

ISRAEL Pt. 1: FAKE NEWS, PROPAGANDA, CRISIS ACTORS

****This message was not uploaded to Youtube because I'm sure they would label this as false information and as this sermon series continues they would label it as hate speech, remove it and give us a strike against our channel. So we are not bothering to put this on Youtube as we are having to censor ourselves in order to maintain that platform.****

DISCLAIMER: I am not going to be speaking about Israel too much in this part. Part one is a foundation for understanding what is playing out in our news lately. Israel has been in the forefront on main stream media news programs. I want to caution you about what you see on tv and remind you that television is the biggest and most powerful platform for getting propaganda out to the masses. I have covered several false flag events in the past. A false flag doesn't mean nothing is happening but it does mean the narrative you are being told is not the truth.

I want to briefly refer to some recent research I did regarding the supposed Ukraine war. What I found pointed to Ukraine firing on its own citizens, and Russia trying to help aid those Ukrainian citizens.

Remember here in the U.S., propaganda was legalized under the Obama administration.

U.S. Repeals Propaganda Ban, Spreads Government-Made News to Americans

When you are watching the "news" you are being fed propaganda. They are manufacturing the news to serve their agendas. What does manufactured news mean? It means you are watching actors play out virtually everything you are seeing. Just like a Hollywood production. There's more actors than you see in the movies, the news is loaded with them. Crisis actors are the ones who play out fake school shootings and crisis events, they play like they got hurt.

Same girl, same song. Wake up people! She was at the staged bombing event at an Ariana Grande concert in Manchester, England. She was at the fake shooting at a movie theatre in Aurora, CO. She was at the fake school shooting at Sandy Hook elementary school in Newtown, CT. She was at the Boston, MA marathon fake bombing event. She really gets around. If you see her you better watch out because something is fixin' to go down!

I have no words.

David Hogg and Adam Lanza – Same person! I have no words. Adam Lanza, was the supposed Sandy Hook Elementary school shooter. Then they changed his name to David Hogg, changed his hair color and the way he combed his hair and used him as a gun control activist after they staged the fake school shooting in Parkland, FL.

These 3 guys always work together apparently. They were at the fake Boston bombing and they also showed up at the fake Sandy Hook school shooting in CT.

Pulse Night Club and 1000 Oaks – same “crisis actor”.

so,...the way americans with half a brain understand the Charleston Church shooting is that the federal government fast-tracked \$29 million dollars to the 'families' of the 'shooting' that was, in reality, another active shooter drill and was staged by Homeland as propaganda to promote gun control for the Obama administration, who also authorized Homeland Security to stage mass shootings for that very purpose.

PAT ROBERTSON, JOSEPH PRINCE, MOTHER GRACE – Part Nine: CHARLESTON ...

This comment was made on the sermon series “Pat Robertson, Joseph Prince, Mother Grace Pt. 9”. Mowac said, so...the way Americans with half a brain understand the Charleston Church shooting is that the federal government fast-tracked \$ 29 million dollars to the ‘families’ of the ‘shooting’ that was, in reality, another active shooter drill and was staged by Homeland as propaganda to promote gun control for the Obama administration, who also authorized Homeland Security to stage mass shootings for that very purpose.

This guy was on it.

Back in the 1990’s Phil Schneider said that he felt like we were only getting maybe 5% truth in the news. They murdered him in 1996 because he was speaking too much truth. The luciferians use skills to get the truth out for their purposes but

they really don't like it if it is anyone else. So often times those speaking out deep truth and exposing wickedness are murdered by them.

The news that I have seen regarding what's going on in Israel is coded just like all the rest of the news is. One coded, fake story after another.

The pentagon paid a British PR firm \$ 540 million for top secret Iraq propaganda. Bell Pottinger is a global PR and communications agency. It has now been revealed that they were paid \$ 540 million by our U.S. military to create propaganda stories, phony Al-Qaeda videos, then break into homes and plant these dvd's with fake ISIS stuff on them. Then just because the people had watched them, their IP address was flagged and they were put on a list and tracked. Probably so that they could be retaliated against and the whole thing was a paid for propaganda scandal. This was reported by Amy Goodman on "Democracy Now." This was a top secret propaganda program in Iraq. US Marines were planting the discs in homes. Bell Pottinger also produced fake tv news reports that were designed to look as though they were made by arab reporters rather than by Bell Pottinger. Martin Wells from Bell Pottinger says the kind of stories they were paid to make up were like a car bomb going off – people would die and they would have people out there filming it, it would come back, they would then edit it into stories that were to go out on different news channels within the region. He said they had to make it as best they could look as if it was made locally, which it is shot locally and edited locally, it was more to make it look like it was Arabic. Bell Pottinger's work was signed off on by General Petraeus then commander of the coalition forces in Iraq and occasionally signed off on by The White House. **On screen information shown:** Meeting with Bell Pottinger, July 20, 2011. Present: David Wilson, Tim Collins and Sir David Richmond. They were sitting at a conference table discussing the following: We asked if anything could be done about negative comments online. The President is not particularly happy with his Wikipedia entry, or the Uzbek's governments Wikipedia entry. You did mention earlier that there might be ways to...,would that be something

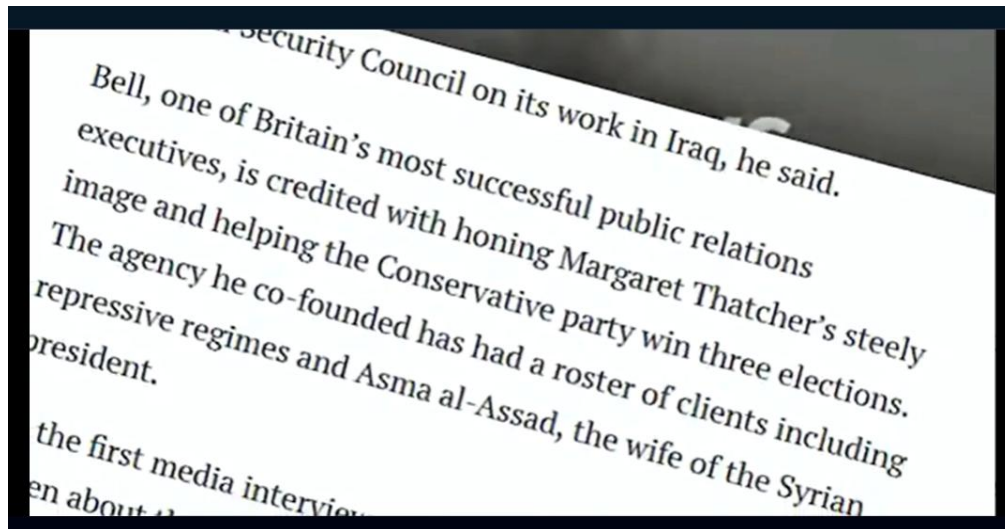

which we could deal with? Reporter: Yeah, okay. Tim Collins: We've got all sorts of dark arts. I told him he couldn't put it in the written presentation because it's embarrassing if it gets out, he's so good at it. David Wilson: We had a client come to us last year called Dahabshiil, which is the biggest money transfer business in the horn of Africa. Their problem was when you did a google search, the entire first five, ten pages, just about everything about them was about a former employee that was holed up in Guantanamo Bay. Within the first 3 months you could look through the first 20 pages of google, where after there wasn't a mention of it, and that's just through good SEO, search engine optimization. Tim Collins: We've obviously got people who work in our business who've got connections with the liberal democrats and labor. But we do pride ourselves on the strength of our connections with The Conservative Party. And from my own point of view. I've been working with people like Steve Hilton and David Cameron and George Osborne for 20 years plus. As I say, Ed Llewellyn is the prime minister's chief of staff, he was my deputy in central office for a long time. Steve Hilton was my deputy in a different capacity in a different way. I mean I know all these people, there is not a problem about getting the messages through to them. What do you think about William Hague? Tim Collins: I think David Cameron listens to him a lot. Is he on your speed dial? Who William? I wouldn't say he's on my speed dial. You can get a hold of him? I can get a hold of him and I talk to him. Meeting with Bell Pottinger June 30, 2011: Bell Pottinger is representing the Sri Lankan Government. So what have you done for Sri Lanka for instance? Inside the UK we've added some critical dialogue at government level. Present: David Wilson We've added some balance outside of a couple of media channels. So The Times and channel 4 are particularly staunch in their opposition. We wrote president Rajapaska's speech to the UN last year, which was very well received. You know it went, it went, a long way to taking the country where it needed to go. Fundamentally though, they've set up a thing called the peace and reconciliation commission. Which has got one fundamental flaw in it, in its remit on investigating what has gone on in the past try and bury the past. And unfortunately, because that is the case, media like channel 4 and The Times find that the whole peace and reconciliation commission is flawed. *(about 1.5 min's)

Amy Goodman is a shill, she's one of them. Remember they play both sides, they are the bad guys and some of them play good guy roles but the end game is what they are both working to accomplish. They don't report these things on main stream media but they do have their shill channels that are used to get truth out. They say the truth is hidden in plain sight, they get the truth out to us too but they mix lies in and keep the waters muddied. You need godly discernment more than ever now.

Bell Pottinger's output included short TV segments made in the style of Arabic news networks and fake insurgent videos which could be used to track the people who watched them, according to a former employee. The agency's staff worked alongside high-ranking US military officers in their Baghdad Camp Victory headquarters as the insurgency raged outside.

Bell, one of Britain's most successful public relations executives, is credited with honing Margaret Thatcher's steely image and helping the Conservative party win three elections. The agency he co-founded has had a roster of clients including repressive regimes and Asma al-Assad, the wife of the Syrian president.

The pitch given to them by the Bell Pottinger team revealed some of their marketing methods, which they referred to as 'dark arts', and saw them boasting of their political connections. The Bureau of Investigative Journalism reported on these meetings which were held. I want to share what was shown on screen if you watch that entire video.

They were sitting at a conference table discussing what type of things Bell Pottinger did for their clients. They were asked if they could do anything about negative comments online. Tim Collins of Bell Pottinger said, "We've got all sorts

of dark arts.” David Wilson of Bell Pottinger said, We had a client come to us last year called Dahabshiil, which is the biggest money transfer business in the horn of Africa. Their problem was when you did a google search, the entire first five, ten pages, just about everything about them was about a former employee that was holed up in Guantanamo Bay. Within the first 3 months you could look through the first 20 pages of google, where after there wasn’t a mention of it, and that’s just through good SEO, search engine optimization.

They talked about how well connected they are and how deep their connections run.

Bell Pottinger is representing the Sri Lankan Government. So what have you done for Sri Lanka for instance? Inside the UK we’ve added some critical dialogue at government level. Present: David Wilson We’ve added some balance outside of a couple of media channels. So The Times and channel 4 are particularly staunch in their opposition. We wrote president Rajapaska’s speech to the UN last year, which was very well received. You know it went, it went, a long way to taking the country where it needed to go.

This video gives us great insight into government manufactured news. Our U.S. military paid \$ 540 million dollars for fake tv news reports and fake videos of bombings and killings. Propaganda stories, phony Al-Qaeda videos. U.S. marines were then breaking into homes and planting these dvd’s with fake ISIS stuff on them. Then just because the people in those homes watched them, their IP address was flagged and they were put on a list and tracked. Probably so that they could be retaliated against and the whole thing was a paid for propaganda scandal.

I remember a long time ago when God was waking me up to all this wickedness and I learned through deep research that our U.S. green berets were practicing how to harness brain power and burst animal hearts. The next step after mastering how to kill animals was to kill humans with this psychic energy. You know what that is? That is demonic power. Their brain power isn’t killing anything but it is the demonic power that they have summoned by participating in satanic rituals and bowing to satan and the fallen angels. That’s what is killing

animals and people. It is invisible force but it is not a mystery, it is demons that they have summoned and are working with. Remember Rauni Kilde's testimony of going into a deep underground military base and seeing the soldiers there lying down listening to music to help them to astral project. That's what our military is doing at high levels and on special ops teams.

These things are wicked and sick. In that video, Tim Collins said, "We've got all sorts of dark arts." They certainly do.

The following is what I pulled off of Wikipedia about Bell Pottinger. We know that Wikipedia is not always a reliable source as we just had further confirmation to from that video.

The kind of wars that are being waged now are on your mind. They use propaganda to move everyone to agree with their agenda and justify their actions for going to war with so called enemies. World governments are using propaganda against their own citizens as well as against other nations. And on some level they all work together and that is because they all serve the same master, satan. Remember 911 was pulled off by our own government.

This girl discovered that they (Israel) are using old reporting from 2021 for this “new” war that’s going on with Israel. (about 1 min.)

They’ve been lying to us for a long time. If you can’t fathom these things, remember Kay Griggs, ex-wife of Colonel George Griggs, discovered that in order to be a navy seal you had to kill 10 people without being caught. She’s not describing a mission of taking out bad guys and enemies, she was talking about regular people that they were killing. That’s what our military is up to at high levels and in special teams.

Many testimonies, videos, websites, books and info. are scrubbed offline now to bury the truth and rewrite lies. Read the book “1984,” it is one of their playbooks and it will tell you all about what they have been doing and are doing right now. Often times when I go back to some of my research the videos have been taken down, websites are gone etc.

Our government and military uses agencies like Bell Pottinger to promote propaganda and add fuel to the fire and get us to believe in terrorism and in fake

bombings and killings and all sorts of thing to get us on board with their agendas. Like being in approval of going to war against Al-Qaeda under George Bush. They do the fake school shootings and other shootings to build a case to get rid of our guns.

Now the Bell Pottinger company and what they were hired to do makes more sense, right. It’s all staged. People do get killed and beheaded but that’s not what we are seeing on main stream news. We will never see or hear about the real beheadings.

Want to know what our military is really up to? Just take a look at the memes going around FB and social media. They want to mislead you, get you to fight and be divided and distract you from what is really going on in this world. The ultimate goal is to keep you away from Jesus and for their god to come to power through the antichrist. God led me to this piece of information before I even started this sermon. Now you are learning where your tax dollars are going. There are innocent people in the military but they are on the lower levels. ISIS seems to be America's fake terrorist invention. Hamas seems to be Israel's fake terrorist invention. They use these fake terrorists to get what they want.

America seems to be at a dead run toward socialism and a tool that they are using to get us there quickly has been the farce of a president stumbling through office making one bad decision after another. Another event has been to pour all our funds into the supposed Ukraine war and now also to pour all our funds into the supposed Israeli / Palestinian war. Seems things are being fast tracked to get us to the point of the tribulation, the time when the antichrist will stand up and rule over the whole world. The fallen angels are already seated in all positions of power through people who are willingly serving satan and through clones. The beast system is in place just waiting for the antichrist to come to power.

These kids were laughing through this whole interview. This was only a few days after their parents had supposedly been killed. This was not nervous laughter or hysterical laughter or out of place grieving laughter. It was just plain old laughing about duping anyone who would believe their story. If this had been real these kids would have had a hard time talking at all. Their eyes would be puffy from crying and I dare say they would not have even been fit for an interview of any kind. They show us such non-sense, no tears and most people eat this stuff right up. I used to be asleep but even I believe I would have questioned this interview.

The mom is giving a clue here by hiding one eye in honor of horus and ra and ultimately satan. The god of the freemasons/illuminati/luciferians.

L: The brother is giving the clue with the bull on his shirt. That's one of satan's symbols. R: He's giving freemasonic signs while his sister talks. They stage these photos to play for these fake events.

CLOSING

Luke 8:17 – For nothing is secret, that shall not be made manifest; neither any thing hid, that shall not be known and come abroad.

God does not want His children to remain in ignorance. He doesn't want us to be deceived.

Eph.5:11-12 - And have no fellowship with the unfruitful works of darkness, but rather reprove *them*. For it is a shame even to speak of those things which are done of them in secret.

It is a shame to have to speak about such dark and deep wickedness. I am speaking out to wake others up for God's glory. We are to expose the evil works of darkness. I praise God He has given me a mandate to do that very thing.

satan is the god of this world. **(2 Cor.4:4)**

Matthew 24:12-13 – (Jesus speaking) And because iniquity shall abound, the love of many shall wax cold. But he that shall endure unto the end, the same shall be saved.

Jesus was talking about the last days when He said iniquity will abound. That means not only that wickedness will increase, but also that wickedness will have the upper hand. That's what we are witnessing, those of us who have eyes to see and ears to hear. Our governments, courts, magistrates are ruling this world for satan and moving his agenda forward.

Next week I plan to begin to teach deeper on Israel.
