

SATANIC CLOTHING Pt. 1: WITCHCRAFT, DEMONIC SYMBOLS, DEMONIC IMAGES

Let's go right to:

Eph.5:11- 14 - And have no fellowship with the unfruitful works of darkness, but rather reprove *them*. For it is a shame even to speak of those things which are done of them in secret. But all things that are reproved are made manifest by the light: for whatsoever doth make manifest is light. Wherefore he saith, Awake thou that sleepest, and arise from the dead, and Christ shall give thee light.

One of the mandates God has given me as a pastor and teacher is to expose the evil works of darkness. The evil works of the kingdom of darkness are only exposed by the light of Jesus.

I think we understand that shirts with pentagrams, baphomet, witches, demon faces and devils on them are off limits for Christians. I mean we just wouldn't buy those things because we know they are wicked and would draw demonic activity in. Most of the clothes I'm going to show you are clothes that I personally owned. But I will show you a few other things too.

Like this shirt. I don't remember what store I saw this in but they aren't even trying to hide the satanism these days. This symbol will certainly draw demons. The pyramid or triangle, the all seeing eye of Lucifer, the sun and it's all in a witchcraft circle and even says sun right on the shirt. All in honor of the sun god

satan or baal. Even if you say it is in worship of horus or Osiris even that leads straight to satan.

It is made by “Lizzy Storm Designs” or LSD for short. That says a lot right there. We automatically think of the hallucinogenic drug, but LSD to luciferians stands for Lucifer, satan, devil. Lizzy is short for lizards or reptiles which leads to reptilians which are a form that the fallen angels sometimes take on. Storm is one of satan’s nicknames. This kind of stuff is being sold everywhere now and especially in places like Target. We are not going to be able to escape buying products made by luciferian companies. They own all the mega corporations. They are in all key positions of power. For example all cars carry names and symbols in honor of satan and the fallen angels. I cannot make a car but I need one so it cannot be helped buying some of these products. My car is a Nissan, and that name is in honor of the sun god. We pray over the things we have as Christians. But we can avoid certain obvious satanic things like the shirt with a pentagram on it and the rest we must pray over. satan’s servants are the ones making our food and things we buy and it is that way because we are in the end of days. God already told us in His Word it would be like this. Scott’s dad said once that we are living in exciting times. That’s true, because you can see how close we are to the Lord’s return. Hard to live through but exciting at the same time. JESUS IS COMING SOON! THE KING IS COMING!

Some years back I began to notice things on some of my clothes that were purposely put there that you normally wouldn’t notice. Unbelievers don’t notice at all and if they do, they don’t care because they have no light in them. I actually think Kennedy may have been the first one to start noticing things in our clothing. God was showing her many things at that time.

Once I began to realize these things are there by design and have spiritual ramifications, I sat down with Kennedy and we went through our closets. Obvious satanic clothes, mainly blouses, were removed and burned, destroyed. We did not take them to Goodwill, we did not give them away because we don't want anyone else to have these same wicked things in their lives. They are drawing points for demons. I really didn't see too much in Scott's clothes. You know guys are mainly in solid colors or stripes and the patterns on their shirts usually don't get too intricate.

This looks like just a typical ordinary blouse for a woman. This is a shirt I had some years ago. It was a little snug and I was waiting to lose a little weight. I pulled it out of the closet one day to try it on. Kennedy said mom, is that shirt ok? She had a puzzled look on her face and I asked her if she saw something. We

went to get under better lighting and inspect this shirt and we started finding all sorts of demonic faces and baphomet horns and different demonic animals. This is probably an Indian pattern and the main religion of India is Hinduism and they have millions of gods.

Sometimes you will notice things in the pattern if you look at it close up. Then if you move farther away and look at it again sometimes you can see things then too, different things you didn't notice before. Sometimes you can see faces or horns one way and when you flip it over it is a different face or demonic pattern that way – duality. They are using colors and patterns and hiding stuff right in front of our eyes.

This is the first thing I noticed when Kennedy brought the shirt to my attention. That is a smiling devil with horns on its head. I praise God for opening my spiritual eyes about this and that He had opened Kennedy's eyes too. The Holy Spirit will make you aware of wickedness.

Once you see it, you can't unsee it.

Here is yet another demon face, you can see the brown horns and green eyes and maybe a brown nose and the big green area being like a mouth. This is stacked right on top of the other demon or devil with horns.

This is the serpent or serpent-dragon. See its raised head and sort of a slightly darkened center to it.

Serpents were worshipped in Egypt as sun gods.

Hindu's worship serpents in a festival called Naag Panchami. The serpent always represents satan.

This is from the same shirt you guys. You can see a skeleton face on the left and I am showing you the same thing on the right to help you see it better. Skeletons always represent death and in the old testament they represented uncleanness because anyone that touched a dead body was considered unclean before The Lord. They had a certain ritual cleansing they had to do to be able to come into His presence again, to be considered clean. **(Numbers ch.19)** Dia de los muertos is not something Christians have any business celebrating. We don't celebrate or worship the dead. This represents the spirit of death.

Bones are used in witchcraft. I think many times the things God asked the Israelites to do in service of Him was to keep them out of witchcraft which is what the pagan nations all around them practiced.

In the middle from the shirt is an owl face or a bird face. Two orange eyes and a beak, with feathers around the face flared out.

Flip it upside down and it is another face.

There is a prominent triangle and in pagan religions that symbol is always for the sun god, satan. Think of the pyramids of Egypt and the showdown God had against the gods they served. They served the fallen angels with satan as head over them all. Listen to the teaching series “Amen” and you will understand even better. A triangle to those of us who don’t worship satan and don’t participate in symbol or shape magic, then it means nothing to us. There is a face in the middle of that triangle.

Looks like droopy eyes, a nose and a mouth with a tongue sticking out. When a person is possessed by a demon or has a lot of demonic activity in their lives, they will stick their tongue out a lot just like we saw Myley Cyrus doing all the time.

Here in the middle you see the owl face, then the bull face, then the devil and they are all stacked on top of each other.

Now you get a better idea about this design on the blouse. It looks like a type of baphomet. All of that is just from one blouse. Now most of what I'm going to show you came right out of mine and Kennedy's closets.

Some of these shirts I have ministered in. I was shocked when God opened my eyes to all of this, how I did not notice it before. God doesn't just teach you everything all at once. It takes time to learn and grow so be patient with yourself. Right in the middle of this shirt there is a black face with horns around it and dark horns above it and looks almost like tusks coming off of its face.

Hopefully it isn't too blurry here for you to see it. I flipped it upside down, look right at the top in the middle and you can see a face with eyes and a nose and mouth with horns coming right off the face above the eyes and seems like horns wrapping around the face. I praise God for His mercy and grace and those sermons went out for His glory in spite of the satanic symbols or images on my shirt! That must have really burned satan up!

I bought this dress online for a summer wedding. The picture looked ok. When I got it, it still looked ok until one night I had it hanging just like this on the bedroom door and I noticed a creepy man and an alien looking man on the side of the dress. The side of the dress is not shown in pictures online.

There are at least 3 or more demonic looking people here all stacked one on top of another right in the center of this picture. The front of that dress just looked like a flower pattern, there is no reason for these evil images to be on this dress. The reason comes from the kingdom of darkness, looking for a way into our lives.

There are scary faces and bug type of faces stacked on top of each other here.

CLOSING

I shared some of these pictures and some of the ones I'm going to show you next week, with Pastor Erustus. Here is what he shared:

Pastor from the pictures of the clothes you have shared, if one is not spiritually alert and eyes opened you cannot realize these demonic symbols on the garments. Those clothes with such symbols are also very common here. I believe it's a scheme of the satanic world to capture people through fashions and styles with their demonic symbols printed on them.

Pastor I believe wearing such clothes acts as points of contacts for demonic activities in a Christian or unbelievers life. The devil and his demons will gain a legal ground (open doors) in harassing a Christian and possessing unbelievers life.

You remember we shared and said one must clean his house from any object, pictures, books that carry any satanic inclinations, same such clothes with freemason, illuminati or devil worship pictures must be done away with. Just take time and do research on what people dress, it goes hand in hand with their character.

Like the rastafarians, put on particular clothes and scarves with specific symbols and colors. I pulled this example so you could see what Pastor was talking about. You can see, in the background there is a satanic star, the star of remphan, with

the all seeing eye in the center. Rastafarians do not believe Jesus is the Messiah, instead they believe an Ethiopian emperor was the Messiah and that is who is in the picture he's holding.

Pastor ended by saying to me: It's good Pastor you did away with those clothes. They are demonic.

I have spoken on demonic sigils many times, and symbols. These things on our clothes are a form of witchcraft and those images and symbols can draw demons into your lives. I'm going to show you some more things I found in our clothing next week. If you begin to look at your clothes and find things that your spirit feels is evil or wicked like what I have shown you today, you should burn, destroy or get rid of it permanently. Don't give it away because you don't want anyone else to have it either.

PRAYER
