

MANDELA EFFECT SCRIPTURE CHANGES – Pt 1: CERN, WITCHCRAFT

For anyone that is new to this ministry and you don't know what the Mandela Effect is, I would first go to our website and watch the very first Mandela Effect teaching that I did. The link to that series will be in my sermon notes and in the info. box on Youtube and Bitchute. Remember Youtube pulled part one of that series so the whole teaching is only found on our website. That alone should make you want to watch it because the truth is being censored. I will cover the non-sense that the Mandela Effect is just a bunch of false memories next week.

We are not even going to be able to get into the scripture changes until about part three. I want to lay a firm foundation to show you how this is being done. So let's Look a little deeper into what the Mandela Effect is and the best answer for how it is happening.

In short, it is black magic-witchcraft paired with occult science. These two things being used in conjunction are changing things in our world. Some examples are: names of company's, books, movies, people, lines in movies, commercials and songs etc. There are those that say even land formations are changing. Not sure how you would prove that one so I tend to avoid those. The most important thing that is being changed is the KJV translation of God's Word.

After some years now of watching the luciferians feed information out to us, I can see that this phenomenon is no different. They brought this information to our attention and then everyone ran with the ball. They used the witch, Fiona Broom to bring all of this to our attention. They want us to know the truth and satan gives them more power when they show the truth in plain sight. It is a form of witchcraft.

One of the first things mentioned as causing this effect is CERN. They make no secret about who they serve. They proudly have chosen the number 666 as their logo. They disguised it just a bit for the sleeping ones not to notice. CERN is the name of the world's largest hadron collider where they are pretending to do scientific research. What they are really doing is witchcraft.

Indian government

The statue, symbolizing **Shiva's** cosmic dance of creation and destruction, was **given to CERN** by the Indian government to celebrate the research center's long association with India.

Jun 20, 2004

<https://www.fritjofcapra.net> › shivas-cosmic-dance-at-cern

[Shiva's Cosmic Dance at CERN | Fritjof Capra](#)

The statue, symbolizing Shiva's cosmic dance of creation and destruction, was given to CERN by the Indian government to celebrate the research center's long association with India. Remember CERN has been around since the 50's. This statue proudly sits beside the building.

This statue is proudly standing outside the building at CERN and they are so proud of it that they have lighting to showcase it at night as well.

Research says: As a symbol, Shiva Nataraja is a brilliant invention. It combines in a single image Shiva's roles as creator, preserver, and destroyer of the universe and

conveys the Indian conception of the never-ending cycle of time. Shiva's dance is set within a flaming halo. The god holds in his upper right hand the damaru (hand drum that made the first sounds of creation). His upper left hand holds agni (the fire that will destroy the universe). With his lower right hand, he makes abhaya mudra (the gesture that allays fear). The dwarflike figure being trampled by his right foot represents apasmara purusha (illusion, which leads mankind astray). Shiva's front left hand, pointing to his raised left foot, signifies refuge for the troubled soul. The energy of his dance makes his hair fly to the sides. The symbols imply that, through belief in Shiva, his devotees can achieve salvation. This is a complete mocking of the God of the Bible Who created everything through Jesus Christ.

The Hindu god Shiva, is known as the destroyer and god of chaos. Sounds like satan doesn't it. He is in his "lord of the dance" pose here. He is supposed to be the light bringer to the occult and thus the fire all around the ring and flames coming off of his head.

Remember what we learned a few weeks ago, these apotropaic statues and sigils and logos summon fallen angels / demonic spirits to them. The CERN logo 666, is the number of the beast and it is summoning lucifer himself, as is this statue. This stuff is all over our world. Especially in our governments and their buildings because they are the beast system.

John 10:10 - The thief cometh not, but for to steal, and to kill, and to destroy: I am come that they might have life, and that they might have *it* more abundantly.

Shiva is the destroyer. See how that ties into Scripture.

The Mandela Effect is being used on our world to bring about a desired goal of the luciferians. The luciferians are trying to open gateways or portals to usher in more of the fallen angels into this realm. They are chasing dark matter, anti-matter. Trying to flood our world with the ones they love and serve.

30,000 accelerators

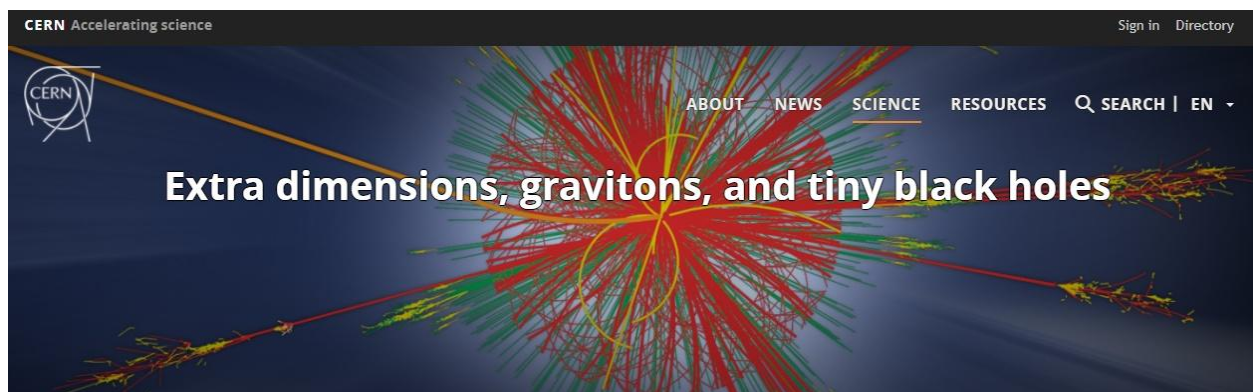

It has been estimated that there are approximately **30,000** accelerators worldwide. Of these, only about 1% are research machines with energies above 1 GeV, while about 44% are for radiotherapy, 41% for ion implantation, 9% for industrial processing and research, and 4% for biomedical and other low-energy research.

https://en.wikipedia.org/wiki/Particle_accelerator

[Particle accelerator - Wikipedia](#)

CERN is not the only LHC (Large Hadron Collider). Look at this, there are 30,000 accelerators worldwide. These things are strategically placed around the world to work together to try and open up gateways for the fallen angels to come in. They may not all be used in the same way but they have enough of them to coordinate their attempts with more than one collider at the same time. And because they are an occult organization, you know they are running them on the equinoxes and at times when they believe they stand a better chance for opening doors for the demonic to come in.

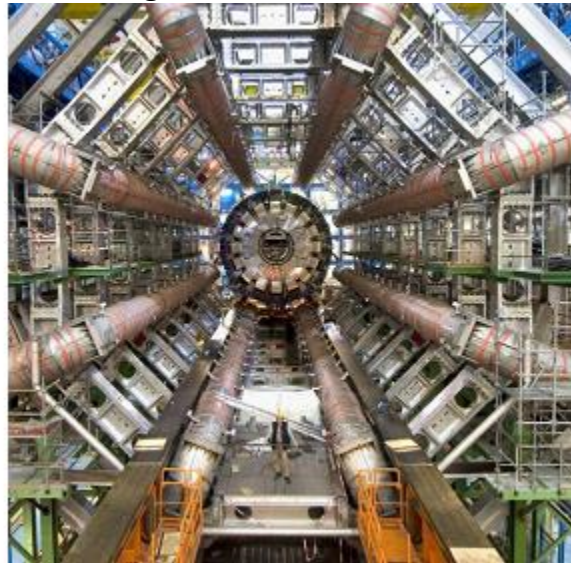

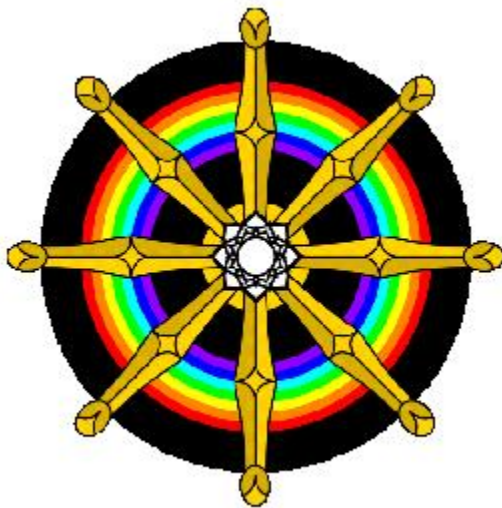

From CERN's website: Extra dimensions, gravitons, and tiny black holes. At the end of this article was the following sentence: Finding more on any of these subjects would open the door to yet unknown possibilities. They are trying to open the door alright.

They have even stated on record they are looking for other dimensions and that a door into another dimension might open up and something might come through or we could send something through.

Housed inside of CERN are occult witchcraft writings in Hebrew, Aramaic, Sanskrit etc. Sanskrit was valued in Tibet as the elegant language of the gods. Remember the fallen angels are called gods, little “g” gods in Scripture. These tablets are like written spells and conjuring – ancient occult writings.

L: Dharma Wheel – which stands for cosmic law R: The LHC at CERN Remember the freemasons believe in the laws of nature and not God’s Word. Luciferians, freemasons, witches and all major false religions believe in the same things, they are worshipping the same one.

SYMMETRY - CERN dance-opera film (official trailer)

They have made at least one video showing a satanic summoning ritual. They put it out as artistic but everything they do has occult meaning. They are in a desert place here like where the Bible says demons go when they are cast out of a person. Witches believe they can summon fallen angels and control them and be kept safe by staying inside the magic/witchcraft circle. Sometimes what they want to summon is contained inside of the circle. You can see the symbolism here, light and darkness or good and evil.

In that video they dance all around and have creepy things coming and going, as if to imply the fallen angels being summoned. Now we can understand the dancing and why they were doing that. The statue out in front of the building is in the "lord of the dance" pose. The cosmic dance of destruction. Remember Steven Hawking said they could rip the planet in two with the experiments they are doing and the magnified power this thing generates. Why would a mega corporation make a video with this kind of dancing and imagery? They are showing you plainly who they serve and what they are up to.

We are "Happy" at CERN

They made a video called "We are 'Happy' at CERN. They were dancing all around the place. Again, dancing like Shiva the Hindu representation of satan. Notice the orange fireman jump suits and they just happened to have a number 33 fire truck. These are two calling cards of the freemasons. 33rd degree, the most commonly recognized degree of freemasonry. When you are initiated as a 33rd degree freemason, you know full well you are serving lucifer.

From the same video above. Whoever made this meme is showing that the word laff spelled uniquely is on his shirt. Laff-ing because he's happy at CERN? Or Because the joke's on us as he mocks the crazy "Conspiracy Theory" types? Or Because they really are responsible for the Mandela Effect? The luciferians flaunt their victories.

Notice this guy is showing us clues. He even has Mandela written on orange paper. And he is giving the Masonic thumbs up just like Trump does. Others have brought out about Bond and the first bond movie tying in here. It seems to be a hint at Tubal Cain who the freemasons worship.

Here is a Masonic lapel pin. His sign said “bond” and to us Americans that means 007 – the James Bond character from the movies. See here are the double 0’s and the seven, just flip the cain backward and it’s a 7. It is two balls and a phallus and it is for the sexually perverted religion of freemasonry. You even see the thumbs up here. I brought this out in the “YE ARE GODS” teaching series. So he is speaking to the brotherhood with his little signs. They are proudly showing that they take credit for the Mandela Effect.

CLOSING

L: Celtic god – cernunnos (CERN), M: Greek god pan, R: the baphomet of freemasons. All of these depict the same one, lucifer, the horned god of all witches. This is the same one, same thing – lucifer – king of the abyss. They want to usher him and the third of the fallen angels back into this realm permanently. Notice he is the one that CERN is named after. Pretty obvious right?

Rev.9:1, 11 – And the fifth angel sounded (blew his trumpet), and I saw a star fall from heaven unto the earth: and to him was given the key of the bottomless pit (the abyss). And they had a king over them, *which is* the angel of the bottomless pit, whose name in the Hebrew tongue *is* Abaddon, but in the Greek tongue hath *his* name Apollyon (that is the Destroyer).

The star that fell from heaven and was given the key to the bottomless pit is satan. He is the king of the bottomless pit or abyss. Notice his Greek name here is Apollyon. That is the same as apollo and he is lucifer who is worshipped as the god of the sun. The luciferians call him the light bringer and the enlightener. That is why so many space shuttles are named apollo. After lucifer. Notice Apollyon or Apollo also means Destroyer and we just learned that Shiva means the exact same thing. Same one, same thing.

911, the attack on the U.S. World Trade Towers was in honor of satan. 911 ties into Scripture, this very verse, Rev. 9:11. It was a nod in honor of lucifer, the god of the bottomless pit. They use numbers and dates to glorify their god. Here in America, when we have a problem, chaos and destruction happening in our lives we dial 9-1-1. That is by design and points to the same verse in honor of satan.

Now on top of all the speculation as to what CERN scientists are really attempting to do with their Large Hadron Collider, many observers could not help but notice that the town in France where CERN is partially situated is called "Saint-Genus-Poilly." The name Pouilly comes from the Latin "Appolliacum" and it is believed that in Roman times a temple existed in honor of Apollo, and the people who lived there believed that it is a gateway to the underworld. It is interesting to note that CERN is built on the same spot.

Now on top of all the speculation as to what CERN scientists are really attempting to do with their Large Hadron Collider, many observers could not help but notice that the town in France where CERN is partially situated is called "Saint-Genus-Poilly." The name Poilly comes from the Latin "apolliacum" and it is believed that in the Roman times a temple existed in honor of Apollo, and the people who lived

there believed that it is a gateway to the underworld. It is interesting to note that CERN is built on the same spot.

If there was a Roman city there, then there would have been an altar to apollo. Spiritually speaking, they are activating that old altar.

Top Left: Owl of Athena and owl of Molech over Washington D.C. Top Right: Huge pentagram over the Denisov District in Kazakhstan, seen from outer space via Google Earth. Bottom: CERN which is situated over part of France and part of Switzerland. All of these are working to summon satan himself.

Remember the luciferians have set up the beast system and points of worship and of their demon summoning on the lay lines. They have been looking for portals and ways to open the very pits of hell. They have covered our world with statues, sigils, symbols, logos, names of the entities they serve etc. in order to summon

the fallen angels and pure wickedness into our world. All of these things act as points of contact for the fallen angels. Those in power are gaining more satanic power and working to bring them openly into this world. I hope you understand they are performing witchcraft at the highest levels of our governments, militaries, mega corporations etc. They use our own money to do their witchcraft. Our government beast systems fund CERN. Using our money to do their witchcraft. They show us but many still don't have eyes to see.

When satan the destroyer tempted Jesus this is what Jesus said:

Luke 4:8 - And Jesus answered and said unto him, Get thee behind me, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve.

Did you know the newer translations don't even have "get thee behind Me satan." Wow. I wanted to end with this passage as a reminder that we are only to serve the true God of the Bible, Whom Jesus Christ is.
