

NEW AGE Pt.9: MEDITATION, SATAN'S MINISTERS, BEATLES, BEYONCE, JOHNNY DEPP, SANTANA, DEMONS

WARNING: Some of this message will be mature content.

Pray over the videos.

I found an online interview with the Beatles about their transcendental meditation:

George Harrison: I thought he made a lot of sense; I think we all did. He said that with a simple system of meditation – twenty minutes in the morning, twenty minutes in the evening – you could improve your quality of life and find some sort of meaning in doing so.

John Lennon: We thought, 'What a nice man,' and we were looking for that. I mean, everyone's looking for it, but we were all looking for it that day. We met him and saw a good thing and went along with it. Nice trip, thank you very much. The youth of today are really looking for some answers – for proper answers the established church can't give them, their parents can't give them, material things can't give them.

Young people and people in general are not being warned by the church properly about the consequences of getting involved in New Age and occultic things or even what it is. The church is not exposing satan and the fallen angels and how they have been deceiving people and operating in this world. The church is mostly silent about satan and the fallen angels and their power and how they imitate Jesus and God and deceive many with lying signs, powers and miracles. (2 Thess.2:9-12) Sometimes the answers are not what the person wants to hear or they cannot receive and understand the answer without the power of the Holy Spirit in their lives.

The interview continued: George, is it true for you as well?

George Harrison: The energy is latently there every day, anyways. So meditation is just a natural process of contacting it. So by doing it each day you give yourself a chance of contacting this energy and giving it to yourself a little more. Consequently you're able to do whatever you normally do – just with a little bit more happiness, maybe.

Me: We already learned about the energy source they were connecting with. It was demonic power. The Beatles were used the same way today's rock stars, actors and entertainers are used by satan, to keep people away from Jesus.

L: the sun god Kepri. The Beatles name plays into the scarab beetle which was a symbol for the sun god Khepri. The scarab beetle was a symbol of the sun god and it was said that it could stimulate the deceased's heart back to life. If anything like that happened it was just black magic. The name of their band goes back to ancient Egypt, to the mystery religions. R: One of the people on The Beatles' Sergeant Pepper's Lonely Hearts Club album cover was Aleister Crowley, a major satanic guru for the occult. Musicians, singers, actors – ALL ENTERTAINERS lifted up on the world stage are used by satan to deceive people, keep them away from Jesus and his ultimate goal is that they will end up in the lake of fire for all of eternity.

There was a side note that said: How much did the Beatles' prior spiritual retreat in India, their "turning within" and their renewing of creative and lyrical power influence the album?

Me: The Beatles, just like those on the world stage today, were demonically empowered to do what they did. Their songs and lyrics were not inspired by The Holy Spirit but by evil spirits.

She made an album called "I am...Sasha Fierce" which was supposedly two completely different styles of singing. One part of the album was supposed to be her and she calls that part "I am" and the other part of the album was by her alter ego – Sasha Fierce. This clip ends with Beyonce saying that she thinks we all have "this thing that sort of takes over."* (about 1.5 min's)

Beyonce is a New Age minister of satan's, she is mocking God calling herself "I am" – remember they teach New Agers that they are gods and co-creators etc.

Beyonce's Day off Rituals: One lesson is that she takes those days off seriously, treating her relaxation rituals as professionally as she does her business routine. For example, even though she is cautious not to work on a day off, Beyonce still rises at 6 a.m. to make full use of a day's taking it easy. That first hour may be

spent waking up and meditating, but after that, it's back to bed with her husband and kids.

In another interview: Meditation, visualisation and breathing exercises are other popular aspects of self-care that the entertainer lives by. "I use tools like acupuncture, meditation, visualisation, and breathing exercises," she revealed in her cover story for Elle last year.

The image is a screenshot of a digital article snippet from Heat magazine. The main headline reads "Beyoncé & Jay-z's year of meditating". Below it, a sub-headline says "It's all thanks to unlikely life guru Ed Sheeran". The article is dated "2 Oct 2018" and is categorized under "Jay-Z · Beyoncé · Celebrities". A quote from the article is displayed in a green-bordered box: "'They want to study in order to achieve enlightenment'". To the right of the quote, there is a partial sentence: "They've been on the road together since the beginning of June and – let's face it – things must be starting to grate. Which is why Bey". Below the text is a photograph of Beyoncé sitting cross-legged on a patterned mat, meditating. She is wearing a black and white checkered top and a crown. The photo is captioned "Beyoncé & Jay-Z's 'Ommm'".

Beyonce and Jay Z's year of meditating. It's all thanks to unlikely life guru Ed Sheeran. "They want to study in order to achieve enlightenment."

L: Beyonce and her daughter, Blue Ivy, meditating on a yacht. M: Blue Ivy meditating. These people were born into luciferic families and when they have children, no matter where they get their children from, they train them up into luciferianism. R: Beyonce meditating

They give their children satanic names, occultic names, names that have satanic meaning. They get occult tattoos, demonic symbols and sigils tattooed on their bodies. They flash devil horns, 666's and the pyramid and the all seeing eye in honor of the god they serve when they are in the public eye. They are satan's ministers and they are leading the world into damnation.

These people are not talented. They are doing what they do by using demons. This "thing that sort of takes over" is called a demon. They have sold out for riches, fame, power and the pleasures of this world.

*Please play from 0 to 3:16 and from 3:27 to 4:36 This is a short clip from Good Fight Ministries on Carlos Santana, a world famous guitarist, and how he is tapped into the supernatural working directly with demons. STOP

He says the album “Supernatural” was assigned and designed to him from the spirit world. He is interacting with a spirit calling itself metatron. This demon is associated with the eye of the triangle and seems to be satan himself. Santana hears from demons through meditation. Metatron told him the following: He was going to hook him back into the radio frequencies (his music would be played on the radio) in order to reach the youth. These spirits said they wanted to present the youth with a new menu, to let them know that they themselves are multi dimensional spirits with enormous possibilities and opportunities. We want you to present them with a new form of existence that transcends religion, politics or the modus operandi of education today...This country was founded on a Bible in one hand and guns in the other. Santana said these spirits (who were

actually devils) had supernaturally brought different musicians to him and worked in the musical arena to bring them all together for this landslide album appropriately called "Supernatural." Santana said this entity wanted him to be hooked up with the right musicians, writers and producers. He said his "inner" instructions were clear. He said that all the people that played on the record said they heard my music before I called them, or that I appeared in their dreams or something. Santana said they knew what was coming before they got the call. Santana admits that he is channeling music from the same spirit entities that used Jimmy Hendrix who himself claimed to be demon possessed. Santana said there is an invisible radio that Jimi Hendrix and Coltrane tuned into, and when you go there you start channeling other music. Santana told Rolling Stone Magazine, "You meditate and you got the candles, you got the incense and you've been chanting, and all of a sudden you hear this voice 'write this down.'" Santana described hearing information from the spirit world like a "human fax machine." Rob Thomas said that Santana sat him down and told him that he had done his meditations and that he had spoken with his wife and that he had spoken with the angels. That they had come to him and they had told him that this is what he needed to do. These "angels" are really devils being used to purport satan's age old lie that we are gods. Rob Thomas said, yeah, I want to tap into what he's doing. Santana said, "You don't ever forget the sound that you hear inside, then it goes to your fingers, through the guitar, through the amplifier, through the speakers, through the monitors, up through the pa (public address), it hits the people, 550,000 people. He said, "The energy of devils and angels is the same energy; it's how you use it. It's fuel. The halo and the horns are the same thing. Geniuses don't have time to think about how it's going to be received. They don't have time to think whether people like it or not, is it morally right, will God like it?" / Bryant Gumble interviews Santana and says, that he read that when Santana starts playing that he undergoes a transformation of sorts. He asked him what happens? He says, when he plays on stage "I'm not Carlos anymore." "When I see it on tv, it's like another guy playing." The maker of the video said that he sounds a lot like John McLaughlin who is another famous guitarist. He said, "When I let the spirit play me, it is an intense delight. My role as a musician is to make everyone aware of his own divinity." Santana said when he and Eric

Clapton got together to perform, they were “calling out the spirits.” Santana told Rob Thomas, “That the record was put together just so – through sound, it could change people’s molecular structure. And he sat me down and explained to me that, as a musician, is what we do.” Santana said, “There’s something about music that makes your hair stand up, behold, it rearranges your molecular structure.
*(about 4.5 min’s)

<https://www.youtube.com/watch?v=IRbCN4cse88>

We are going to talk about Metatron later on in this teaching series. Did you notice how Santana and Rob Thomas spoke of god, and angels. They were not talking about the God of the Bible nor were they speaking of holy angels. But they cloak what they are talking about so people don’t realize they are speaking of satan and the fallen angels. By using Christian words and terms they are fooling and deceiving people who have no godly spiritual discernment.

The artists that worked on the album “Supernatural” saw him or heard his music, this would be in a dream or vision. This was demonic activity, satan can give dreams and visions just as God can.

He said he had his candles, he was chanting and meditating and the demons gave him the music by telling him to write it down. His music has never even pretended to honor Christ Jesus at all.

L: Album cover Shape Shifter R: Album cover for Supernatural Supernatural sold over 30 million copies world wide. His name alone is after satan, satana in Spanish means devil. There just happens to be an extra n in there. On the right you see the starbucks mermaid false goddess on the album cover along with Santana represented as a winged deity like horus from Egypt. There are sun rays all around and the guitar has a crown on it and an African witch dr hiding in the bush and dancing on the bongo.

Santana said that when he's on stage, that's not him up there. That's because the demons take over. It might sound crazy when he was saying that the music changes the molecules but remember what John Todd revealed to us about when they dedicate the record albums to satan. They go into their dedicated room where they have an altar to satan. They have their 13 occult priests and priestesses and they do a ritual to summon the demons into the frequencies of the music. To attach demons to every album that is bought. satan is the price of the power of the air and it is deeper than we have understood.

Before we explore the type of spirits that Carlos would have opened himself up to through his experiences with LSD, we would like to point out the fact that Santana also had opened himself up to the spirit world through his associations with John McLaughlin. It was McLaughlin who turned Carlos Santana on to the guru Sri Chinmoy. McLaughlin claims that Chinmoy is God declaring, "**He is Divine Being.**" (Rolling Stone, April 7, 1977, p. 23). Carlos Santana recorded an album with McLaughlin and went on tour with him to propagate the message of Chinmoy's divinity. Carlos Santana has also written songs like, Guru's Song and Guru Sri Chinmoy Aphorism. Here we see something, which is at serious odds with God's revelation of Himself as the only true God. Is Carlos Santana's promotion of guru gods like Chinmoy and new age beliefs from God or Satan? God's word warns against those who bring messages of any other god's than the one true God who has revealed Himself in His word and through His Son:

McLaughlin, Chinmoy, Santana

Before we explore the type of spirits that Carlos would have opened himself up to through his experiences with LSD, we would like to point out the fact that Santana also had opened himself up to the spirit world through his associations with John McLaughlin. It was McLaughlin who turned Carlos Santana on to the guru Sri Chinmoy. McLaughlin claims that Chinmoy is God, declaring: "he is diving being." Carlos Santana recorded an album with McLaughlin and went on tour with him to propagate the message of Chinmoy's divinity. Carlos Santana has also written songs like, Guru's Song and Guru Shr Chinmoy Aphorism. Here we see something, which is at serious odds with God's revelation of Himself as the only true God. God's word warns against those who bring messages of any other god's than the one true God who has revealed Himself in His word and through His Son. Pictured from left to right: McLaughlin, Chinmoy, Santana

Research: There's an inner voice, and when you hear it, you get a little tingle in your medulla oblongata at the back of your neck, a little shiver, and at two o'clock in the morning, everything's really quiet and you meditate and you got the candles, you got the incense and you've been chanting, and all of a sudden you hear this voice: "write this down." It is just an inner voice, and you trust it. That voice will never take you to the desert."

Chinmoy gave him the name Devadip, which means "the eye, the lamp of the light of god." Me: - I think that might be what the eye looking thing he wears in the center of his hats means, and for the all seeing eye too. Deborah, his wife, had joined with him, became Urmila. They signed up to a stern regimen. "Cut your hair, no drugs total vegetarian," he summarizes. "It was like a West Point approach to spirituality. Five o'clock in the morning meditating, every day." Long-distance running was an enthusiasm of Chinmoy's, and Deborah ran marathons. She also ran a devotional vegetarian restaurant in San Francisco. "We used to do ridiculous things," she says. "There was always this competition in how much we could do to prove our devotion – who could sleep the least and still function, because you were working so hard, how many miles could you run. I once ran a forty-seven-mile race. It wasn't enough just to run a marathon."

The few interviews Carlos gave in those years are crammed with reverence toward Chinmoy. “Guru has graduated from the many Harvards of consciousness and sits at the seat of god. I’m still in kindergarten,” said Carlos. Likewise: “Without a guru I serve only my own vanity, but with him I can be of service to you and everybody. I am the strings, but he is the musician.”

Me: We know that his guru did not sit at God’s feet but rather at satan’s feet.

His friend and fellow musician, McLaughlin said the following:

“One night we were playing, and suddenly the spirit entered into me, and I was playing, but it was no longer me playing.”—Circus, April, 1972, p. 38

“When I let the spirit play me, it’s an intense delight. My role as a musician is to make everyone aware of his own divinity.”—Newsweek, March 27, 1972, p. 77

Supernatural / Release date

June 15, 1999

Supernatural is the eighteenth studio album by American rock band Santana, released on **June 15, 1999**, on Arista Records.

[https://en.wikipedia.org/wiki/Supernatural_\(Santana_album\)](https://en.wikipedia.org/wiki/Supernatural_(Santana_album))

[Supernatural \(Santana album\) - Wikipedia](#)

The release date of the album *Supernatural*, was according to their numerology or number magic. June is a 6, add 1+5 and that’s a 6 and 1999 ends with 3 6’s if you flip them over. So it was charged with a lot of satanic power according to satan’s system of worship and withcraft.

*Please play from 8:00 to 9:14 and from 11:42 to 13:05 This is a video clip of Carlos Santana, a world famous guitarist, being interviewed by 60 Minutes. STOP

This footage is about what happened at Woodstock. He took LSD just before performing and he said his guitar turned into an “electric snake.” Instead of being solid it became like a snake. He said his guitar would not stand still and that is why he made all the ugly faces, trying to control it. He said he asked “god” for help and said he’d never do it again. But he was not calling on the God of the Bible / He speaks of being molested as a child. The interviewer says it’s the religious notion that if you know the truth it will set you free. Santana says he is free. He says, “By the grace of the holiest of holies I am free from feeling guilt, shame, judgment, condem and fear. He said the album was the reward of him facing his so-called demon.*(about 1.5 min’s)

<https://www.youtube.com/watch?v=J4cwG6vYbtc>

Notice how he used the word holiest of holies, like what is in our Bibles about where the Ark of the Covenant stayed in the Temple where God’s presence was above the mercy seat and the high priest could only enter in once a year and not without an offering of blood for his sins and then also for the people. He’s not talking about the Biblical holy of holies but hijacking Biblical terms. He serves a different god.

Santana was molested when he was young and that also opened the door for the demonic to come into his life. The drugs opened them wide and meditation added to that. His whole lifestyle has been dedicated to satan.

I have been showing you how in the New Age Movement the founders of it and the teachers of it are hi-jacking the names and titles of God and Jesus and their characteristics. They are using their attributes to guide people to satan and the fallen angels because people are intrigued with supernatural power.

This is from the court case against Transcendental Meditation. “The purpose of man’s life is to gain a state of unlimited energy, intelligence, power, creativity, and bliss. If this is the purpose of man’s life, how can this purpose be fulfilled? The TM textbook answers four pages later by stating that this purpose can be fulfilled by contacting the field of pure creative intelligence, which is “the

inexhaustible fountainhead of energy, creativity, intelligence, and happiness,” and “the origin of all power in nature.” It is “the goal of all progress,” and “the goal of all activity.”

This is describing God. However, since the meditator is not seeking Jesus, they are not in prayer to Him and not calling on Him or the Father at all in this process, they will meet up with another supernatural power that is not holy, righteous or good at all. The New Age language seems hard to understand because they are usurping God titles and attributes.

Listen to their list again and think of what the Bible says about Jesus: The inexhaustible fountainhead of energy, creativity, intelligence, and happiness” **Hebrews 1:1-4** tells us that Jesus made the worlds and that all things are upheld by the word of His power. Jesus holds all the power. He is omnipotent. He created all things, He is the Creator, and so creativity rests in Him or you could say it comes from Him alone. And because all things were created by Him that means intelligence and happiness were created by Him too. He is “the origin of all power in nature.” The elements which the witches worship, Jesus created them. Earth, wind, fire, water and spirit – these are all things Jesus created.

Colossians 1:16-17 – For by Him were all things created, that are in heaven, and that are in earth, visible and invisible, whether they be thrones, or dominions (kingdoms), or principalities (rulers), or powers (authorities in the unseen world): all things were created by Him, and for Him: And He is before all things (He existed before anything else), and by Him all things consist (He holds all creation together).

In summary, the textbook teaches that there exists an unmanifest or uncreated field of life which is illimitable or unbounded or infinite. This field of life is present everywhere, both within and without everything and every abstraction in the universe. This field of life is active, has “unlimited power,” and encompasses all knowledge. This field of life is pure and perfect. Synonyms for this field of life are “perfection of existence,” bliss, and intelligence. This field of life is the field of pure love, pure truth, and pure justice. This field of being has always existed.

Does any of that sound familiar? It should because they are talking about God but they are not giving Him the credit. We already discussed that He is not in the grass or in the trees or in inanimate objects. He created everything and it exists because of Him but He is only in those who have come to Him through Jesus Christ. The Bible tells us God is love (**1 John 4:8**), Jesus Christ is the Way, the Truth and the Life (**John 14:6**), God is Just (**Psalm 33:5, Psalm 89:14**).

CLOSING

Jesus is all present or omnipresent, He is omnipotent, that is all powerful and He is omniscient and that is all knowing. When they say this field of being has always existed, they are still talking about God. Jesus was never born and He will never die. He existed before He was ever the baby in the manger. He has always been. That's what His name means, I Am that I Am means He is being and has always been. (**Rev.1:8, John 8:58**)
