

EXPOSING THE CORONAVIRUS VACCINES – Pt. 2

Description of the video: In January 2021, Reinetta Senum interviews Dr. Sherri Tenpenny about the covid vaccines. Dr. Sherri Tenpenny is an osteopathic medical dr. She has been in practice since 1985. She was board certified in emergency medicine. The director of a level 2 Trauma center for 12 years. Currently she is working in an integrative medical practice in Cleveland, OH helping people to get off of their pharmaceutical drugs. She attended a National Vaccine 4 day conference in Washington DC in 2000 and then she got interested in problems associated with vaccines. She grew up in a chiropractic family and was never vaccinated. Because her immune system was allowed to operate the way it should by getting measles, mumps etc. and healing naturally she is rarely sick. She has been researching vaccines for 20 years now and says “YOU MUST ASK WHAT’S COMING THROUGH THE NEEDLE.” These vaccines are deadly. A vaccine is a molecule that is injected into your body that generates an antibody. These vaccines will do that but in a DEADLY WAY. The antibodies will be deadly and it will take between 4 mos. and 14 mos. before we see the full ravage of what is going to happen to these people who are vaccinated with these vaccines. Already Dr’s have died from this vaccine. Others have stroked out within 20 minutes of receiving it. Dr. Sherri says we’ve been doing these vaccines for 1 month and already there are over 40,000 vaccine adverse reactions reported to VAERS database. Over 3100 cases of anaphalaxis shock. Over 5000 neurological reactions (headaches, vertigo, can’t feel hands or feet, dizziness, seizures). Less than 1 % of events are even reported. They are offering money to get vaccinated. These vaccines are going to cause autoimmune disorders. We have seen dr’s and nurses dancing on tv. We aren’t going to see the pictures of these vaccine injured people. People are so brainwashed with and by the medical industry that they do what they tell them to do. A nurse was injured and a dr. congratulated her and said he loss the use of his arm for 36 hours when he got his vaccine. WOW. 72 vaccines are approved for use. We have never used messenger rna in a vaccine – ever. We have rna vaccines, but the difference is that in those vaccines the virus is a part of the vaccine, wholly in tact. So when your body generates an antibody it is against the outer coating proteins of that virus. What we’re doing with this

new virus is we are taking a little piece of the virus' genetics, specifically associated with the spike protein. We are injecting that into the body creating a non-neutralizing antibody. Instead of taking that messenger rna and gobbling it up and making it go away. Like when you get a measles vaccine and you get a measles, it gobbles it up and makes it go away. This non-neutralizing antibody creates something called antibody dependent enhancement (ADE) and it allows the little piece of messenger rna to replicate over and over and over again on its own. It creates these little pieces of virus spike proteins inside of our bodies, for our bodies to produce antibodies against. That spike protein has been show in two other specific ways to cause injury. When you create an antibody to that spike protein, it looks like a Y and there are the arms - FAB fragments and the stem - FAC fragments. The FAB fragments are the ones that grab hold of the virus and generally neutralize it. But in this system that the vaccine is delivering, it loosely grabs the virus. When the FAC fragment hooks onto the macrophage that is supposed to kill it and it gets taken inside, the messenger rna gets released and that's where it starts to replicate over and over again. Like having an ON switch with no off button. This whole mechanism is called the TROJAN HORSE mechanism. It allows the virus to get inside of your cells and start to replicate and even get inserted into other parts of your dna. The second mechanism is when you create this antibody, this non-neutralizing antibody to the messenger rna , the stem, the FAC segment to the spike protein can actually go into the lungs and attach to the lung tissue and start developing diffuse aveolar damage. Diffuse injury to the cells inside your lungs where you breathe. The antibody starts to break down your lungs by creating puss and bleeding and damage to your lungs. So as you get the vaccine, the messenger rna, the antibody carries the thing inside the cells through a Trojan horse mechanism. The antibody itself goes and starts to damage lungs. The third and more sinister thing is that spike protein antibody can attack your macrophages. There's two types of macrophages. Macrophages are a type of white blood cell that gobble up the bacteria and viruses in your system that aren't supposed to be there. There're your TH1 pathway, they're your hyper vigilant white blood cells. When you get bacteria in your body all day long from eating, cutting your finger nails, having sex, brushing teeth, going to the bathroom etc. those white blood cells come along and gobble it up and make it go

away. When you get pneumonia or some sort of serious infection, the type 1 macrophages show up at the infection site and they are pro-inflammatory, they start creating cytokines and blowing whistles and start creating all sorts of things to kill off the infection. The type 2 macrophages are anti-inflammatory. So as you start to recover the type 2 macrophages show up and tell the type 1 macrophages to shut up (stop their work now) we're here to clean up the mess. They clean up the dead debris of the tissue, the dead white cells etc. These macrophages work together. Type 1 kill off the infection and Type 2 heals it – they work together. When you have the antibody to the spike protein (the full intents and purposes of these vaccines) that antibody kills your type 2 macrophages. It attaches to them and kills them. When they “sacrificed” the animals that they had tested this on they found: they died of lung inflammation and infection, filled up with type 1 macrophages and ZERO type 2 macrophages. Then they sacrificed the animals that had not been vaccinated but had been infected with the virus they found: that within 2 days of getting sick, without the antibody, without the vaccine – the type 2 macrophages had come in and started cleaning up the mess and started healing it as long as they didn't have the presence of the spike antibody. The presence of a spike antibody will destroy your lungs and shut off your type 2 macrophages. The antibody to the spike protein is going to loosely grab the virus (messenger rna) and drag it into your cell so that this process can go on and on and on. They have been trying to develop a coronavirus vaccine since 2002 and they have tested this on animals and they know how deadly these vaccines are based on what happened to the animals. This is going to accelerate autoimmune disease. There are 36 different coronaviruses in the environment and 7 of them are known to infect humans – they have been around for 60 years. They are not new. Some people will die from the vaccine directly. When the people start getting sick and dying they will just say “it must be a mutant” and more doses and new vaccines will be given then. Pfizer ingredients, unpronounceable and at least one ingredient has never been used before. You can get a synergistic effect when you use more than one ingredient together. They have no idea how these are going to interact. Even within the vaccine trials people were getting side effects so bad they could not work anymore. They are giving the vaccine to people on their deathbed in

nursing homes. In California they are threatening to bring in military to make everyone take the vaccine. They started the vaccine program and have been building it up since at least the 1920's at least. They started giving babies the HepB shot at birth and the autoimmune diseases have just sky rocketed. Now the medical system does algorithm medicine: symptom – pill, symptom – give pill. No thinking and researching and getting to the root of the problem at all. Just prescribing drugs. Dr.'s are supposed to be experts in anatomy, physiology and biochemistry. They threw all of that out the window and now it is all about pharmacology and surgery. She said in medical school they spend maybe a couple of hours on nutrition. They don't care about nutrition at all. They are thinking of forgiving student loans to entice young people to get vaccinated. They have taught the young people that vaccines are safe. They have been indoctrinated. She said that California has a program where renters don't have to pay their rent if they can't afford to during all of this and so when that happens the lease holder of that program is the CDC (centers for disease control). Why on earth would they now be in the business of real estate? She said it seems like leverage to get the people to take the vaccines. Setting it up. Why would the CDC become a landlord? 219 vaccines have been developed just for covid. Before that there were only 200 vaccines in the mix for ALL diseases. Look at the number of brand new ones flooding the market, it overpowers what has been done up to now in vaccines. Wow. She says vaccines are a "religion" – they have been brainwashing us to believe they are SAFE AND EFFECTIVE. The vaccine manufacturers have NO LIABILITY for all the death and injuries they cause. They want to make you chronically sick or kill you. Suicide, homelessness and depression, over doses has sky rocketed through all of this. She requested the vital statistics for the last 3 years. She wanted to look at all the deaths and see what were the causes to do a comparison and they would not give her the data. They just said we don't have it. That was the vital stastics department. A total lie. This lady lives in a small county and she said that 100% of the people who have died from the virus have been in the nursing homes. Anybody who speaks up has been eviscerated. This is a genocidal program. She noted that CHINA has not been vaccinated and yet they are opened back up. They are communist. See. Propaganda has been one of their great weapons all along. They plant the idea

and from there, they get what they want. They use propaganda and fear to control the people. These are communist tactics and Nazi Germany tactics. She talks about the non-sense of the masking. She said they were trying to get people to understand that they were only harming themselves with the masks. The one lady says she is not a Christian but even she has started wondering if this is the mark of the beast. Then she mentions why aren't ministers saying anything about this at all? There's no proof these vaccines are going to stop the virus. One lady got vaccinated and then just a few days later got covid. The CDC's own website showed that at least 80% of the people who wear masks have gotten sick. The one lady said that she noticed in her family the ones who aren't masking were not getting sick.

We have seen dr's and nurses dancing on tv. We aren't going to see the pictures of these vaccine injured people. Some people will die from the vaccine directly. A large number of people are going to get horribly sick and get all kinds of autoimmune diseases 42 days to maybe a year out. I like the one point that Reinette said, she said we don't even have a vaccine for AIDS, Cancer, MERS for SARS and it is staggering. Not only do we have a vaccine for covid-19 in a matter of a few months, we have not only 1 vaccine but SEVERAL! Safe and Effective ..safe and effective... uh huh. Vaccines are a method of mass destruction, of depopulation. They really are taking out the elderly in the nursing homes. China was opened back up and not vaccinated. BUT THEY ARE COMMUNIST and can't do anything anyway.

They are going to continue to find ways to try to force people to take these vaccines.

I praise God for those that are speaking out and letting us know the truth about these vaccines. Please share this with your family and friends.

DR. SHERRI TENPENNY EXPLAINS HOW THE DEPOPULATION COVID VACCINES
WILL START WORKING IN 3-6 MONTHS
