him off.*(about 5 min's)

<https://www.youtube.com/watch?v=yWVOZYKB3hA>

One Dr. on that radio show said that the flu season lasts until May. That same dr. said that the Public Health Agency of Canada wants dr's to vaccinate 80% of the people for flu and pneumonia. Dr. Tent's office told me it is from October through March but that the CDC keeps extending it. Vaccines are a huge money maker for them. They are poisonous, they are filled with viruses and they are using them to get nanotechnology into us. Notice when he started to bring up the statistics they quickly cut him off. He said at that time 1 per 1000 got covid and 1 per 20,000 dies from it. He was saying it was a lot lower everywhere else.

CLOSING

TESTIMONIES OF SURVIVING CORONAVIRUS

Please play from 20:28 to 22:36 Dr. Jeff's neighbor is 50 years old, a policeman in Wayne County Michigan. The police force he works on was slammed with 200 officers getting it. His neighbor got it and he said for the vast majority of us it was minor symptoms for 3 to 5 days. 3-5 days of cold and flu like symptoms: achiness, headaches, loss of taste and smell and then that was it. The two people in his department that passed away, in their 50's and 60's had preexisting health conditions.(about 2 min's)

<https://www.youtube.com/watch?v=9NT3ghprjMM>

Ms. Patricia, from our prayer team is a nurse and was placed on a coronavirus only floor and eventually she tested positive. She survived. I have family that are older and they survived. They said it was like having the cold or the flu. Most of the people that have passed away from this had co-morbidities or other health conditions that had already weakened their immune system.

GOD KNOWS EXACTLY WHEN HE IS GOING TO CALL YOU HOME AND HE KNOWS EXACTLY HOW YOU WILL DIE. THEY DON'T GET TO CHANGE HIS PLANS CONCERNING HIS CHILDREN. TRUST HIM.

Let's look at some passages from the book of Job that talk about our lives being in God's hands. Job was being heavily tested by the hand of God.

Job 12:7-10 - But ask now the beasts (animals), and they shall teach thee; and the fowls of the air, and they shall tell thee: Or speak to the earth, and it shall teach thee: and the fishes of the sea shall declare unto thee. Who knoweth not in all these that the hand of the LORD hath wrought this (They all know that my disaster has come from the hand of the Lord)? In whose hand (the Lord's) *is* the soul of every living thing (life of every living thing), and the breath of all mankind.

Job 14:1-5 – Man *that is* born of a woman *is* of few days, and full of trouble. He cometh forth like a flower (springs up like a flower), and is cut down (withers away): he fleeth also as a shadow, and continueth not (Like a passing shadow we quickly disappear). And dost Thou open Thine eyes upon such an one, and bringest me into Judgment with Thee? Who can bring a clean *thing* out of an unclean (Who can bring purity out of an impure person)? not one. Seeing his days *are* determined (You have decided the length of our lives), the number of his months *are* with thee (You know how many months we will live), thou hast appointed his bounds that he cannot pass (we are not given a minute longer);
