

## NEW AGE Pt.12: MEDITATION, YOGA, KUNDALINI, CHI, PRANA, SHAKTI, THE HOLY SPIRIT

I covered a lot of this information in a 2015 sermon titled “Evil Spirit or Holy Spirit Part One.” This is going to be a refresher for us. Yoga in any form is demonic, whether you do the chanting or not. The word itself means “to yoke” and because it comes from Hinduism, it means to yoke to Hindu gods. The breathing, mantras, yoga poses, and meditations are all based on Hinduism. Kundalini means "coiled one", in yogic theory, it is a primal energy , or shakti , located at the base of the spine. **Kundalini** yoga is a mystical practice that was brought to the US in the late 1960s. **Kundalini** has its own methodology and poses, with an emphasis on breathing exercises. The dormant, divine evolutionary force that enlightens and bestows immortality when activated. Those are fancy words and underneath it all, is satan. He mocks God at every turn and the kundalini force, energy, spirit is a false version of the Holy Spirit, it is a demonic version. That’s why they said it bestows immortality when activated. It actually will lead the person to eternal damnation if they don’t renounce it, get out of it and really and truly get saved.

Awakening the Kundalini or the third eye

"Many scholars have long seen the correlation with what the East calls, chi, kundalini or prana, and the Holy Spirit. Chi, kundalini, or prana are all words for

the subtle energies in the body, and are all seen as manifestations of shakti, or the goddess (or divine mother). The Holy Spirit is the subtle force that connects us to the universe and gives us life, which is the definition of Chi, kundalini or prana (along with other terms). When we say that the union of Shiva (divine father) and Shakti (divine mother) is the whole of creation, we are also saying that the union of the Father and Holy Spirit is the whole of God... Thus, we have a working cosmology that both Eastern and Western religious traditions agree on." (Christopher. 2002)

Me: This divine feminine energy that the eastern religions speak of is not the same as the Holy Spirit.

"Kundalinî: 'She who is coiled; serpent power.' The primordial cosmic energy in every individual which eventually, through the practice of yoga, rises up the sushumnâ nâdî. As it rises, the kundalinî awakens each successive chakra. Nirvikalpa samâdhi, enlightenment, comes as it pierces through the door of Brahman at the core of the sahasrâra and enters!" *Hinduism Today*

"The Kundalini is your own mother. Your individual mother. And She has tape-recorded all your past and your aspirations, everything. And She rises because She wants to give you your second birth, but She is your individual mother. You don't share Her with anybody else. Yours is different, somebody else's is different because the tape-recording is different. We say She is the reflection of the Adi Shakti who is called as Holy Ghost in the Bible. But She rises without any difficulty. Hardly any time it takes." — Shri Mataji

Me: They are saying the kundalini is the same as The Holy Spirit so that they can deceive those who do not have enough godly discernment to know any better. They are not the same thing. The reason this kundalini is different for each person is because it is demonic and each person is receiving different demons and different demonic experiences.

**John 3:5-7** - Jesus answered and said unto him, Verily, verily I say unto thee, except a man be born again, he cannot see the Kingdom of God... Jesus answered, Verily, verily, I say unto thee, except a man be born of water and the Spirit, he

cannot enter into the Kingdom of God. That which is born of flesh is flesh, and that which is born of Spirit is spirit."

We must be born again or from above by God's Spirit which is the Holy Spirit. He's the One Who seals us for eternal life. I have spoken on the false teaching that the Holy Spirit is feminine in the teaching titled "Pat Robertson, Joseph Prince, Mother Grace Pt. 10." And I have taught on the baptism of The Holy Spirit in a teaching titled "The Baptism of the Holy Spirit".

It is very important for you to understand that satan copies everything about God. God has a Holy Spirit so satan has his version of the same thing. satan's version is kundalini. When you get involved in these occult Hindu practices, then you are opening yourself up for evil spirits to come inside you. When the kundalini spirit comes into your life, you are not born again, you are not sealed and bound for an eternity in heaven. They teach New Ager's that when they are enlightened by the kundalini spirit that they are born again. And when Christians ask a New Ager, checking for their salvation, they will say that they have been born again. This deception is set up to keep anyone from digging further to realize what they are really talking about and that they are not Biblically born again.

\*\*Please play from 1:07:46 to 1:10:28 Let's watch this video where satan's false teachers push the false doctrine of a "shekinah glory" this is coming from the Talmud and Kabbalah. Shekinah is the supposed Hebrew Word for this false feminine spirit or part of God. It comes from Judaism which is witchcraft against God and His Word.\*(about 3 min's)

God is not male and female. Male and female gods are worshipped in Hinduism. These false teachings are being taught openly on tv through the televangelists who are servants of satan. It is taught in apostate churches, in New Age shops and institutions all over this world. God is a Spirit and He chose the male gender to relate to mankind. Jesus is the express image of God, male in gender.

**(Heb.1:3)** And therefore we can naturally deduce that The Holy Spirit is referred

to as male as well. God is not divided or confused about what gender He chose to represent Himself.

There is a false god who presents as male and female and it isn't the God of the Bible. It is Satan, and here he is shown in his Baphomet male and female form. Lucifer is equated with the planet Venus who was also a false goddess. In Judaism, in witchcraft, in false religions, in New Age you will always find perversion like this. A fallen angel can appear as male or female, remember they are a spirit and they are taking on whatever form they want to. So we know that this divine feminine energy, called Kundalini is not of God and is not The Holy Spirit. It is an evil spirit.

Kundalini is a psycho-spiritual energy, the energy of the consciousness, which is thought to reside within the sleeping body, and is aroused either through spiritual discipline or spontaneously to bring new states of consciousness, including mystical illumination.

*Kundalini* is Sanskrit for "snake" or "serpent power," so-called because it is believed to lie like a serpent in the root [chakra](#) at the base of the spine. In Tantra Yoga kundalini it is an aspect of Shakti, the divine female energy and consort of Shiva.(see also [Tantrism](#))

The power of kundalini is said to be enormous. Those having experienced it claim it to be indescribable. The phenomena associated with it varies from bizarre physical sensations and movements, pain, clairvoyance, visions, brilliant lights, super lucidity, psychic powers, ecstasy, bliss, and transcendence of self. Kundalini has been described as liquid fire and liquid light.

Me: These manifestations are demonic and not of God.

However, an examination of mystical literature and traditions showed that kundalini, called by various names, seems to have been a universal phenomenon in esoteric teachings for perhaps three thousand years. Kundalini-type descriptions or experiences are found in esoteric teachings of the Egyptians, Tibetans, Chinese, some Native Americans, and the Kung bushmen of Africa. Kundalini has been interpreted from the Bible as "the solar principle in man," and is referenced in the Koran, the works of Plato and other Greek philosophers, [alchemical](#) tracts (the [philosopher's stone](#)), and in Hermetic, [Kabbalistic](#), Rosicrucian, and Masonic writings.

Me: Let's just stop and do a little correcting here. We see that the word kundalini itself is a Sanskrit word meaning serpent, serpent power or serpent force. The serpent always links back to satan and those followed him in the fall from heaven, the fallen angels. He is the master of them. (Rev.9:11 & Rev.12:9) They conveniently say it has been interpreted from the Bible as the solar principle in man. Who interpreted this, what scripture reference? There is none because this is made up bologna to support their false teaching and deception of trying to link it to the Bible as if it is anything holy at all.

These images are showing what is happening when a person is seeking enlightenment and power by doing these practices. On the left you see the person sitting in a lotus flower doing the yoga lotus position with the serpent encircling and hovering above them. On the right you see behind the person is a representation of the Hindu god, Shiva. Notice he has a necklace of skulls, he is a destroyer, notice the trident – like what we know to be the devil’s pitchfork. This Hindu god is Satan. Remember what I have told you time and again that spiritually anything pertaining to a serpent always connects to Satan. So the person being enlightened by the serpent is activating fallen angel power or demonic power in their body and lives. Remember yoga, meditation and the New Age are all occult practices. This is coming from eastern religions that are against Jesus Christ, they don’t love and serve Him but they serve Satan and the fallen angels. That’s why they have so many gods. All those millions of gods are the fallen angels.

As Christians we know that Satan cannot be everywhere at once. Only God can do that. Only God is all present. That is why Satan has his surveillance system set up all over this world to see us and hear us and even to retrieve our thoughts. He’s having to work the system to try and be what God is naturally. God knows all and sees all without using technology, without using smart devices. He just is omnipresent and omniscient.

**Luke 10:19** - Behold, I give unto you power to tread on serpents and scorpions, and over all the power of the enemy: and nothing shall by any means hurt you.

Jesus said this to His disciples and it applies to those of us who have surrendered our lives to Him and are baptized into the Holy Spirit and sealed by Him. It is for us today as real and true Christians. Jesus is referring here to satan and the fallen angels as serpents and scorpions. We see He used the plural of both and that is because the fallen angels that serve satan are considered to be just like him. So this serpent force is referring to the demons. And those who are in Christ have the power and authority to trample on them, they are under our feet. They are defeated already by our Master, Savior, Lord and King! We do not invite them in, don't entertain them and certainly don't try to activate their power in our lives. We stand against them in Jesus' name!

Meditation opens you up to the fallen angels. Buddhist meditate, Hindus meditate, these are eastern religion practices and now they are here in America and all over the world. The meditation and other practices are producing these mystical experiences and false sensations of power so that the individual begins to believe they are God or that they are becoming divine. Let's look at some of the Hindu and Buddha statues around the world that show us openly who they serve and what god is ultimately behind all the meditation.

From Buddha Weekly – Buddhist Naga, in the form of a great cobra of many heads protects Buddha. The eastern religions worship and revere serpents and

dragons which represent satan and those under him. The serpent is worshipped as a representation of the sun god and though there are many sun gods, the ultimate sun god is satan.

Here on the left is the emblem for the theosophical society of which Blavatsky was one of the founders. And this is the main under pinning of the New Age. Notice the crown is on the serpent. That's Blavatsky in the middle, she certainly loved the god of this world, the old serpent. On the right is the cover of her newspaper she titled lucifer. Blavatsky, one of the New Age founders, believed that the serpent was the one who brought wisdom. Blavatsky said, "satan is that angel who was proud enough to believe himself God; brave enough to buy his independence at the price of eternal suffering and torture." She said, "satan the serpent in Genesis is the real creator and benefactor, the father of spiritual mankind...and he who was the first to whisper: 'In the day ye eat thereof ye shall be as Elohim, knowing good and evil' – can only be regarded in the light of a savior." Blavatsky said that satan, lucifer, the tempter, the mind – is our redeemer, our intelligent liberator, our savior. This is exactly the opposite of what we learn in Scripture.

**Isaiah 5:20** - Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter!

When you look at the New Age with Christian discernment you see this is exactly what they have done. They are praising satan and lifting up his sinful and wicked

ways as being good and being light. Saying that the serpent brings wisdom and enlightens those who seek to awaken the serpent power.

Statue of Buddha mediating with serpents.

Here is Buddha again surrounded by 7 serpents. Notice their tongues sticking out. When you see Hollywood stars sticking their tongues out it is because of the god they serve. Those who are empowered by demons many times will stick their tongues out and run them all around their mouth. And many times in deliverance a person will hiss or run their tongues around uncontrollably or slither around like

a snake. It is because of the demons in them and it goes back to satan the old serpent.

The giant snake water spirits of Thailand: The Nagas. These eastern countries worship serpents. A naga is supposed to be a divine half human, half serpent being.

Buddha Statue in Wat Phra Yai/ Toast to Thailand. See Buddha at the top and then the snakes go all the way down along the stairs and at the end or the beginning, however you look at it, you see their faces. These serpents have beards under their chins, think about the pharaohs and the false beard they would put under their chins. This is why, they worship satan, the old serpent.

The second largest Shiva statue in the world! At Murudeshwar, Karnataka. So we see that the Chinese and Japanese worship Buddha and the serpent and so do Hindus. Shiva has a serpent around his neck and one under his right arm and smaller ones wrapped around his arms. Notice he is doing the as above so below with his hands just like the baphomet does.

Temples of Karnataka. Look at these huge idols that are erected around the world. The kundalini, serpent force is coming from these false religions.

There has been an awakening of kundalini knowledge among the Western populations since the 1970s because of two major reasons: **more people who are trained in the spiritual disciplines are likely to release the energy**, and the increased number of people that are aware of kundalini are more likely to recognize its symptoms or benefits.

There has been an agenda to teach and spread this out to the masses and they are succeeding.

## **CLOSING**

Jesus gave us the power to trample on serpents and scorpions. That is satan and the fallen angels, satan's kingdom and those serving him. satan is called that old serpent (Rev.12:9), why would we want to enter into any practice that referred to a serpent in any way? Those eastern religions have their own holy books and holy scriptures that have nothing to do with Christ Jesus. After Adam and Eve sinned, listen to what God told the serpent.

**Genesis 3:15** - And the LORD God said unto the serpent, Because thou hast done this, thou *art* cursed above all cattle, and above every beast of the field; upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life: And I will put enmity (hostility) between thee and the woman, and between thy seed (offspring)

and her seed (offspring); it (He) shall (will) bruise (crush) thy head, and thou shalt bruise His heel.

There are quite a few Mandela Effects here now in this passage. It never said it shall bruise – this is speaking of Jesus. This passage used to say He will crush your head. We don't revere serpents and dragons and we don't seek to awaken any serpent power in our lives. These things are in opposition to God's Word and to Jesus Christ Who is the very Word of God. Instead, we crush the serpents head spiritually. Warn your family and friends about meditation, kundalini and yoga. We are going to continue exposing kundalini and yoga next week.
