

SATANIC, HAUNTED, CURSED OBJECTS

Today I want to talk about things that we buy and that are in our homes, in our possession. These are things we have spent our money on. All mega corporations are serving satan, they have bowed to him already. Companies that are thriving serve satan for sure. With what I have taught you already, look at their company logos, look at the names of their products, look at who supports them, who invests in them and who they invest in. Look at what they believe and stand for. You will find freemasonry and witchcraft almost every time. The only way you might find a company that isn't sold out to satan is maybe a local mom and pop shop.

Scott does a ton of computer work and his old keyboard finally bit the dust. We use our computers and most of the things we buy until they won't go anymore. That's how to get your money's worth and save money instead of running out and getting the newest thing all the time. Like people that must have the latest I-phone upgrade or a new car every few years. They are getting themselves deeper into debt and aren't being good stewards of what God has blessed them with.

Scott does a good job researching products before he makes a purchase. Because he works late at night on the messages and the area where his home office is set up isn't well lit, he decided he wanted a keyboard that has lighting. He said he doesn't want to have to keep his fingers on the keys all the time and often he just needs to hit one key here and there. So it would be a big help if the keyboard had lighting.

This is the keyboard that he bought. I never even knew they made this kind of thing. It is a gaming keyboard. You can choose what light setting you want it to be on. It can circulate through different colors, or stay on one color or multiple colors etc. Pretty fancy if you ask me. When he showed it to me I immediately saw the dragon.

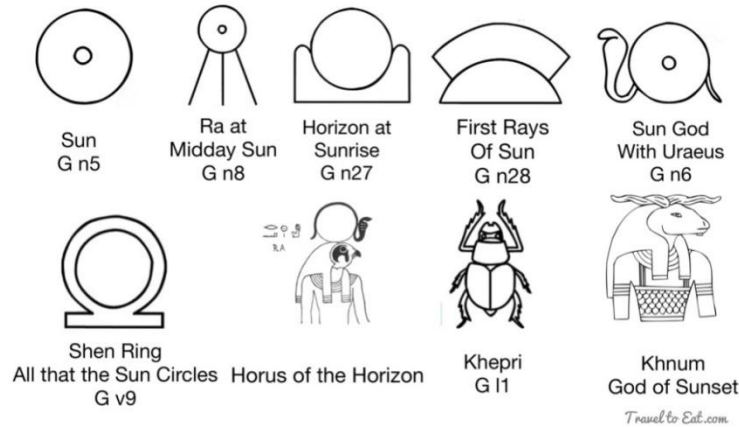

Notice the vicious looking dragon. The company name is Redragon. Look at the 'O', there is a dot in the middle of it. That dot signifies worship of the sun god. Satan is the sun god and the god of the bottomless pit. Their logo is speaking loud and clear to the brotherhood and to those of us who are spiritually awake. The red and black are high illuminati colors as well. Red for anger and blood and sacrifice and black for night, evil and death.

Examples of Sumerian and Egyptian writing

Look on the right, the Egyptian hieroglyph shows one of their symbols for the sun god is the circle with a dot in the middle. Notice what looks like an eye on the left or a sun going down – same thing, a symbol of the sun. Nimrod was a sun god in Egypt, his name was Osiris but the ultimate sun god is satan.

Here is another example of some of the Egyptian symbols for the sun gods they serve. Notice the top row, far left is the circle with the dot in the center. And on the top row, far right is the same symbol with a snake wrapped around it, both are symbols of the sun god, the old serpent, satan.

The circled **dot**, circumpunct, or **circle** with a point at its **centre** is an ancient symbol. It can represent: Solar system. Of interest to **Freemasons** is the description above; As a symbol of the phallus or nature's generative principle and of an Entered Apprentice **Freemason**. Sep 11, 2017

The circled dot, circumpunct, or circle with a point at its center is an ancient symbol. It can represent: Solar system. The first description is of interest to the freemasons; As a symbol of the phallus or nature's generative principle and of an entered apprentice freemason.

Rev.12:7-9 - And there was war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels (or the dragon and his angels fought back), and prevailed not (the dragon was not strong enough); neither was

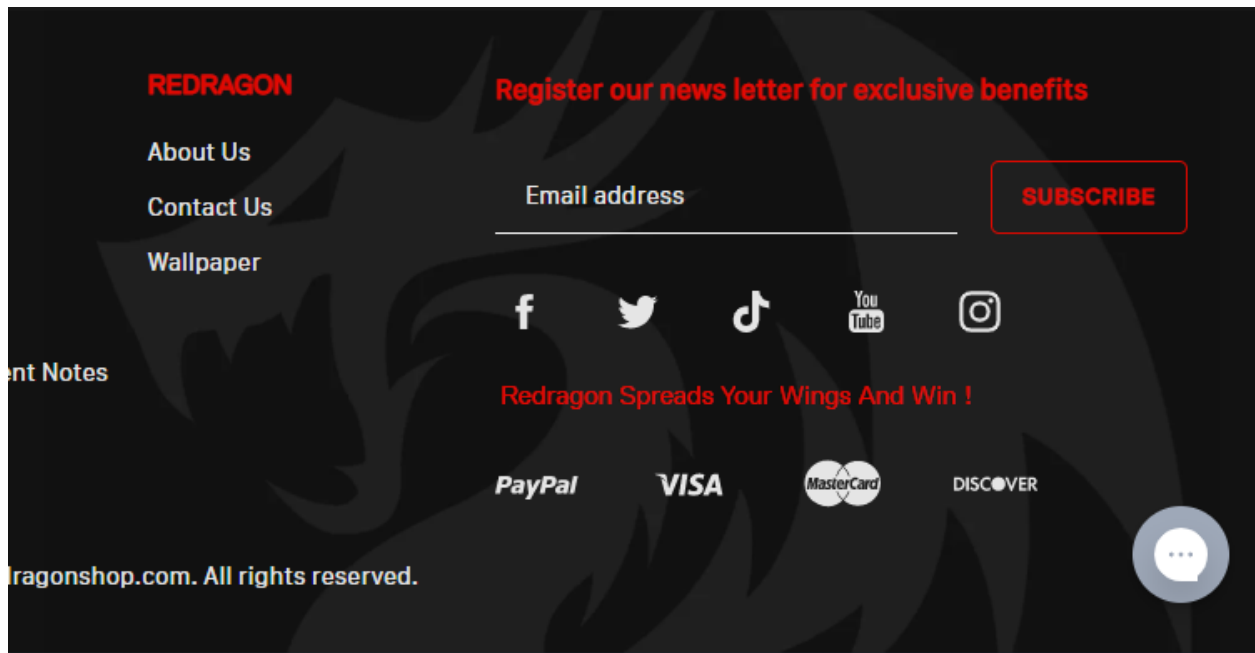

their place found any more in heaven (they were forced out of heaven). And the great dragon was cast out (hurled down), that old serpent, called the devil, and satan, who deceiveth the whole world: he was cast out into the earth (hurled down to the earth), and his angels were cast out with him.

According to the timeline of chapter 12 in the book of Revelation, I believe this is describing a future war. The newer translations say Then there was war in heaven. Usually when you read “then” it indicates next or after something else had first taken place. satan and his angels had already fallen in verse 3 & 4 of Revelation. However, we learn that satan was still entering heaven and accusing us in the book of Job (chapters 1 & 2). At this point he will not be allowed to enter heaven and bring any more accusations.

We know satan is the great dragon who fights against God and all who are holy.

Rev.12:3-4 – And there appeared another wonder (sign) in heaven; and behold a great red dragon, having seven heads and ten horns, and seven crowns upon his (its) heads. And his tail drew (swept away) the third part of the stars of heaven, and did cast (flung) them to the earth; and the dragon stood before the woman who was ready to be delivered (about to give birth), for to devour her child as soon as it was born.

These verses tell us he was a great RED dragon. He held enough influence to convince 1/3 of the angels to go with him against God. This is his world (2 Cor.4:4) and as we look around us we can clearly see this world has been turned over and taken over by him until such a time as Jesus returns for judgement.

See the big lurking dragon in the background. Their product line has items with the following names: draconic, storm, vampire, cobra, Zeus, nirvana, invader, Vishnu, Shiva, Brahma etc. These are demonic, satanic, false gods, fallen angels and wicked things. There can be no doubt who this company serves.

Here are three of the false gods they have named their products after. satan's false trinity in Hinduism.

The name of the particular keyboard that Scott bought was devarajas.

God name "Deva"	Hindu / Puranic / Vedic	Generic name of a god. Hindu / Puranic / Vedic

This is talking about fallen angels. I thought it was interesting about 33 of these devas and they were divided into groups of 11. 11 is one of the prime numbers that freemasons worship in gematria because they say it is the number of intelligence of the sun. See how all of this wickedness ties together.

Here is another thing that entered my home. Scott bought some batteries for our UPS system. I saw this and about fell over with the wickedness that people are seeking and serving. Again you see the red and black illuminati colors.

This is just another name for Nimrod and also represents dagon whom the Philistines worshipped. The trident on his head is his weapon. Notice the sword pointing up toward God and heaven. Like satan with a pitch fork. This trident on his head looks like what we just saw Shiva holding in Hinduism. See how these false gods have different names in different religions and different countries? Same one different name. Scott actually couldn't use this battery and wound up sending it back.

Sigil: A sigil is a unique magic symbol created to express and manifest a desire. These signs originated from Indo-European paganism. They referred to a pictorial signature of a demon or angel. The magician might summon it during ceremonial magic. Pages of such sigils are in the grimoires, magical training books such as

The Lesser Key of Solomon (that is an occult book). The sigils are the real name of the spirits. They give the magician a measure of control over the spiritual beings. In modern times, a sigil is a message to the subconsciousness. It creates an image or a sign that represents the creator's desired outcome. They have a magic design incorporating regular ritual format with other elements of practical magic.

supposedly having the power to avert evil influences or bad luck.
"apotropaic statues"

Apotropaic – supposedly having the power to avert evil influences or bad luck. They give the example of apotropaic statues.

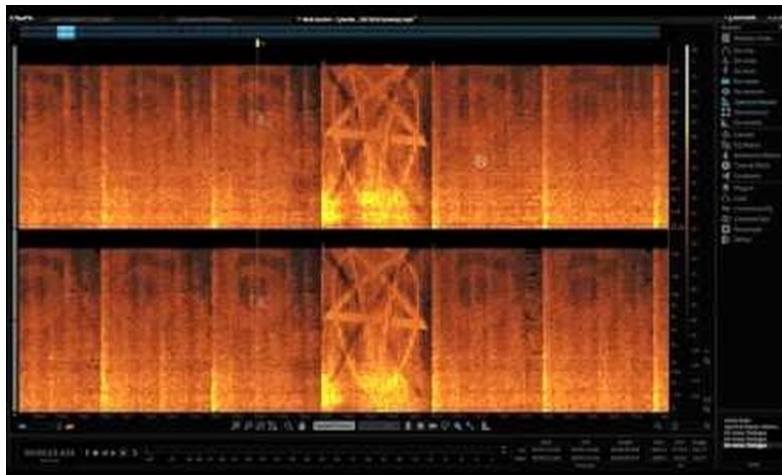

In other research: Apotropaic Marks: Also known as witches' marks. Apotropaic signs that are scratched on buildings or fabrics as prevention from witches. These marks hold the same power as amulets and talismans against the evil eye.

Apotropaic marks were near places where witches enter. For instance, the symbol was in places such as churches and the Tower of London. At times, the double "V" which signifies Virgin Mary – Virgo Virginum – is a protection against spirits.

satanists, occultists, witches believe in and use these type of symbols and sigils in their religion which is witchcraft. This goes all the way to the top of our world governments as they are all luciferians. Our world is filled with their statues, symbols, logos, sigils – priming the atmosphere and bringing in more and more wickedness. satan has a system of worship and as long as they adhere to his system of worship, then he grants them power through fallen angels which are the demons and evil spirits, working with them in their spell casting and witchcraft.

I wanted you to see this because our world is run by luciferians, witches, freemasons, Jesuits and they ascribe to satan's system of worship and they play by his rules. satan is putting his mark on everything.

Remember what John Todd shared about how they hold a satanic ritual over every music album that is produced. They send demons out with each purchase and they lay down demonic chants and messages and pictures or symbols or sigils on the tracks that we cannot hear with the ear.

This is from the soundtrack of a video game called Doom. You can see the pentagram in the circle and layered in behind it is the 'X' for the sun god lucifer. To the right and left of the pentagram there are 6's on the left side there are 3 6's but I'm sure there are more this is just the screen shot. They are doing all sorts of demonic things that we have not even been aware of.

Inside Shadow Mountain Community Church

Here are some luciferic symbols and they work just like sigils. They summon a specific demon. In this case it is lucifer. Left is in Shadow Mountain Community Church and it reads: The entrance of thy words giveth light. R: is the eye of ra – one of the sun gods and that eye and symbolism ultimately stands for lucifer. Who is the one eyed worthless shepherd of Zechariah. (Zech.11:17)

Guess what church this eye is at. You are looking at the stage of Joel Olsteen and Kanye West is providing the entertainment – not worship, because he serves a different god, he serves the same one Joel serves, who is lucifer.

L: David Jeremiah's church notice the eye of lucifer high and lifted up looking out over the church. His church that is. He is being summoned and welcomed into that place. Notice the purple robes, a Godly color in a godless church. R: Jeremiah is throwing up the devil horns to show honor to his god and remind the brotherhood who he truly serves. His name by the way along with what he is doing is satan mocking God. David, like King David's name and Jeremiah, like Jeremiah the prophet's name except this is not a godly man. His god empowers him and his satanic anointing is going out on everyone there.

These corporations that are making the products that we buy are doing the same things. The cashier or stock boy or people that work at these places at the lower levels are probably not aware of anything. But the Founder of the company and those high ranking officers of these corporations know what is going on. The company is dedicated to satan. There is occult meaning behind what they are making, the name of their products, the company logo, the product itself etc.

They hold rituals and curse these products and most everything we buy comes from these type of corporations. Some are more obvious than others. Some products are more obvious than others. They have learned a lot of this from other countries where they go to learn black magic and witchcraft. They go to countries like Africa and India so they can learn and be possessed with more demonic power and to possess more demonic power. They learn how to curse objects and work the demonic spirits or fallen angels. To get satanic anointing on their lives and what they do. This is like when people get souvenirs from a heathen nation and then they begin to get sick. It is because they have bought a cursed item, usually an idol and evil spirits are following it and wreaking havoc on their lives.

Zapp's voodoo potato chips. This product for example is pretty obvious about who the company serves. I don't have to buy voodoo chips. Pretty obvious about

the evil behind this product. Yet people will choose it because the world thinks wickedness is cool.

All of our cars have satanic names. They are names of fallen angels and false gods and goddesses and wicked things. There is nothing we can do about that. We have to have cars to move around in society and go to work and school and get back-n-forth to places.

A spirit can follow an object if it has been summoned to it or if the object represents it. That is what sigils are all about and the witch markings and company logo's and names etc. They are at work honoring their god satan and drawing demons to the things people buy and own.

So please understand that the name redragon and the logo or Neptune and the image on the battery – those represent a demon, a fallen angel and it will be drawn to those items. Those demonic logos, pictures are points of contact for the demons.

Something else that brought this to my mind to teach on this was recently when Scott's dad passed away Scott inherited a grandfather clock. When he brought it home I noticed a carving on it that stood for sun worship. I will share what I did in just a minute.

Be careful about who you receive things from. Pastor Erustus had shared: Any time a person goes to the witches they are always given objects eg charms, objects, bangles, rings, clothing's etc. All this acts as point of contact with demons. Same is happening to some churches to get hold of members. That is why it's important to dedicate all things to God. Praying and anointing them to break the satanic yokes.

I said to Pastor: I feel that in this world we cannot escape their satanic companies that are sold out to satan. Here they make our food and clothes, furniture - everything. So it seems I am asking God to bless demonic things but we have no choice - like our car is called a Nissan - meaning the sun. Nothing I can do about that. But I believe God will bless it because we are His servants and He knows how our world is now. Of course we had prayed over and anointed our car just like we did our home.

Pastor said: Pastor the spiritual world is deeper than we know. But once you pray for the things we buy and dedicate them to God, we are safe.

Pastor shared that we must give. That is why giving is very key in a believer's life. It disconnects what you possess from satan's kingdom. And God takes the authority over your property.

What Pastor shared goes back to Malachi chapter 3. Many do not understand the protections and blessings that God gives for those that give cheerfully, continually and persistently. It shows our worship of Him and brings all that we have under His umbrella of protection.

I had told Pastor that many here don't like to give and he said that the Apostle Paul said the god of this world has blinded them never to see. That is what Pastor shared on this subject.

They make our food too. All major restaurants, fast food chains, grocery stores etc. are dedicated to satan. Unless you grow your own food you may feel you are at their mercy.

1 Tim.4:4 - For every creature of God *is* good (everything God created is good), and nothing to be refused, if it be received with thanksgiving (and nothing is to be rejected if we receive it with thanksgiving):

When we thank God for our food and ask His blessing over it after that we are safe. He loves us and He will protect His children.

CLOSING

Once you are saved you should clean out your home, work place, and belongings of anything that does not please God (Acts 19:19). After that, for the rest of your belongings, remember to anoint your home, property and cars and pray over it if you feel comfortable doing this. Watch the teaching on Anointing Oil which will be in my notes on the church website and in the info box on youtube and bitchute. Pray over all that you have and ask God to bless it, cleanse and sanctify it for your use as you are His child. Plead the blood of Jesus Christ over all that you possess. Cover yourself and your family daily in the blood of Jesus Christ.

I let the Lord know I saw the sun symbolism on the grandfather clock. That we do not worship the sun god or the sun. I bound up and cast off any demonic attachments, curses, spells, hexes, vexes, conjuring, witchcraft in Jesus' name. Then I anointed that grandfather clock in the name of Jesus Christ. I dedicated it to God and asked His blessing over it and that is the same thing I did about that keyboard.

Anoint, pray, plead the blood of Christ and give – very powerful weapons.

This type of warfare is going to help you and your family to get free from satan's bondage. The more we learn and grow spiritually the free-er we get.

Unsaved households have no protection. These sigils and symbols work as summoning points of contact for demons. They can cause havoc such as anger, fighting, keeping the whole family stirred up, adultery, death, sickness, losing jobs, addictions etc. The unbelievers are open prey for satan and his minions and all of these cursed objects work to compound the whole thing.

I will also say that in God's mercy to us there are times He does protect us when we are unaware of these things. But once we learn and our spiritual understanding is opened, then we need to warfare against these things. Put the spirit realm on notice that your home is a Christian home and you are aware of the devil's tactics.
