

FREEMASONRY Pt. 13: FERTILITY CULTS, OBELISKS, OSIRIS, SACRED PILLARS

Mature Content – not suitable for young kids.

We are going to continue looking at the fertility worship going on within freemasonry. Last week we heard from Albert Pike's writings that they believe man and animals came from osiris' phallus. That's a pretty bold affront against Jesus Who created all things. **(John 1:3, Col.1:16)** We began taking a look at obelisks which were introduced into the ancient Egyptian mystery religion by Isis called Asherah and ashtaroth and queen of heaven in our Bibles. They were consecrated and considered sacred stones in that false religion and they represent osiris' male anatomy and osiris is baal is lucifer is satan.

This obelisk is one of a pair called Cleopatra's needles. They were initially built and set up in Heliopolis also called On, the city of the sun god osiris. They have been moved to a few different cities in Egypt and then this one was moved to New York and set up in Central Park in the 1800's. The hieroglyphs are being heavily weathered and eroding away here in this country in our climate. Initially

on each side there was one single row of writing by Thutmosis III and 300 years later a row on each side on each face of the obelisk was added by Ramesses II about his military campaigns and victories.

Jesse B. Anthony, Grand Master of masons in the State of New York, presided as the cornerstone for the obelisk was laid in place with full Masonic ceremony on October 2, 1880. Over 9,000 Masons paraded up Fifth Avenue from 14th Street to 82nd Street, and it was estimated that over 50,000 spectators lined the parade route. The benediction was presented by Rev. J. Bradford Cleaver. The obelisk was righted by a special structure built by Henry Honychurch Gorringe. The official ceremony for erecting the obelisk was held January 22, 1881. The event was commemorated a month later with another ceremony inside the Metropolitan Museum of Art.

The mere fact that freemasons presided over this speaks volumes. Even if they were just front men who they use to make the organization appear good, the hi-level ones orchestrated the move and held their own ceremonies.

The east, north, west and south faces of the obelisk, respectively (left) and the obelisk's hieroglyphs with translations (right)

The way they have the writing set up it is hard to tell what it matches up with on the left but I want to read a few portions of what is written on this obelisk:

Banner-name "The crowned horus, bull of victory arisen in Thebes. All three faces have 3 hieroglyphs of horus on each side. Horus is supposed to be the reincarnated osiris. The inscriptions from Ramesses II end with - glorified of osiris, life giving like the sun forever.

When you read the entirety of the inscriptions, the whole thing sings the praises of the Egyptian sun gods (osiris, ra and horus) and the pharaoh's who served them as well as a few other gods. This was not brought here and set up for us to experience Egyptian culture. It was a spiritual move planned out by hi-level luciferians and freemasons to bring a highly demonized object here to be a point of contact, a point of entry for satan and his kingdom of darkness. It was strategically set up there. They study the lay lines, latitude and longitude and set up their satanic objects on them for spiritual power from the kingdom of darkness. These things are used in their worship and for their purposes in black magic and worship of satan and his fallen angels. They use them as portals, gateways and who knows what else.

The inscription called horus the bull of victory. In fertility cults the bull is worshipped as a symbol of fertility, and that is why testes were sometimes seen on false goddesses like artemis, the semen contained in the testes for fertilization.

L: From the movie The Ten Commandments, the golden calf idol the Israelites bowed down to and worshipped. R: This is osiris in bull / human form called apis

or osiris-apis. The solar discs shows he is a sun god. He is a fertility deity and that is why the Israelites made the golden calf, they were doing what they learned in Egypt and now we see this in freemasonry. All of this is packed into the obelisk standing in Central Park in New York.

This is the twin obelisk of the one in New York City, this one is in London as seen from the Thames River. So it was moved from Egypt and set up there. It is flanked by two pharaoh headed lion sphinx'.

The crowned uraeus' and sun disk of osiris and amen with outstretched wings were added at the base.

The obelisk sitting in Vatican City was also moved there from Egypt. Rome currently has 8 obelisks that were moved there from ancient Egypt. They aren't using them for mere decoration or culture, there is a wicked spiritual purpose being served. First of all, they represent osiris' phallus, who is baal of the Bible and lucifer and satan. So it represents his system of worship being honored in all the places where these things are.

I read that Cleopatra's Needle obelisk in Central Park, underneath it they buried a Bible and a copy of our constitution with some other things. I knew instantly what that meant. Egypt never served God and He poured out judgement against them many times and defeated the gods that the Egyptians served when He set His people free. So by erecting these Egyptian obelisks or phalluses all over this world, it is a way of setting up altars to lucifer and spiritually bringing in his demons and power into those areas.

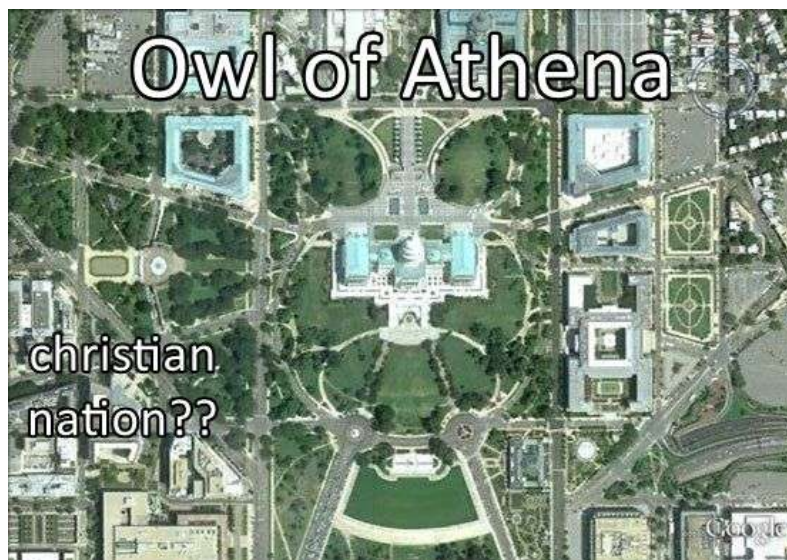

I shared with Pastor Erustus what they did and this is what he said about it:

About the luciferians having demonized objects with a Bible buried under it in prominent areas, I think they are after raising evil alters of darkness as their point of contact for hindering, distorting and destroying people's belief and obedience to God's word in that area. I believe they place it together with the Bible so that those altars serve as points of contact for demonic activity and hinder the word & work of God in the lives of people in that particular area.

They will now start to use these raised evil altars to invoke demons to change people's attitude, thinking, activities, life and faith in God where now people's hearts are unconsciously redirected towards their satanic gods or activities other than the truth in the Bible.

From their highly raised demonized places (altaes) their evil spirits makes it possible for a spiritual attack on Christians, families, or individuals in that area to submit or be suppressed by the demons to totally control the well-being of individuals or the communities and never allow them to believe and obey God's word (Bible). That is my thinking Pastor.

I agree with what Pastor shared. And because they have a copy of our constitution buried under this ancient Egyptian phallus of osiris, who is satan, then spiritually it is saying that he rules over our constitution in this country. The spiritual system that was in place in ancient Egypt rules over our constitution and stands over God's Word in this country. I see it. We have legalized gay marriage, dishonoring God's Word. We have the ancient Egyptian pyramid and many other satanic symbols on our money. We got prayer out of school and our court systems and government are completely corrupt and run by hi-level freemason luciferians.

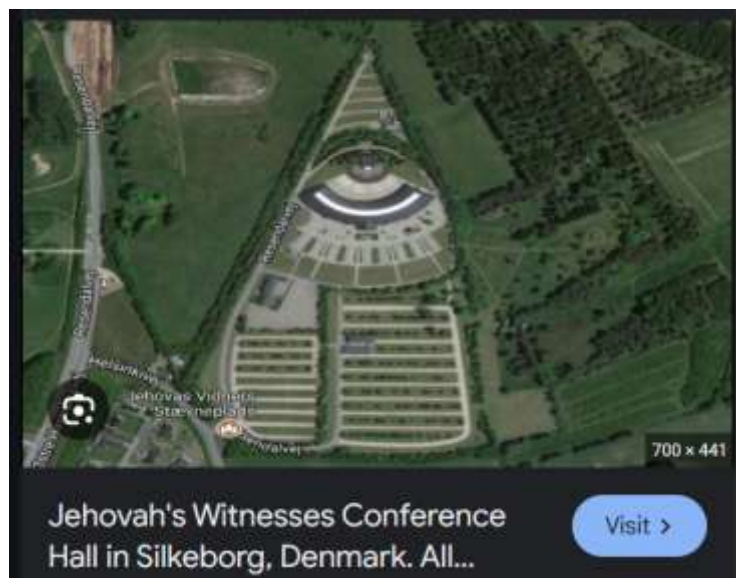

Owl of Athena, - Christian nation? Our cities, roads and land scaping have all been planned and designed by those that rule the world for satan. This is an aerial view of the land around our U.S. Capital building and it forms the shape of an owl. The owl of Athena and the owl of molech, the same owl they use in worship at

Bohemian Grove. This was planned and signed off on by the luciferians who rule our world and one facet of them is the freemasons.

Do not forget the pentagram as seen from google earth in Kazakhstan. This is drawing power from the kingdom of darkness into this area. A highly demonized symbol used as a gateway.

Jehovah's Witnesses Conference Hall in Silkeborg, Denmark. They are certainly part of the freemasons and hi-level luciferians. All of this is planned and carefully orchestrated by design for satan's agenda. Another huge portal and entry point for satan and his demons. You see the eye of lucifer here and the whole thing is in the shape of a triangle hearkening back to the pyramids of Egypt.

Someone else put this one together and it may be a bit blurry but they show l-r: pagan Egyptian obelisk, City of London, Vatican City and Washington Monument. The caption is: serving satan since ancient Egypt. They got it right, they have eyes to see. Every city where these things are is making a statement about the god that is being served in that city or nation and it is not Jesus. Now I will say that God always has a remnant around this world and I'm thankful for that but the majority have sold out to satan and these obelisks are just one proof of that. The hi-level freemasons know what these obelisks mean, they aren't ignorant of the true meaning. Everything that the hi-level freemasons / luciferians are doing in this world is spiritual. We are in major spiritual warfare, we are living in the last days and it all goes back to the question of who will you serve. They have studied their religion and they are devotedly serving their master hoping to hasten the tribulation and the rise of the anti-christ.

Again, someone else put this together and it shows The Washington Monument which is a huge obelisk over the capital city of our nation. Church steeples, bell towers and building spires are also stylized obelisks in worship of osiris who is lucifer and baal.

Sacred pillars shaped like a phallus, often referred to as "sacred pillars" or "phallic symbols," were used in worship as a representation of fertility, life-giving power, and the creative forces of nature, with people offering prayers and rituals to the deity associated with the pillar, often by pouring libations or making offerings at its base; this practice is known as "phallic worship" and was prevalent in ancient civilizations across the globe, including the Middle East, Egypt, and India where the phallus is often associated with male deities like Shiva in Hinduism. 

Symbolism:

The phallus symbolized the male generative power, representing the ability to create new life and promote fertility in both humans and crops.

Freemasons attribute man and animals being generated by osiris' male genitalia. This is the generative principle and generative is one of the main definitions of the "g" in the middle of the compass and square. It all goes back to osiris in Egypt. That g stands for many things but never for the God of the Bible.

These wicked freemasons will do anything to avoid worshipping the True Creator, and giving Him glory. Jesus created all things to the glory of God The Father. **(John 1:3, Col.1:16-17, Heb.2:10)**

Examples of phallic worship:

Ancient Egypt:

The obelisk, a tall, pointed stone pillar, was often interpreted as a phallic symbol associated with the sun god Ra. [🔗](#)

Hinduism:

The "lingam," a cylindrical stone representing the Hindu god Shiva, is a prominent phallic symbol used in worship. [🔗](#)

Ancient Canaanites:

"Baal" was a deity often associated with phallic pillars, which the Israelites were commanded to destroy. [🔗](#)

Examples of phallic worship:

Ancient Egypt:

The obelisk, a tall, pointed stone pillar, was often interpreted as a phallic symbol associated with the sun god Ra. Before the sun god Ra, there was Osiris and remember Amen is Lucifer and he morphed into Amen-Ra the main sun god in Egypt, none other than Lucifer himself.

Hinduism:

The “lingam,” a cylindrical stone representing the Hindu god (shee-vah) Shiva, is a prominent phallic symbol used in worship.

Ancient Canaanites:

“Baal” was a deity often associated with phallic pillars, which the Israelites were commanded to destroy.

Just remember Freemasons worship Osiris aka Lucifer. They have Osiris all over their lodges, clothing, jewelry etc. and they say that life springs forth from him. He is the same one as Baal in our Bibles.

The Shiva (shee-va) lingam – how the worship of a penis started in Hinduism. It is easier to recognize the fertility worship for what it is in India. They bring their

drink offerings and decorate these things. This one looks like it is in a pool of milk and you know what this is representing. This is another form of the phallus being worshipped in fertility cults. It is clear to see that this is the male and female paired together.

The Washington monument is also symbolic of osiris' phallus paired with isis' womb. The sidewalks are laid out in the shape of the goddess symbol with an obelisk penetrating the center. The center is considered the womb. This is a fertility symbol or a generative symbol. Placed in honor of lucifer and asherah or osiris and isis. God told His children in the Old Testament to destroy these sacred pillars used in idol worship by the pagans. We are supposed to be a Christian nation and yet we proudly boast this phallic symbol set up in worship of baal / osiris – against God.

Lucifer's elite have decided what monuments and buildings and architecture are set up in this world. They have decided the layout and design of cities and roads and the names of everything etc. It is all in honor of their god and his system of worship. This is his world. His mark is all over it. We couldn't see these things as well as we can today with aerial views like on google earth.

Here's another public worship lingam where they've poured something red in this one and brought flowers too. I'm amazed at the things that go on in false religions.

Hindu's have these idols in their homes where they can do private worship. Many of these images in public, in temples and in homes have serpents on them. Since this represents shiva, one of his symbols is also a serpent.

Here is a huge statue idol of shiva and the serpent is proudly entwined around his neck. The serpent always represents satan. I believe this is just another form of satan in Hinduism. He even has the trident which looks like a stylized pitch fork of the devil.

In Hindu iconography, the Shiva Lingam, a cylindrical object representing the divine masculine energy, is often depicted with a serpent, symbolizing the cycle of creation and destruction, and the harmony between masculine and feminine energies.

In Hindu iconography, the shiva lingam, a cylindrical object representing the divine masculine energy, is often depicted with a serpent, symbolizing the cycle of creation and destruction, and the harmony between the masculine and feminine energies. The serpent did not create anything but there are many that are deceived and in this false worship system.

Marriage obstacles – Mahashivratri 2025 is the perfect time to seek lord shiva's blessings for marriage. Perform these powerful remedies, chants, and rituals to remove obstacles and attract marital harmony. Here they are worshipping this fertility symbol and making prayers to it which are actually prayers to shiva with this satanic object being the point of contact.

Can you imagine bowing to this and praying to this for your marriage to be healed and healthy? God created marriage when He made Eve for Adam, He is The One to go to with all your problems. **(1 Peter 5:7)**

Own a piece of shiva lingam to experience divine blessings. Enjoy spiritual peace and prosperity by the worship of the lord shiva. Buy now. Look at the blatant

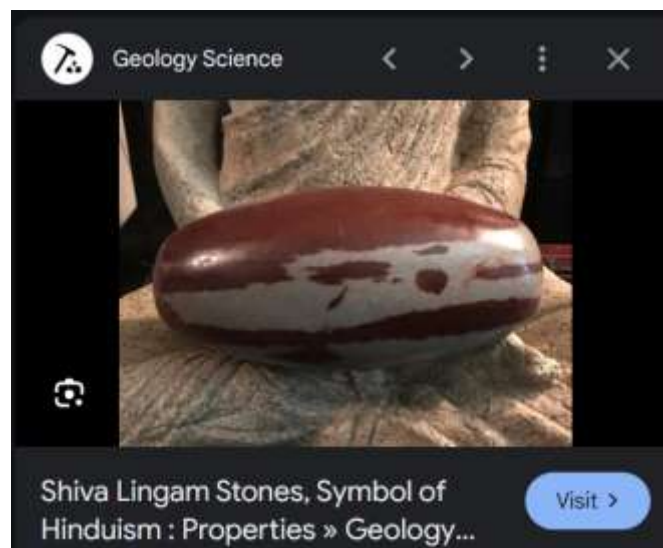

fertility worship and idolatry against God! All of this ties into shiva in the form of a cosmic egg.

Cosmic Eggs & Birth of the Universe

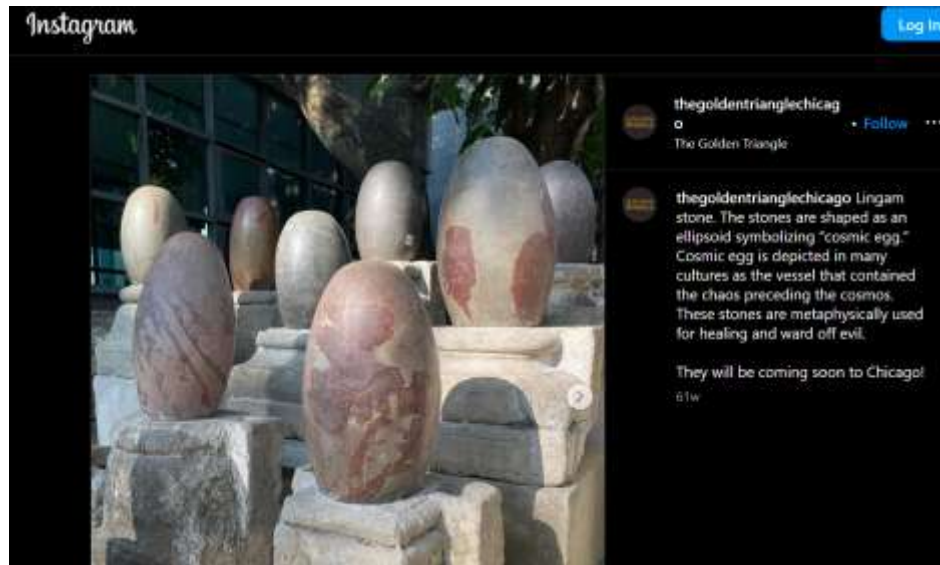

The original form of the Shiva lingam was an egg-shaped one, at least according to the Brahmanda Purana, a key Sanskrit text. This egg-shaped form represented the universe itself. The word 'Brahmanda' itself means 'cosmic egg', with the first half of the Sanskrit word meaning 'cosmos' and the latter half meaning 'egg'.

(Shee-vah) shiva lingam stones, symbol of Hinduism – This is a fertility stone, our Bible refers to it as a pagan sacred stone. This one is egg shaped, it represents the cosmic egg which also represents the false god shiva. Eggs play a huge role in fertility cults and that is why there are eggs in the pagan day that honors the false goddess easter. She was a fertility goddess who has made her way into Christian churches today.

On Instagram – lingam stone. The stones are shaped as an ellipsoid symbolizing “cosmic egg.” Cosmic egg is depicted in many cultures as the vessel that contained the chaos preceding the cosmos. These stones are metaphysically used for healing and to ward off evil. They will be coming soon to Chicago!

Those that do not want to accept Christ and believe that He created all things have come up with many variations as to how the world was created. Here is the big bang theory – there was chaos inside of a cosmic egg that blew up and order came out of that. What non-sense.

This is Jacob Bryant’s orphic egg. By James Basire, 1730–1802 (engraver) - Bryant, Jacob, 1715–1804. A new system, or, An analysis of ancient mythology. vol II plate IV, Public Domain,

The serpent wrapped around the egg represents the phallic, fertilizing force that brings forth life from the egg. The luciferians say that the serpent is the life force from which all life comes. They want to say the serpent created everything.

Genesis 1:1 – In the beginning, God created the heavens and the earth.

Jesus created all things for God's glory – not the serpent which is satan.

Who are they worshipping because they are honoring a serpent.

Revelation 12:9 - And the great dragon was cast out, that old serpent, called the devil, and satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him.

We did not come from a serpent and we do not have a reptilian part to our minds as Barak Obama said we have. We were created in the image of God. (**Genesis 1:26**)

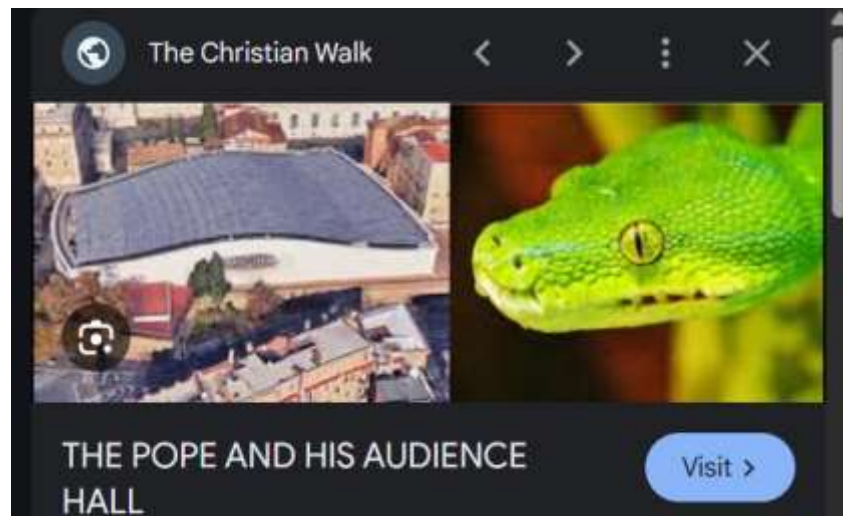

Those who honor serpents in their religions, and secret societies are worshipping satan. Remember the book written by former freemason Jim Shaw in which he said inside the freemasonic lodge in Washington, where he went for his initiation into the 33rd degree, the walls were lined with serpents. The Egyptian pharaoh's wore serpents on their headdress as did their god and king osiris who is satan. He used the serpent to cause mankind to fall away from God, one of his greatest victories.

Here is the pope in the hall of the pontifical audiences. Designed in honor of satan.

I hope you have eyes to see this huge serpent where the pope conducts meetings. He speaks on the platform where the serpent's mouth is.

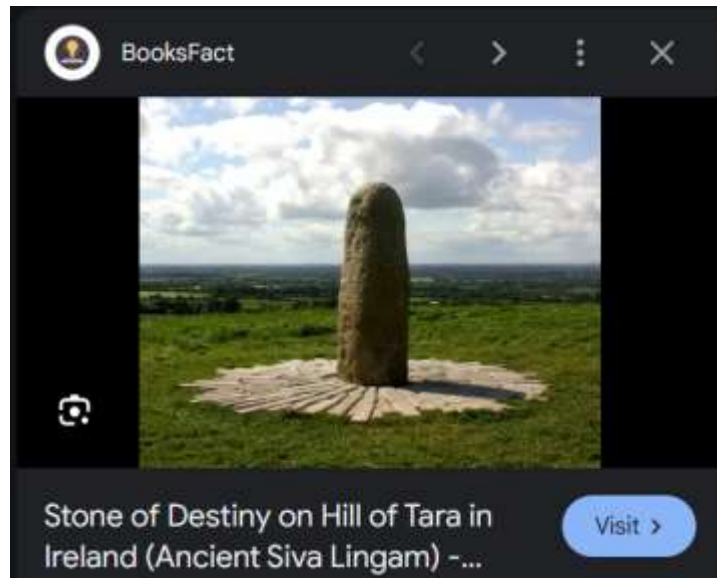

Here's the outside and it is easy to see it was completely designed to be a serpent after the master of the Roman Catholic church, satan himself. Those who honor the serpent worship satan.

Vatican City is laid out in the same shape as a shiva lingam.

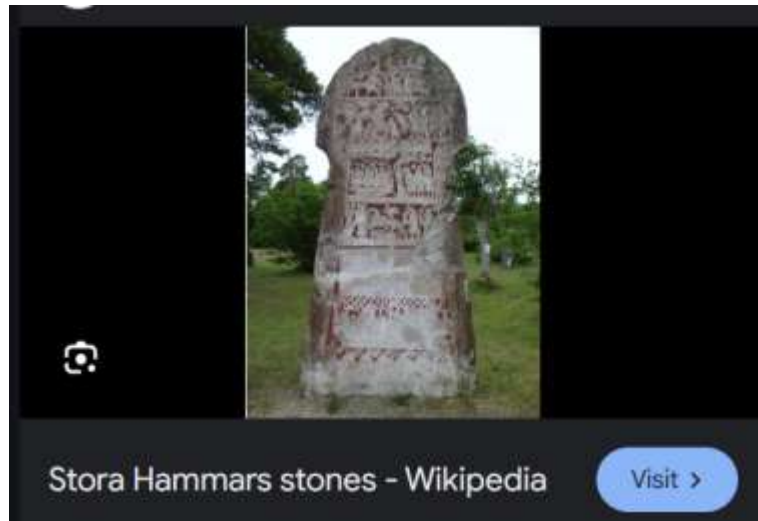

Just look at the money, time and effort put into this fertility worship.

This Temple of Fertility in Peru is self explanatory as to what these stone pillars or sacred stones are.

Vietnam

These standing pillars are in Ireland and Vietnam.

This stuff is all over the world. And countries that didn't exist in ancient times like the U.S. have just imported them or built new ones and set them up in places to be honored.

The obelisk symbolized the sun god Ra in Egypt.

The word 'obelisk' literally means 'Baal's shaft' or Baal's organ of reproduction' (Penis in layman's terms).

Who does your government serve?

The obelisk symbolized the sun god Ra in Egypt. The word 'obelisk' literally means 'baal's shaft' or baal's organ of reproduction' (penis in layman's terms). They show an obelisk in Egypt and The Washington Monument in Washington DC. They pose the question – "Who does your government serve?" I notice on the freemasonic news, like the Today Show, they love to show the Washington Monument in the background on many of their shots - paying reverence to the god they serve and speaking to the brotherhood.

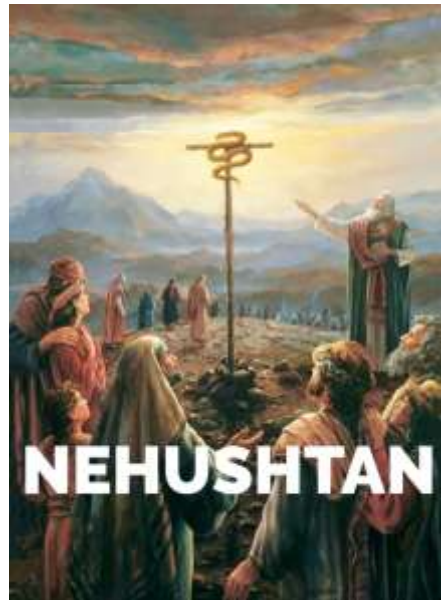

CLOSING

This next passage of Scripture is about King Hezekiah when he began to reign in Jerusalem.

2 Kings 18:3-7 - And he did *that which was* right in the sight of the LORD, according to all that David his father did. He removed the high places, and brake the images, and cut down the groves, and brake in pieces the brasen serpent that Moses had made: for unto those days the children of Israel did burn incense to it: and he called it Nehushtan. He trusted in the LORD God of Israel; so that after him was none like him among all the kings of Judah, nor *any* that were before him. For he clave to the LORD, *and* departed not from following him, but kept his commandments, which the LORD commanded Moses. And the LORD was with

him; *and* he prospered whithersoever he went forth: and he rebelled against the king of Assyria, and served him not.

The high places he removed were pagan shrines like the shrine of freemasonry, the images were sacred pillars just like the obelisks and standing stones we have been learning about and he cut down the asherah poles which KJV calls groves. God blessed his obedience by giving him success in whatever he did.

The Israelites were sinning against God so He sent fiery serpents to bite them and many of them died. Then when they realized their sin they went to Moses and asked him to ask God to take the fiery serpents away. God told Moses to put a brass serpent on a pole and have the people look at it in order to be healed. Hezekiah called that serpent nehushtan. **(Numbers 21:5-9)** This was a one time event and we see in 2 Kings that they then began to serve it as an idol, as a god of healing. Where do we see the brass serpent on a pole today?

These are modern day symbols of medicine. This goes back to the serpent on the pole from Scripture. Hi-level freemasons revere the serpent for healing and not Christ. The winged rod with two serpents is for the false god Hermes and in Rome he was known as Mercury. On the right, the single snake on a pole was for the false god Asclepius. Both symbols sport serpents and link to satan and the fallen angels.
