

CORONAVIRUS Pt 35: DOCTORS and NURSES SPEAK, HYDROXYCHLOROQUINE, THE NUMBERS

*Please play this video Dr. Ivette Lozano has practiced medicine for about 20 years. She spoke out at a Reopen Texas Rally. She talks about how they are incorrectly reporting the numbers to make the virus seem real and scary. They say things like this: 27,000 positive covid tests. 3000 recovered. 111 dead. But if only 111 died, then truly 23889 must not have needed to recover. ((No symptoms.)) People are being told to go home and quarantine and given no care. She is in Dallas, Texas and was on a live telecast of the Texas Medical Association and they said we need to bring in foreign dr's to treat these patients. She said that was the last time she was on that call. She said how Trump was talking about a successful treatment protocol in France which was hydroxychloroquine. They rejected what Trump talked about. She talks about the benefits of hydroxychloroquine. She was prescribing it to her covid patients and they were getting better within hours and completely better within 1 to 2 days. They told her she could not prescribe it. It is illegal in two states. Her colleagues were scared to use it because they were told the risks were too high, it had not been FDA approved. ((Scare tactics from the government.)) The pharmacist wanted her to tell him what the diagnosis was for her patients, why was she prescribing this medicine? She told him it was patient confidentially and she did not have to tell him. She reminded him of HIPPA. The pharmacy board stated that beginning in early March 2020 that those two prescriptions zithromax and hydroxychloroquine would not be dispensed without a diagnosis. So she told her dr friends that they could just make up diagnosis' like diabetes, hypertension, cholesterol etc. in order to dispense this medication. So Wal-Greens said that for anyone receiving a prescription for hydroxychloroquine they could not come inside but needed to come in through the drive through. She said every post she was making about this drug on social media was being blocked. She asked, where are our politicians that are supposed to be our freedom fighters. She encouraged

the people to get out and do things like shop, get their hair cut, go to a restaurant etc. She said our immune systems are improved through things like sunlight and gatherings with other people because it boosts our mood. (about 13.5 min's)

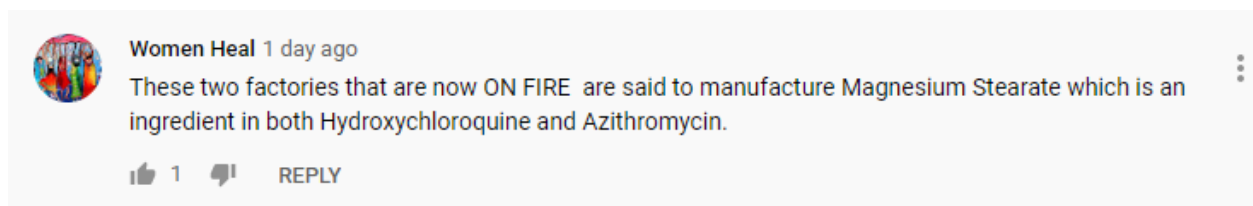

https://www.youtube.com/watch?v=VSnSmPGh1Ac&feature=youtu.be&fbclid=IwAR1ezWAZToPPZ5EvNadFfm-cSAOq9jihywdMxfQVV7BHnJxm58M_QrBI0tM

Dr's and nurses should be getting a wake up call in all of this. At least she admits she makes the big bucks. If this coronavirus is worldwide and dr's are being inundated everywhere, then why would we be trying to bring in foreign doctors at all? Something shady there, maybe so our dr's would be bypassed in the falsification of information.

She may have seemed a little hard-nosed against pharmacists saying their job was to put the pills in the bottle, but the pharmacist should have been wondering why they were given such crazy mandates and pushed back as well. Especially for a drug that's been out that long.

I'm not all about the drugs because I know for the most part they are so harmful to us and we didn't realize it because we believed the ones with the education and degrees in the field of medicine. Hydroxychloroquine is something that I'm sure Pastor Erustus has taken several times in his life because it is used to treat malaria. He and his family have wrestled with bouts of malaria over the years. There are some things that do help us.

Comments under the video:

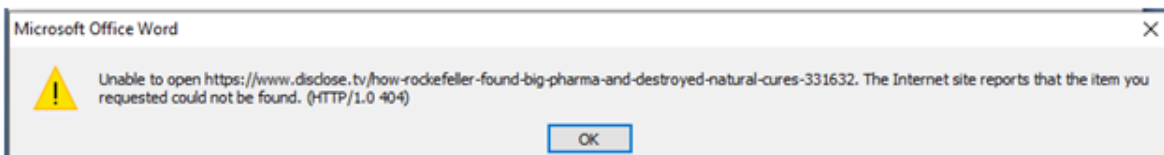

Women Heal: These two factories that are now ON FIRE are said to manufacture Magnesium Stearate which is an ingredient in both Hydroxychloroquine and Azithromycin.

This is so typical of what they do. If there is something that is out on the market that is good for us they quickly ban it, make it illegal and shut it down. She said already in March that hydroxychloroquine was illegal in 2 states.

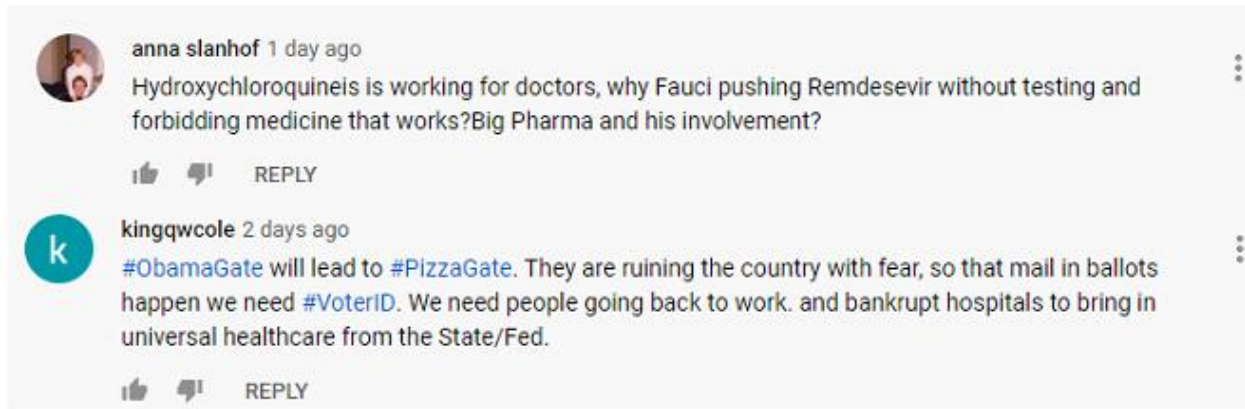

Scott and I were taking this for a while before this plandemic started. It is an ascorbate powder and provides a very high dose of vitamin C. Vitamin C is essential to boosting up your immune system. As soon as we got into the first lockdown this product suddenly became unavailable. It still has not come back on the market. This is what they do to keep us from getting things that can help us. Tony Pantalleresco was the one who awakened me to these little maneuvers. You can find links to Tony's information by the way, on our website. Just click on links and you will see him there.

<https://www.disclose.tv/how-rockefeller-found-big-pharma-and-destroyed-natural-cures-331632>

I had this research in the very beginning. I went to pull it up to begin to work it into the message and it is gone. No surprise there. They are scrubbing the truth off line as fast as they can. The error message I received when I clicked on the link says: Unable to open disclose tv / how Rockefeller found big pharma and

destroyed natural cures. The internet site reports that the item you requested could not be found. They are scrubbing and censoring the truth hard.

Anna Slanhof: Hydroxychloroquine is working for doctors, why Fauci pushing Remdesivir without testing and forbidding medicine that works? Big PHarma and his involvement?

Kingqwcole: #ObamaGate will lead to #PizzaGate. They are ruining the country with fear, so that mail in ballots happen. We need #VoterID. We need people going back to work. And bankrupt hospitals to bring in universal healthcare from the State/Fed.

I'm not sure what they meant at the last there but I can see that. Bankrupting hospitals by cancelling surgeries and laying off staff and whatever they can do to bring in socialist medicine.

Thank you Cory W. for sharing the following video:

*Please play this video. This lady is a nurse practitioner, she is licensed and certified. She has a friend who is an RN (registered nurse) that went to New York City (supposedly hardest hit from the start) to help out. She is reporting what her friend shared to her about what she was seeing in the hospitals. She did say she has other nurse friends in other places and what she is about to share is not going on everywhere. But this account is about what's happening in NY. She said murder is being committed. She said people don't have to stay sick. The patients are being left to rot and die. They are neglected and no one cares anymore. She said it is the blind leading the blind. She and her other nurse friends were talking about helpful medications: Hydroxychloroquine and zithromax and people were not dying on these medications but they were getting better. She said they are

not using these medications. She said they are putting people on nasal cannula. If they require more than 6 liters, they get intubated, they go on the vent, or they get trached. There's not enough vents. They don't get high flow, no non invasive ventilation, no c-pap, no bi-pap. They are on a closed system ventilator, not using c-pap or bi-pap because they are afraid that it will spread the virus. A nurse in Florida was fired for exposing about c-pap and bi-pap – the fact that patients are being put straight on a ventilator. The patients have no one there with them and they are scared and they give consent. These ventilators have high pressure which causes baro pressure – high pressure to the lungs. A dr. spoke out about this and they pulled his video from youtube and then they pulled him from the ICU. They could not have one dr. going against the grain, going against their protocol. The protocol they are using is propofol or some kind of sedation because they are on a ventilator and iv antibiotics. There's no hydroxychloroquine and zithromax. They are not using that combination. They are not using zinc, vitamin C and high doses of Vitamins A & D. They laugh at that. There are people who are a full code (heart stopped) and they are not resuscitating people. They do not want to spread covid so they are not even responding, just letting them die. The nurses are not changing out their ppe (Personal protective equipment). There are some patients that don't have covid but they are going to get it because they are not changing their protective equipment. They are not going into rooms. They are running long tubing so they don't have to go into the rooms. They are not doing rapid results tests. They are lucky if they get results back in 5 days. She said this is a horror movie. She said they need help and yet there are 100's of nurses sitting in hotel rooms waiting to be called on to a shift. Because they are not being called they are under staffed. The money, from the government, is not being managed correctly in the hospitals. The records are not being kept right. People could be saved but that doesn't seem to be the goal. They are having people do things that they can't do. Like do the ventilator that they have not been trained on. They are given that "figure it out mentality." No one is helping anyone and they just have to figure out stuff for themselves. We have nurses who are being celebrated as heroes who are killing people. They are not heroes. There is no family there, not allowed in, and so no one is being held accountable. Critical thinking is out the window and people are scared to speak up. Something is wrong in the system. Go against the grain. Request records immediately. If you want a medication to be given you have to report that it is an at home medication and you demand that it be given. The only reports that we are getting are from the inside and people are

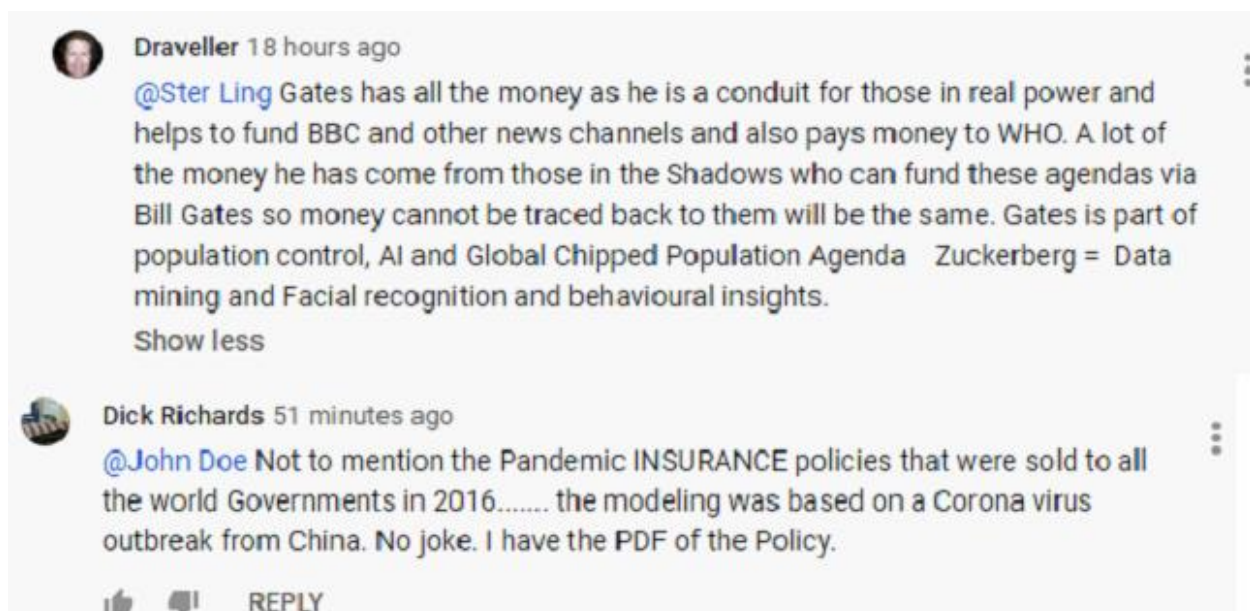

afraid to speak out. People have lost their jobs. Demand non-invasive or less invasive ventilation methods. As soon as you give that consent you might not come out of it. It is being used inappropriately in a lot of cases. (about 10.5 min's)
<https://www.youtube.com/watch?v=9XJ1ojCDLYU&feature=share>

Back up video if the above one isn't there
<https://www.bitchute.com/video/R28j761jfuLz/>

Remember they were being paid \$ 39,000 for hooking up a covid patient to a ventilator.

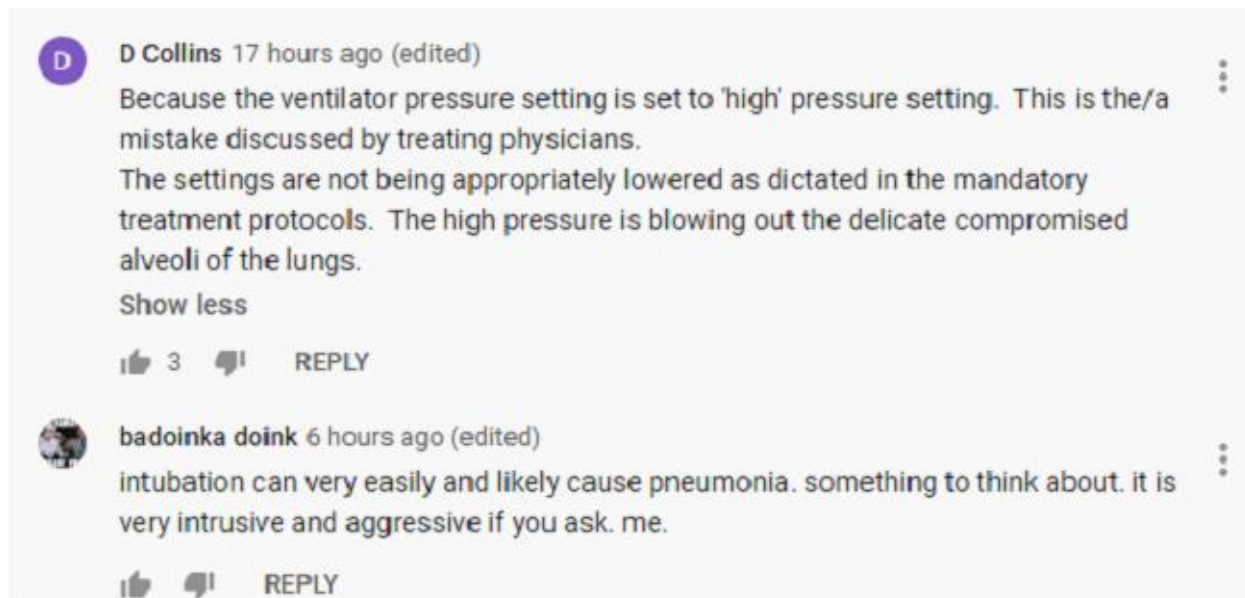

She was talking about the same drugs that Dr. Lozano was prescribing and being fought every inch of the way. Dr. Jensen has also brought out the facts about Hydrochloroquine. She said there are dr's all around the world sounding the alarms. They know what drugs work and the path of physiology of the disease. This is what's happening. And for some reason it's not changing even though we know, some of us know what's going on, nothing is changing on the front lines.

I believe there were nurses there waiting for work because nurses were being laid off like crazy before the plandemic.

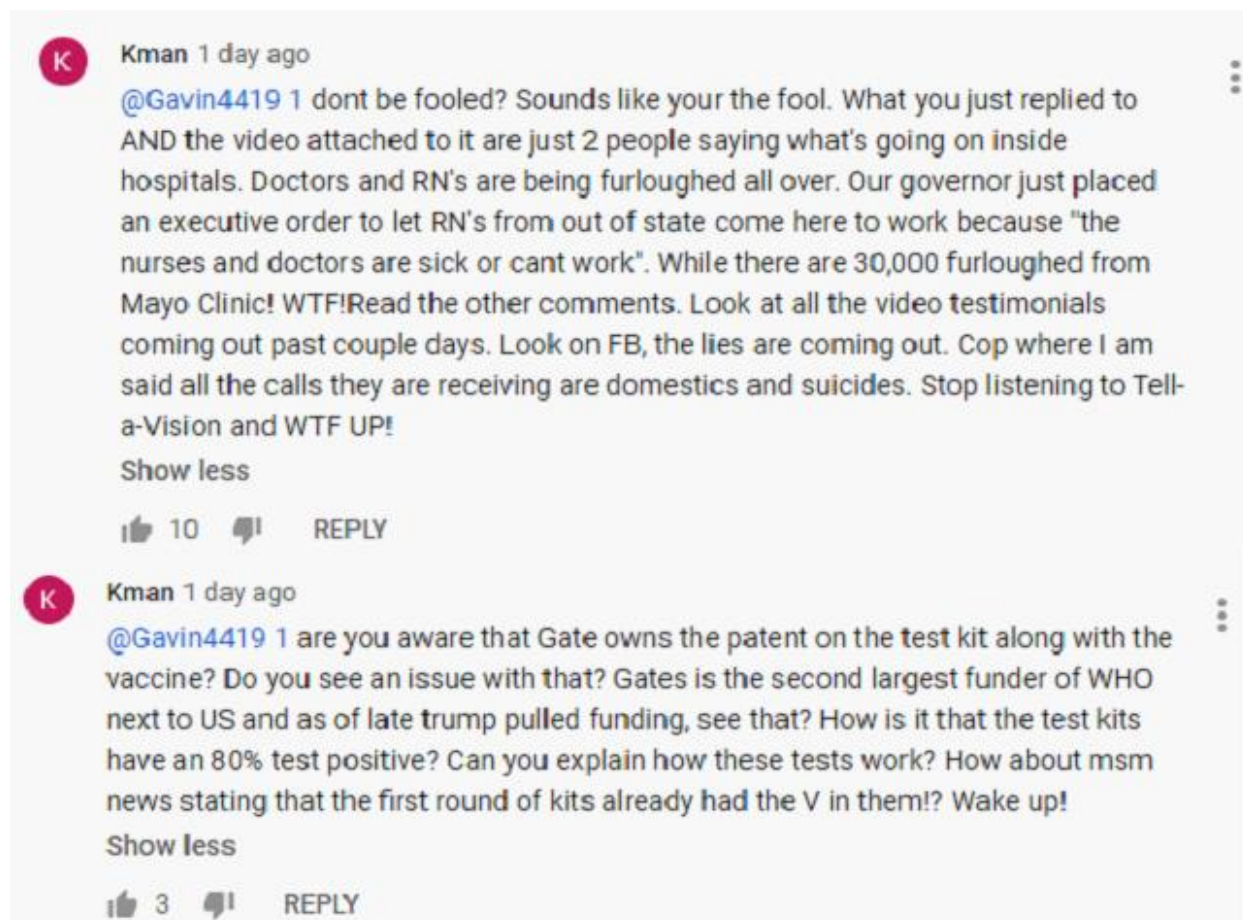

Draveller: Gates has all the money as he is a conduit for those in real power and helps to fund BBC and other news channels and also pays money to WHO (World Health Organization). A lot of the money he has, comes from those in the Shadows who can fund these agendas via Bill Gates. So money cannot be traced back to them, will be the same. Gates is part of population control, a.i. and global chipped population agenda. Zuckerberg = data mining and facial recognition and behavioral insights.

Dick Richards: Not to mention Pandemic Insurance policies that were sold to all the world Governments in 2016...the modeling was based on a Corona virus outbreak from China. No joke. I have the PDF of the Policy.

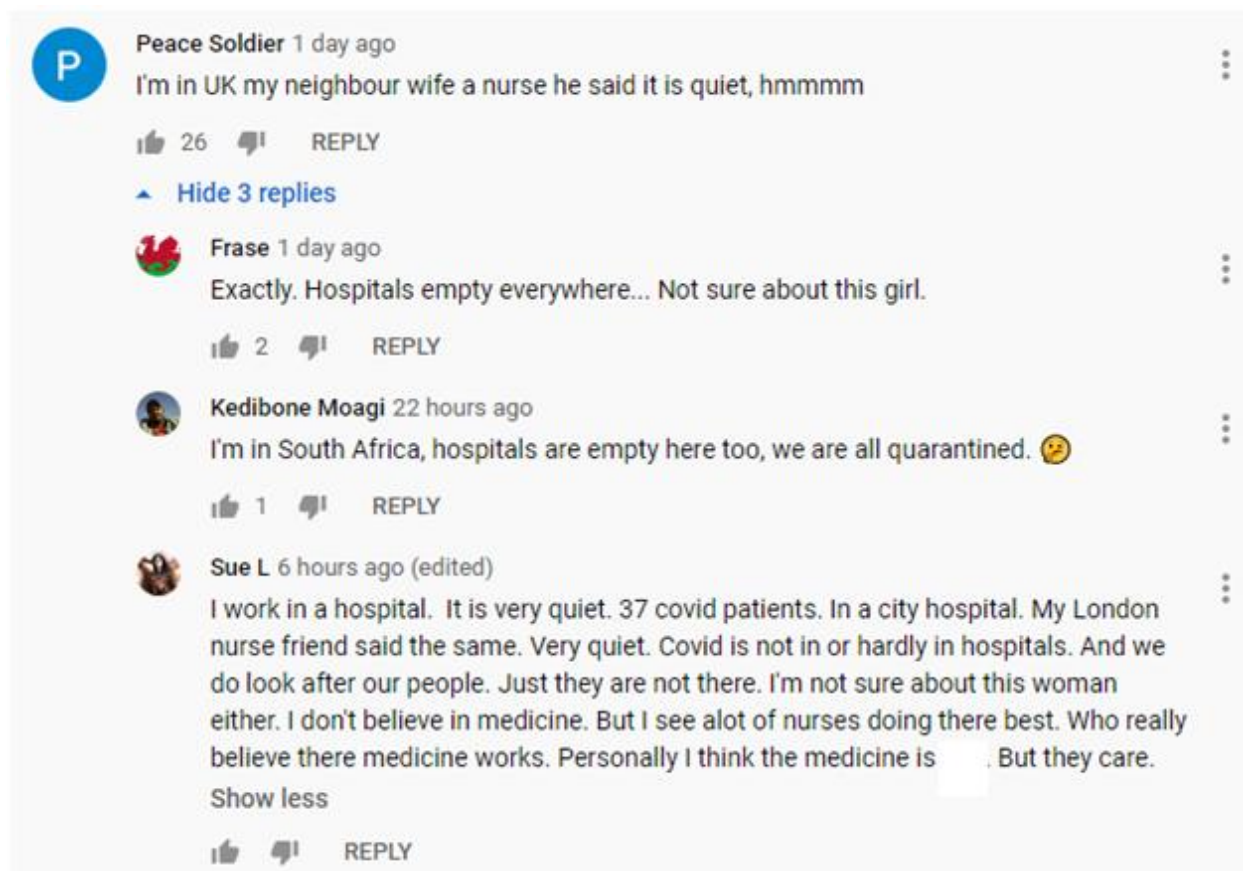

D Collins: Because the ventilator pressure setting is set to 'high' pressure setting. This is the/a mistake discussed by treating physicians. The settings are not being appropriately lowered as dictated in the mandatory treatment protocols. The high pressure is blowing outn the delicate compromised alveoli of the lungs.

Badoinka Doink: intubation can very easily and likely cause pneumonia. Something to think about. It is very intrusive and aggressive if you ask me.

Kman: They are arguing with someone here. Doctors and RN's are being furloughed all over. Our governor just placed an executive order to let rn's from out of state come here to work because "the nurses and doctor are sick or can't work." While there are 30,000 furloughed from Mayo Clinic! Read the other comments. Look at all the video testimonials coming out the past couple days. Look on FB, the lies are coming out. Cop where I am, said all the calls they are receiving are domestics and suicides. Stop listening to Tell-a-vision. Wake Up! Sounds like they were in NY.

Are you aware that Gates owns the patent on the test kit along with the vaccine? Do you see an issue with that? Gates is the second largest funder of WHO (World Health Organization) next to U.S. and as of late Trump pulled funding, see that? How is it that the test kits have an 80% test positive? Can you explain how these tests work? How about MSM (main stream media) news stating that the first round of kits already had the virus in them!? Wake Up!

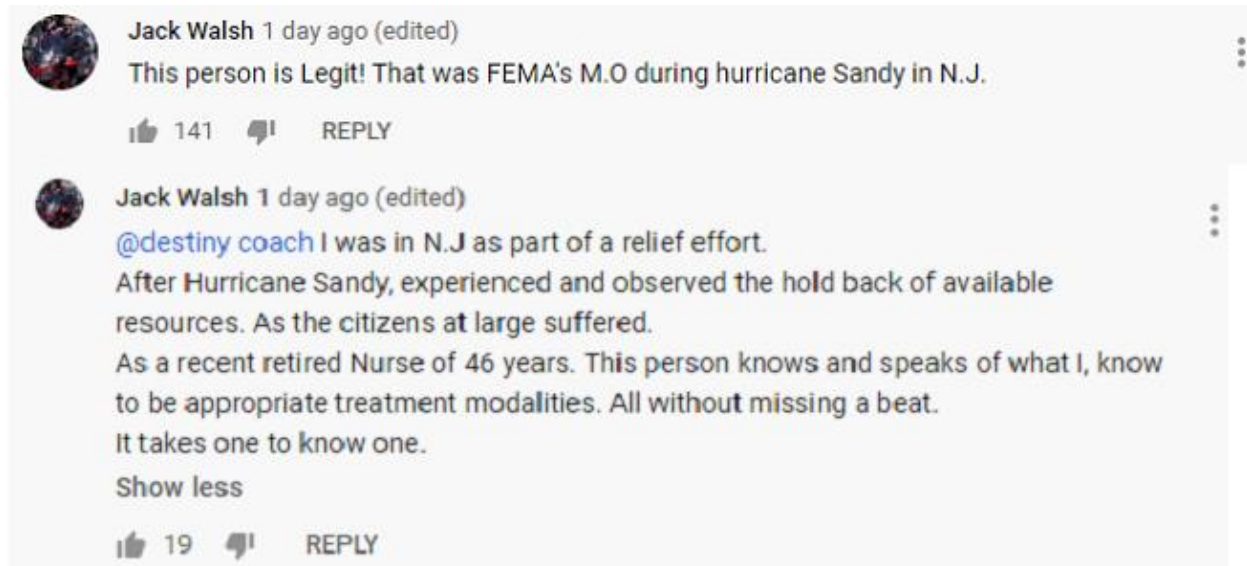

Peace Soldier: I'm in the UK my neighbor's wife is a nurse and he said it is quiet, hmmm

Frase: Exactly. Hospitals empty everywhere...Not sure about this girl.

Kedibone Moagi: I'm in South Africa, hospitals are empty here too, we are all quarantined.

Sue: I work in a hospital. It is very quiet. 37 covid patients. In a city hospital. My London nurse friend said the same. Very quiet. Covid is not in or hardly in hospitals. And we do look after our people. Just they are not there. I'm not sure

about this woman either. I don't believe in medicine. But I see a lot of nurses doing their best. Who really believe their medicine works. Personally I think medicine is (blank). But they care.

Jack Walsh: This person is legit! That was FEMA's m.o. during hurricane Sandy in N.J. I was in NJ as part of a relief effort. After Hurricane Sandy, experienced and observed the hold back of available resources. As the citizens at large suffered. As a recent retired nurse of 46 years. This person knows and speaks of what I know to be appropriate treatment modalities. All without missing a beat. It takes one to know one.

Corinne Shepard: FBI raided a doctors company in Shelby Township Michigan..Allure is the company. He was giving vitamin C injections for free to people...smh..in disgust...I live in Michigan. Things are getting out of hand here..

That is true, I looked into that. Vitamin C is a huge immune booster.

Jeana V: I know, it's stunning how they'll deny something that has been proven to work. (cutting in on profits, I wonder) Australia 60 minutes ran a story of a man that the doctors were going to pull the plug on. Vitamin C saved him. They now this too. **Tony has shared many times the benefits of high doses vitamin in ascorbate form.**

Kathryn Pearse: The big city hospitals have Wigig in the particular ICU room. Also they are using ventilators because they are WIRELESS. With a wireless device on your face, you are going to have oxygen depletion, any wireless, Bluetooth, I pods, etc. DO NOT USE.

She is getting at the 5g 60 ghz and beyond here.

The image shows a screenshot of a social media comment thread. At the top is a comment from Mary Wells, followed by three replies from Dawn Mann, J SHiLLkiller, and Jane c. Each comment includes a profile picture, name, timestamp, text, and interaction icons (likes, dislikes, and a reply button).

Mary Wells 1 day ago
I wonder if some of the healthcare workers are being replaced with actors? With mandatory face masks and presence of CDC in hospitals, I wonder if real staff members even realize who they're working with and taking orders from.

Mary Wells i wondered this but u are the first ive seen state it..yes a scary thought indeed
7 REPLY

Jane c 1 day ago (edited)
Yes, ive wondered that. Someone with a hazmat suit and mask on could be anybody, who would know. Maybe thats why they are making a big thing on the nrws of all the hospital staff wearing all this garb where you can practically only see their eyes.....

Mary Wells: I wonder if some of the healthcare workers are being replaced with actors? With mandatory face masks and presence of CDC in hospitals, I wonder if real staff members even realize who they're working with and taking orders from.

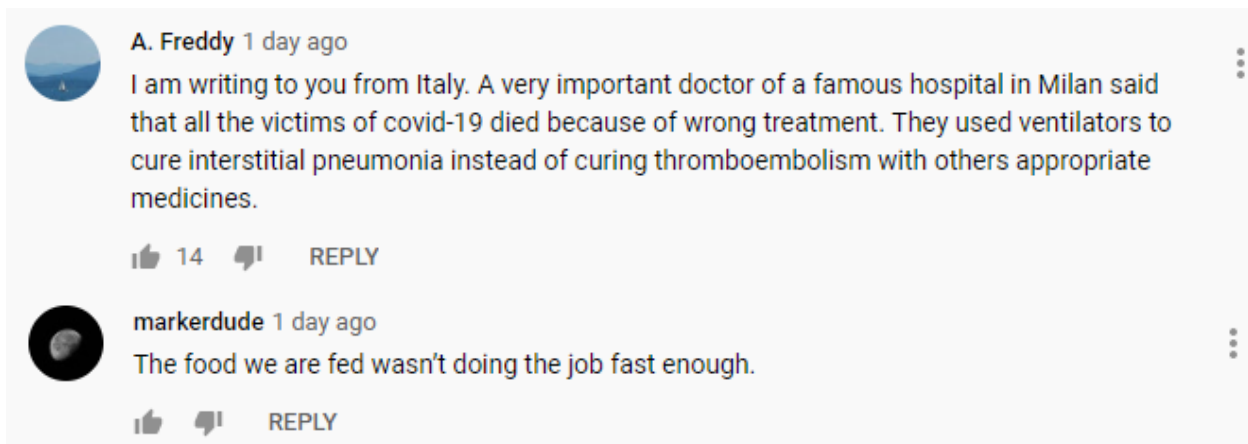

Dawn Mann: FEMA workers

J Shillkiller: Mary Wells I wondered this but you are the first I've seen state it..yes, a scary thought indeed.

Jane C: Yes, I've wondered that. Someone with a hazmat suit and mask on could be anybody, who would know. Maybe that's why they are making a big thing on the news of all the hospital staff wearing all this garb where you can practically only see their eyes...

Now think back to all the dancing nurses and all of the choreographed routines. Do you still think these are real nurses? Look what she said, people were laid off and because the hype was all around NY, then they traveled there to help out and they were just sitting in hotel rooms waiting to be called onto shift. With all the garb they are wearing and new people mixed in, isn't it easy for nefarious people to mix into that whole mess. She said they were not even answering codes and were letting people die, not even going into rooms. If you are a real nurse or a real dr. you should be upset because they brought this right to your door. What a mockery they have made flexing their power and control. I praise God for the dr's and nurses who have stood up and spoken out about all of this.

A. Freddy: I am writing to you from Italy. A very important doctor of a famous hospital in Milan said that all the victims of covid-19 died because of wrong treatment. They used ventilators to cure interstitial pneumonia instead of curing thromboembolism with other appropriate medicines.

Markerdude: The food we are fed wasn't doing the job fast enough.

CLOSING

A few weeks ago I encouraged you not to be worried or scared but to take comfort that if you are truly saved, then you are in the hands of Jesus Christ and you won't accidentally catch covid and die. Your life is in God's hands.

Psalm 139:14-18 – I will praise thee; for I am fearfully *and* wonderfully made: marvellous *are* Thy works; and *that* my soul knoweth right well (how well I know it). My substance was not hid from thee, when I was made in secret (You watched me as I was being formed in utter seclusion), *and* curiously wrought in the lowest parts of the earth (when I was woven together in the dark of the womb). Thine eyes did see my substance, yet being unperfect (You saw me before I was born); and in Thy book all *my members* were written, *which* in continuance were fashioned, when *as yet there was* none of them (Every day of my life was recorded in your book. Every moment was laid out before a single day had passed). How precious also are thy thoughts unto me (How precious are your thoughts about me or concerning me), O God! how great is the sum of them! *If* I should count them, they are more in number than the sand: when I awake, I am still with Thee.

God knew you before you were born. He knows those that will come to Him and the ones who will rebel. If you are in His hands then take comfort knowing how much He thinks about you.

Jeremiah 29:11 - For I know the thoughts that I think toward you (the plans I have for you), saith the LORD, thoughts of peace (plans for good), and not of evil, to give you an expected end (to give you hope and a future).

God said this to the nation of Israel but as His children through Christ, how much more do we know He holds the same kind of plans for us as well.

PRAYER
